CAMPUS NEWS

Council news

by Don Wright

The BC Student Federation (BCSF) and the National Union of Students (NUS) have approa-ched the BCIT student council

once again this year regarding the SA's membership status. Currently both organizations have BCIT listed as a 'member in bad standing', because past councils have refused to pay the yearly fees, but have not yearly fees, but have not withdrawn in a manner suitable to the groups. Each requires a referendum which would 'allow the students to decide if they want to be in BCSF and/or NUS', before considering a school added or removed from their membership. The membership fees for each organization are 50 cents per student per semester, and this is supposed to be in addition to regular student fees

As with previous years, the council responded in a somewhat cold, close-minded man-ner, all but dismissing the two group's activities as unneces group's activities as unneces-sary, and suggesting that the two groups were of no use to BCIT students. Reprieve came when Michael Deane suggested that the two reps submit a report to the council outlining what they had to offer. This was accepted by the council, so more news on this can be expected.

Exposure update

"So far, we have received 22 confirmations, and it looks like there will be quite a few more panelists confirming in the next

panelists confirming in the next few days." Busy making the final arrang-ements for Exposure '80, Wen-dal Miller, Business Society Chairperson, takes time out to talk with the LINK. "Many of the guests have expressed a keen interest in meeting students who are look-ing for a job. One employer has even told me they are after a total of nine students to work full-time for them. Others are simply interested in finding out simply interested in finding out

what BCIT students have to offer'',says Wendal. ''Of course, the main empha-sis is on the opportunity for

Dave

photo by

sis is on the opportunity for students to meet a group of employers and get a feeling for what they look for in a potential employee''. Wendal said. Exposure '80 is to be held on February 6th, and Wendal explains that business students have the afternoon off to attend. Wendal also reminds us that

Wendal also reminds us that Hospitality and Tourism are looking after the wine and cheese following the open forum. "It should prove to be a great afternoon".

LETTERS TO THE LINK

A mug for Joe

That was THE Prime Minister here on Tuesday. His name may be Joe and his native country Alberta, but the man managed to raise himself from office boy to Prime Minister and we at BCIT should give credit for a little class. The S.A. at least. The "gift" the students of this institute

bestowed upon the man who will decide the fate of Canadians in the olympics, was a beer mug. A ceramic mug, cream in colour with orange, green and yellow stripes, school colours I grant you...however, the mugs were given away to members of the student executive when the TNT decided not to sell them. One member of the S.A. was so impressed she wrapped hers up and gave it away as a Christmas present. The lucky leftover passed to Joe on Tuesday last

Last year, a gun-slinging Pierre Elliot Trudeau recieved a BCIT athletic jacket..... corny perhaps but entirely acceptable because of the high athletic standing at BCIT, and because it revived images of the faded Trudeaumania craze for the 30 seconds the Prime Minister had the jacket on. The jacket said a lot about BCIT and Trudeau..

I suppose there are those that would argue a beer mug says a lot about Joe. That's neither here nor there. It is rather ironic that a school so wary of alcoholic functions should offer a ceramic beer mug to the Prime Minister. Empty at that. Why not a six pack, S.A.?

It must be pointed out that THE mug was of a newer breed than the BCIT steins of old. Luckily, Prime Minister Clark did not receive last year's stock upon which the schools initials are blazened-BCTI.

Staff box

All's well in the drunk tank tonight. Don, Terry, Dave, Henry, Ross, Wendal, Janet, Bev, Shelley, and various mis-sing persons have checked in

(and out rather quickly). Ross's clone Calvin has arriv-ed and is making snacks. Nancy had to leave this funspot before her Datsun turned into a pumpkin, but her efforts are as always appreciated. All and every effort is appreciated here in the Rec Room of the SAC.

This is an election spectacular....a quicky poll taken here in the Starship Enterprise has the Rhinocerous party ahead by 9.5. Ten people voted, not bad, looks good for the Rhinos.

looks good for the Rhinos. Thanks to all the regular columnists this week. Without you, beer wouldn't be worth drinking, plants wouldn't be worth growing, plays wouldn't be worth playing, and sports wouldn't be worth the theme from Rocky.

Opinions expressed within are not necessarily those of the BCIT Student Association or (god forbid) the BCIT Administration. Editorial submissions are welcomed. Letters should be typed and signed and may be edited for taste, length and libel.

ARTS AND REVIEW

Styx strike

Styx in the Collseum, the things asolescent rock fantasles are made of. Lotsa lights, long hair, fireworks and flash.

It was a very young crowd, enthusiastic and spellbound. And those creamy smooth romantic tunes came up (eg. 'Lady', 'Babe') the great hall was filled with thirteen year old ooooohs, ahhhs, croons, groans, screams, swoons and total melt screams, swoons and total melt downs. I mean it wasn't my complete bag of tea, but I'm sure it meant a lot to a lot of people. My hat goes off to Tony Brock of the Babys, the best drum solo I've seen in a while Well to be honest, that wasn't the only thing I saw last week, there really hasn't been any-thing going on around here. I guess that's okay, but one review does not a column make. I suppose I could give an album review, or pretend that I

I suppose I could give an album review, or pretend that I went to Britain last week, or tell you about my intimate relation-ship with Anne & Nancy Wilson or talk about my new nightclub, or how I got rid of my wart, but instead I'm going to tell you to go out and buy the new Rolling Stone. Before you go to another concert you should read the cover article. Perhaps if everyone reads it, nothing like everyone reads it, nothing like Riverfront will ever happen Riverfront will ever happen ago. The article deals with the tragedy that took place at the Who concert in Cincinatti, it's very personal and almost nau-seating. I'm sure that everyone who frequents large concerts knows how scary they can be. Large crowds are an unthinking, dangerous mass of flesh when something goes wrong. It's only human nature to think of human nature to think of yourself first when times get rough, and if it means stepping on someone's face to preserve

your existance, most of us will do it. Because of this trait, do it. Because of this train, eleven people, much like you or me, lost their lives by just going to a concert. This happened partially because of the crowd, partially because of the physical design of the building, but mostly because of the ignorance but of the arena staff. This ignorance is wide-spread, and there is no reason why some-thing like this might not happen at our very own Coliseum. I hope like shit it doesn't. The fact that there won't be any more festival seating helps, but I wonder how much emergency training the staff has had. I'll bet the answere is none or less. What went on in Cincinnati should be a lesson to every

arena and stadium in the world. Since no one else will bitch about this school, I guess I might as well. Did you know that we do not have a student ombudsman? If you have a tyrant for a teacher, chances are he is a tyrant to everyone and nothing can be done within the current system. That's where an ombudsman fits in, they at least have bargaining power. We used to have one, but I suppose that since everything is so perfect at this institution, he didn't get much work.

For once I'm looking forward to seeing the Police. (pretty funny,eh?)

Last toke: Wow; we've got a jukebox, popcorn, pizza, and pinball, now maybe we can talk the SA into getting us a soda stand and a drive-in theatre.

Next week: Radio Rock. In the SAC.Friday. BE THERE.

...and now for something completely different

If I mention the name Roy Orbison,one of two things will probably come to mind....(1) "Isn't he dead?" or (2) "dum dum dum dummy doowahhh". If the latter, I don't have to tell you about the man and his music, If the former, I can tell you that Rôy Orbison is very much alive. much alive.

He's currently playing at the Cave until the 26th and to me it was an eye-opening experience. Rock and Roll owes a lot to the "Big O". He was the only solo artist to survive the onslaught of the Beatles and Mersey-mania in the 60's. Six of his songs were million-sellers and he incorpora-ted many new ideas into his music such as the crescendo

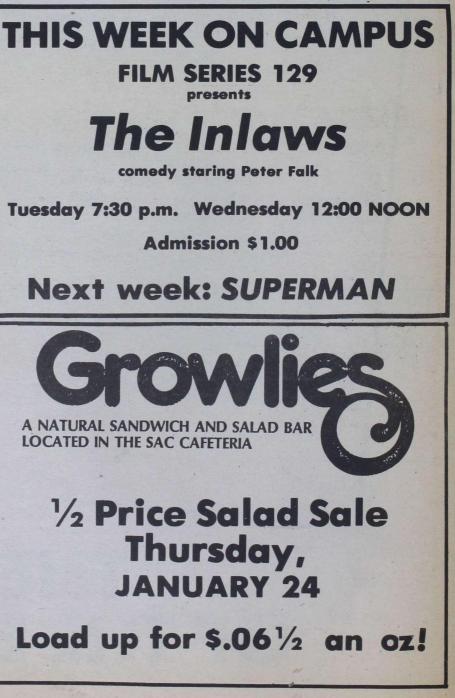

(eg:Zep's Stairway to heaven). Orbison is mostly known, though for his voice and his ability to run through a multi-tude of octaves and despite the fact that he will be 44 in April he can still hit those unbellevably beautiful high notes in his songs. Having only heard Roy on album a few times and never live I was surprised at how close the live sound was to the studio sound.

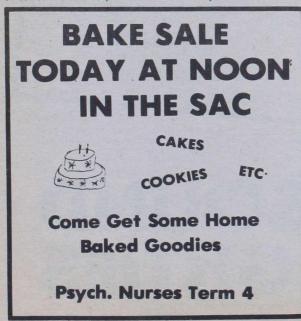

I was too young to catch the "Big O" the first time around. When 'Only the Lonely' came out in 1960 I was a mere one year old, so Roy Orbison did not play a big part in the expansion of my musical knowledge. I went to the concert last Friday to be able to say that "Yeah, I saw Roy Orbison" and also because I thought it might just because I thought it might just be a good time. It was more than that. Somehow, Orbison trans-ported me and the rest of the audience back to the early 60's...either that or else he brought part of the 60's to us. A comment on the audience. It was young. Younger than I thought it would be. By just figuring out the years, people who were teens when Orbison was going for gold would be 30 years old (give or take a few) but there were a surprising number of people in the audience who were, as I was mere babes when were, as I was mere babes when the man was a hot new item on the 'pop' charts.

I noticed a couple of faults with the performance, but since this is more of a story than a critique, I won't dwell on them.

The audience stomped and The audience stomped and clapped all through the show as Roy rattled off his big hits one after the other. 'Only the Lonely', 'Running Scared', 'Blue Angel', 'Crying', 'Dream Baby', and ending with 'Oh,Pretty woman' which got a repeat as his encore number after reciev-ing a standing overlog.

ing a standing ovation. The show only lasted an hour but it was an hour in which the audience totally lost itself in sheer admiration for the staying sheer admiration for the staying power and music of Orbison. There he was 44 years old, no hit records in 15 years, he had lost his wife in a motorcycle accident, and two of his three sons in a fire. Yet he was up there, singing the way he had in 1964 every note perfect Ha there, singing the way he had in 1964, every note perfect. He swept the audience away from the Flying Lizards and "The Shape of Things to Come" and back to a sound which some of us hadn't known, but were coming to love and believe in. As I said, an eye-opening experience, and you've got until Saturday to take it in.The "Big O" is still big with me. Henry Stevens Henry Stevens 2nd year Radio

her family is like. She then decides to go into seclusion in the mountains.

the mountains. Tony Kirby is distressed because he may never see Alice again. The Kirbys hope they never see the Sycamores again, and the Sycamores feel ashamed for ruining Alice's becau hopes!

Sounds confusing? Well it is. But alas, love conquers all and good wits prevail.

good wits prevail. "You can't take it with you", though entertaining is not really a great play. The plot is rather predictable, and the play some-what slow in spots. The play, however, is carried off by some good performances by the actors portraving characters in the portraying characters in the play. In fact, the whole play relies on the somewhat crazy

relies on the somewhat crazy characters for its success. Some of the more notable performances were, Doris Chilcott who plays Penny Sycamore (Alice's mother) a mother who writes plays on sex, monastries and wars, and Owen Foran who plays a witty grand-father who collects snakes and is hounded by the internal revenue service. The only problem is that he is registered as having

died eight years ago! Other notable performances are by Sheila McCarthy who plays Alice's sister Essie, and is constantly seen running around the house practising ballet even though she can't dance at all. By far the best performance is

by Duncan Fraser, who plays a rather eccentric Russian dissident who teaches ballet and is fond of saying ''it stinks''! Shelley Bie and Brian Paul who play Alice Sycamore and Tony Kirby respectively both bive adequate performances. "You can't take it with you" is light, pleasant comedy, it

able

good week.

BY:Ross McIntyre

The Superbowl was one Sunday item...Styx and the Babys were another. Blotto touched the item lightly. I, however, shall delve deeper. 'Don't look now, but here come the eighties' was the styx the eighties' was the styx breaker, handled very precisely by a well polished band. For the first time in a long long time the old round barn had good sound (fair compared to the Orpheum or Q.E.) all night long. Guitarists James Young and

Tommy Shaw at times resemb-led child and Santa at Christmas Shaw, who is somewhat dwarfed by his guitar would be a good candidate for the 'I hate Randy Newman' fan club. Young, on the other hand, could probably make a good center for the Chicago Bulls. We also find an introvert bassist, an average drummer and Dennis DeYoung, a piano man who flunked out of ballet school.

ballet school. The performance of Styx can be straddled on two sets of shoulders. Those of DeYoung and Shaw. The overall perfor-mance was slick and fun. The audience definately got their moneys worth. (which is a lot for a \$10.00 ticket). Shaw showed off his southern background with a tasty acoustic set leading into 'Crystal Ball'...meanwhile into 'Crystal Ball'...meanwhile James Young exercised his ego with another in a long string of

mindless solos. As for the 'Grand Decathalon'...they just

wasn't great but it was enjoy-

Even if you aren't nut about

the play, you'll definitely like the New Arts Club Theater on Granville Island. Go see it! Next week I'll be reviewing Vancouver's newest ''A Kettle of Fish''. Until then have a cred week

cleared the hurtles. The **Babys** are a good band. It's too bad their music is represented by two pseudo bop singles. The production on the singles. The production on the first Babys product and 'Head First' is crisp and the tunes are well polished...this band does not deserve an opening bill for anyone...They are headline material. Watch out when 'Uni-on Jacks' takes off. As Blotto said ')sitting next to me in section C row 9) hats off to Tony Brock for a superb solo. Brock for a superb solo.

Since way back in October, the Second year Radio option has been beating its vinyl head against the wall of the SAC trying to please all within audible range. I'm happy to say that we've finally succeeded (sort of). BCIT Radio is an Adult (sort of). BCIT Radio is an Adult Oriented Rock facility (there Russel), booming (turn it up!) into the brains of many an unsuspecting listener. No, it's not the FOX or CFMI, it's a compilation of about 25 future writers, announcers and produc-ors truing, their demodeat to ers trying their damndest to sound proffessional with (see pg. 5) lots of imagination. If you've got something happen-ing as far as events go, drop us a line and we'll get it 'on the

Chow fer now...

ANYONE FOR DINNER? OR MAYBE A PLAY?

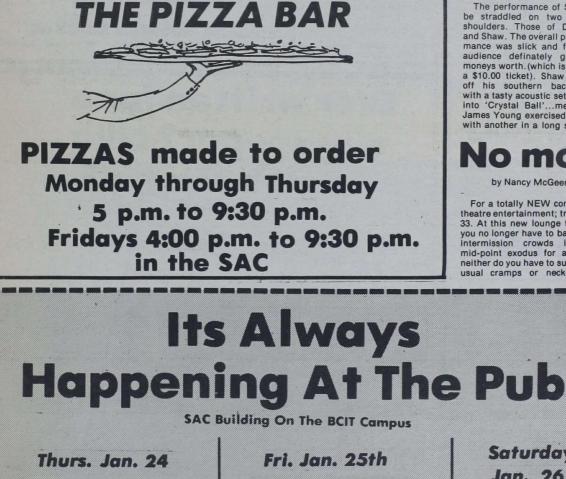

by Dave Sealy

YOU CAN'T TAKE IT WITH You!! No I'm not being philisophical, this is just the name of the play currently on stage at the New Arts Club Inteater on Granville Island. Those of you who have not yet gone to this new theater, will be delighted to know that Nacouver now has another nicely sized theater for play-goers. The New Arts Club Theater was recently opened (in September of last year), and in comparison to the Old Arts Club Theater on Seymour Street is quite a gem! This new theater seats about 450 people (the old theater sat about 250) is more comfortable and has about three comfortable and has about three times as much available stage area. In addition the new theater is housed in an aesthetic structure which sits right next to the water, which enables you to have a rather nice view of the city at night. But, enough of the theater, let's get on with the play!

Currently playing at the New rts Club Theater is George Arts Club Theater is George Kaufman and Moss Hart's light comedy "you can't take it with comedy "you can't take it with you". The play centers around the life of a poor but rather unique family during the de-pression years.

The main story line of the play revolves around Alice Sycamore (one of the daughters in the Sycamore family) who falls in love with Tony Kirby, the son of a wealthy Wall Street busines-sman. Alice is convinced that because of the family's different social backgrounds she will not be allowed to marry Tony. Fearing the worst, Alice never-theless invites the Kirbys over for dinner to meet her unique family. Unfortunately, the Kirbys arrive on the wrong night and everything that could The main story line of the play Kirbys arrive on the wrong night and everything that could possibly go wrong does! Alice Sycamore is completely

heartbroken because the Kirbys will definitely not allow a marriage after having seen what

No more battles

night with a Rhino

by Marianne

Once upon a time I had laughed in the face of Doug "the Weeb" Wiebe's face for Albert the 'Cad' of the Rhino party. If you are like myself, who chuckled, then scratched her head in ignorance, and mumbled "what?!". Let me fill you in a bit.

Why the Rhinocerous party and not say the Kangaroo Party you ask. Well, national cam-paign chairman Charles Mackenzie claims it's because this thick-skinned, myopic, a little stupid, likes to wallow in mud, and runs away from every confrontation character of an animal is the prototype of every politician you have ever seen. (How symbolic)

And as of January 18th, 1980 they became Canada's 4th largest political party. They had beat the Social Credits by beat the Social Credits by declaring 27 more candidates to the S.C.'s 29. "As you can see this isn't funny business!" exclaims the Weeb. His friend Albert the 'Cad' is by no means what his alias may imply. It is derived from being the exclusive owner of a mon-

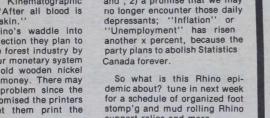

Imply. It is derived from being the exclusive owner of a mon-strosity he cruises around town in. Namely a 1977 Limited Edition Cadillac Eldorado. If he appears a bit pallor these days it's probably from fear of his ownership by his (long-time Tory) parents. He has just desired bimself a candidate in declared himself a candidate in the Surrey-White Rock-North Delta riding against Benno Friesen. (his parents campaign for him)

"It'll take me awhile to get over this osterization", says the 27 year old Kinematographic engineer. "After all blood is thicker than skin."

If the Rhino's waddle into power this election they plan to stimulate the forest industry by converting our monetary system back to the old wooden nickel and plywood money. There may be a slight problem since the 'Cad' had promised the printers he would let them print the money

Rhino campaign platforms are: 1) encourage the people to take no interest to the rising rates no interest to the rising rates (and hopefully they'll go down) and , 2) a promise that we may no longer encounter those daily depressants; "Inflation" or "Unemployment" has risen another x percent, because the party plans to abolish Statistics

stomp'g and mud rolling Rhino support ralies and more. Does Richard the Troll really

Grow your own

Have you ever considered growing your own? from seed? A lot of houseplants are easy to grow, the seeds are inexpensive and reaily available.

In general, you will need some sterilized potting soil (a seed-starter mix is even better), a small plastic flat (a washed sour cream or chip dip container works well), a plastic bag, a reasonably warm room, and bright light.

bright light. More specific growing requir-ements like soil temperatures, moisture, light duration, fertili zer, and seed depth in the soil is always provided with the seeds (usually printed on the back of the package). In general, you moisten the soil with warm water, spread it out in the container (don't pack it down), sow the seeds to the correct depth (refer to your seed

It down), sow the seeds to the correct depth (refer to your seed packet), give the seeds a little sprinkle of warm water, then place the container in the plastic bag. You might need to prop up the plastic with toothpicks shov ed into the soil, and keep the plastic bag open a little if the soil is quite damp. Put the container in a warm bright soot soil is quite damp. Put the container in a warm, bright spot (on top of the refridgerator in the kitchen is a good spot in a lot of homes). ***Remeber to take the seeds out of the bag every few days to check for drying soll or emerging seedlings. Wondering where to get these

seeds? Most garden centers or department stores with seed racks have Coleus, garden mag-azines with classified adds offer specialized cacti, fern, begonia, and other exotic seeds. THE STOKES SEEDS Ltd. offer the following seeds:

False Aralia (Dizygotheca ele-gantissima) 25 seeds/\$1.90 Maidenhair Fern (Adiantum)

\$4.25/pkt. Silver Fir (Pteris Argyraea)

\$1.75/pkt. Umbrella plant (Cyperus alternifolia)\$.90/pkt. Australian Umbrella tree Shefflera actinophylla) \$.70/pkt

Palm (Chamaedorea elegans) \$1.25/pkt.

Labatt's world championship snoball

The sixth annual Labatt's Snowball tournament is being held this year at 150 Mile House, B.C. on January 26 & 27. At present B.C.I.T. has a team entered, but is still looking for players. Anyone wishing to participate should contact lan Mackenzie through Student Act-ivities co-ordinator Wally Row-

This form of Snow-ball was started by Ian Mackenzie in 1975 and has remained a northern ritual for the past 6 years. The game involves gene-ral softball rules with a few refinements, such as:

1.the game is played regardless of weather conditions 2.18 players per team

3.13 players per team on field In an Inning. 4.5 females must play per INNING * PER TEAM

5 All players on score sheet bat in order

6.Pitchers can pitch only 1 Inning per game

Vollyball

7.A game consists of 4

innings 8.Pitchers cannot pitch fast or windmill styles.-only slow underhand will be allowed

9.No spikes allowed 10.Pitching order; 1st inning male, 2nd female, 3rd male, 4th female 11.A default is issued if a

team cannot field enough players 20 minutes after scheduled start time.

The Canadian Championships are at present in the planning stages, with the event proposed for April 1980 on Grouse Mountain, B.C. At that tournament the field will consist of 24 teams, so if any technologies are interes-If any technologies are interes-ted in this upcoming sporting event of the decade, contact lan Mackenzie and his Northern Squad from 150 Mile House. All participants are ensured of good times, good friends and whatever else can be done in the snow snow.

WOMEN...Does the thought of spending an hour watching 12 muscular men engaging in an

muscular men engaging in an exciting game of volleyball interest you at all? In February, on the 24th to be exact, the Cougar Men's Volley-ball team will be travelling to Vancouver Community College to take part in a Totem Conference tournament. The team has the drive the

The team has the drive, the talent, and the perseverance to

put in the effort, but they are lacking a crowd to cheer them on. As everyone knows, a noisy, supportive crowd does wonders for a team's morale, to say nothing of intimidating the other team.

Once again, that date is February 24th, at VCC. They are looking for some crowd support, and will appreciate all they recieve.

This weeks recipe was discov-ered on the band of a tagged mallard. I haven't mentioned the birds name, because she fears she may be captured and used to stuff a pillow. This demented, derelict of ducketry was found waddling amongst the bull rushes of Central Park in an intoxicated state. When

asked about her state, all she replied was 'It must of been fermented seed', and wriggled her tail and waddled back into the bullrushes. This reply sounds like a Political Party I

know, always ducking the major issues. Oh well, enough poitics and bird jokes, on with the soup and out with the (one more pun)

after a rich meal...so get out tonight and spend a little, and tommorrow you too, can contact this incredible soup.

3 cups water

cups Beer whole garlic cloves, peeled 6

2inch bay leaves fresh sage leaves or one-half

teaspoon dried sage 2 sprigs thyme, or one teaspoon dried thyme

4 ounces vermicelli one-half cup grated cheese

one-half cup grated cheese Heat the water in a large pot until it boils. Add the beer, garlic, orange rind, bay leaves, sage and thyme, and boil for twenty minutes. Strain through a selve and relax by taking the strain off yourself by having a beer. Add the vermicelli and cook it until it is soft----about 300 seconds ')what's 300 seconds in metric..?) oh well...Let's have another beer. Stir in one-half cup grated cheese and serve at opnce with plenty of of good , clean, crisp, guackers.

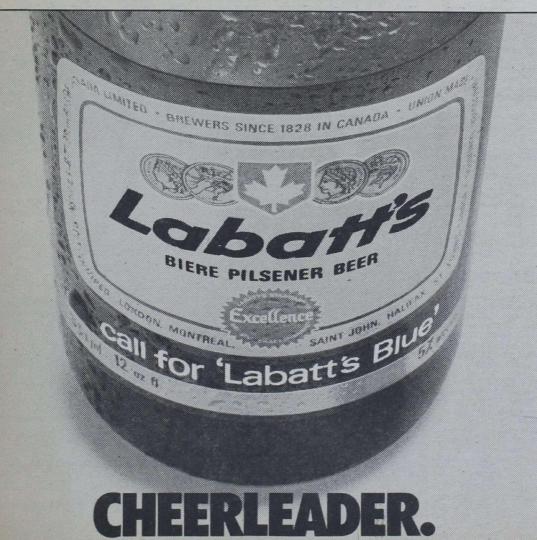

plenty of of good , clean, crisp, quackers. So next time your meals become bland and boring, invite a bird over (no sexist connotation implied, merely a quack for quackers) and create this armorous soup. I guarantee it will ruffle your feathers, while setting the mood for a romantic and BREATH-taking evening. CHEERS BEERS.

P.S. Just a short note about a good film I witnessed on the weekend. Kramer vs Kramer is a good flick about one of todays a good flick about one of todays sensetive topics; child custody in a divorce. So if you want to put \$8.00 to good use, find an emotional lady, put on your rubber boots (the aisles are full of tears) and go see Kramer vs Kramer

Kramer. Also special thanks to Knome . I never knew you were so shy about cigars. Oh well, we all our quirks... But Knome, don't try and light it or you really might embarass yourself. Noddles says hi and I say bye, so until next week; stay clear and drink the beer...

Intramurals

Intramurals go back into full swing once again with volleyball basketball and indoor soccer underway. All the sports have attracted a capacity number of teams but individual players may be able to be picked up still by some of the teams.

INDOOR SOCCER is a new and fast moving sport for the gym. The soccer ball is smaller than regulation size but this helps for ball control. There are no offside rules so there is lots of action. This weeks results will be in next weeks column. (also results will be posted by the SAC gym doors).

The BASKETBALL LEAGUE has grown to six men's teams. There is also two women's teams with more room for teams or individuals. In Mondays teams with more room for teams or individuals. In Mondays action, Gas & Oil tied last years Champs, Marketing, 34-34. Both teams played well. Standouts were Gary Tecchel

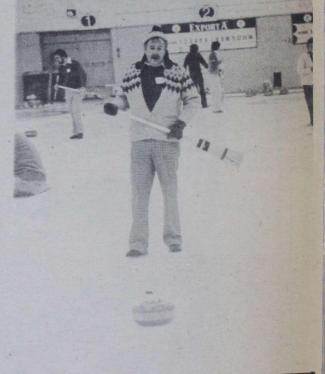

and Dennis Collins for Market-ing, with the unstoppable Nick' Hawker for Gas & Oll replying. Building, in their first appear-ance, dominated the game against Op-Man, winning 48-24. Rob Gutjahr for Building and Rob Gutjahr for Building and Perry Boeker for Op-Man were selected stars. In the final game, Survey defeated Forestry It appears that the members of the Survey team are the same team that were runners-up in last years Flag Football competition. Leading the Survey team was Tom Flynn. Scott Folk of Forestry replied with some fine outside shooting. Results are posted by the SAC gym doors.

VOLLEYBALL is as popular as ever with the Wednesday as ever with the Wednesday noon lunch break providing lots of laughs and action for both participants and spectators. Results of the games are as follows:

No Names - Med Lab 'B' 22-11 23-8; Med Lab 'A'- Comp Systems 31-2; 26-6 Springs -comp Hot 'A' 17-13 20-11: Building 1 Tied Mining 10-15: 18-15 Killers 14-16; Hustlers 11-13 Fin Mgmnt 1 tied Cougars 11-13; 17-12 Septics over Fin Mgmnt-Mech 19-9; 14-14 Fin Mgmnt-Mech 11 - Med Lab 10.42: Lab 10-13; 14-10 EHI's 17-6; Vikings 24-8 Surveyors - Med Rad 1 22-11; Chem 24-4 Techs - Drunkards 17-14: 19-14 Compb 18-10; Med 29-8 -Nuc The following players were selected for their contri-bution to their league play: Paul Who (Joes brother) Harris Dale B corrine Friesen Hustlers Hotsprings Mining Mech 11

SCUBA CLUB sign up now for scuba lessons to start February 11th (class only takes 12, and fills quickly so DON'T WASTE TIME -REGISTER NOW!!) Drop in to the Campus Life

trailer and pick up information sheets and medical forms. For further information call Ivan Chasse at 585-8610 (after 6:00 pm)

Cougar Basketball teams hit PG

ATHLETICS

This weekend the Cougar's Basketball teams flew up to cold vieague games each against the college of New Caledonia. In Men's action The Men's action The Cougar of the Cougars nipped CNC 63 - 56. BCIT had an explosive start, scoring 20 bis in 5 minutes, and at the board. However this changed very quickly, as CNC started to board. However this changed very quickly, as CNC started to board. However this changed stathe lead. At one point CNC was actually ahead, but the men opt CNC away in the last 5 minutes of the game. Top scorer of the game was fund fom Raine was behind him with 13. Dave Hubbard scored to pts and hauled down 6

10 pts and hauled down 6 rebounds.

rebounds. Saturday's game was a much better one as far as the Cougar's performance was concerned. Although not duplicating their explosive start they did manage to almost totally dominate the game. This time their start was executing but explosive as

game. This time their start was everything but explosive, as they allowed CNC to take a 12 -4 lead. However the men kept their composure and by the end of the first half were in complete control of the game. Playing good games were John Mathewes who although only scored 8 pts, played a fantastic defensive game. The last few minutes of the game saw Dave McBride coming off the bench to also play a great game. game.

Tom Raine was top scorer with 25 pts and Brent Kohosha netted 14 pts.

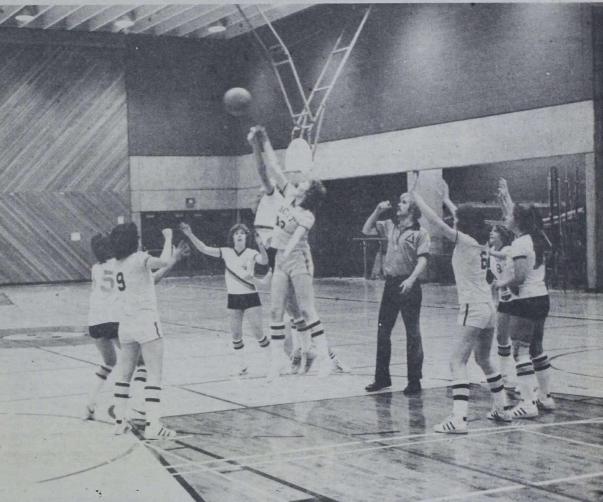

Womens Basketball

Our ladies team was just as

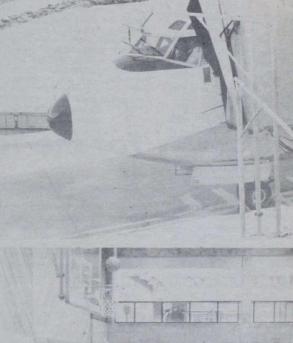

Our ladies team was just as successful as our men staging one ranking CNC team. The games were very well played by all members on the team. Sue Trautman shot from outside for 16 pts and Lorraine Mosher added 12 in the first game. BCIT showed that they an play against the best, and if they set their minds to it, beat the best. Both games were played with great intensity, and desire to win. The scores of the games were 42 - 37 and 42 - 35.

Some 'Cultural Content'

This is a difficult article for me to write: there are so many directions this article could take Just as there are so many different moods or tones this article could convey. I am writing this because of a mul-titude of reasons: an idea that incubated in my mind as I was reading the winter issue of the UBC Alumni Chronicle; experiencing feelings of uncertainty and apprehension as the world grows smaller and the political climate grows icler bringing about upheavels throughout the world resulting in mass influxes (some people may say epide-mics) of non-white immigrants mics) of non-white immigrants to predominatly white countries; reading too many letters to the editor sections in Vancouver publications -- letters conveying very negativistic attitudes to-ward a certain group of refugees during the peak of the boat people crisis last year; hearing comments from fellow BCIT students such as: "I should get some boat people to carry these

students such as: "I should get some boat people to carry these books for me" (one white student saying to another white student as they were both loaded down with textbooks). Hey, I'm not saying white people are the only human beings carrying around pre-judices; all people of all ethnic groups have prjudices, have expressed raciast sentiments toward people of differing racial origins. Orientals possess pre-judice among themselves: Chineses look condescendingly upon Japanese, who, in turn, upon Japanese, who, in turn, look condescendingly upon Koreans; Irishmen mistrust Englishmen; Jews hate Arabs; East Indians dislike Pakistanis;

Blacks hate whites; and the list is almost endless. We can all be guilty of some form of racial prejudice: misconceptions.

myths, and mistrust about beople of cultural/ethnic/racial groups abound. other than our ov/n

world with so many a volatile issues at stake, it is imperative that we, as human beings who share living on this beings who share trying on this fragile planet, come to terms with our suspicions, prejudices, and epimosities toward "that with our suspicions, prejudices, and animosities toward "that Chinaman", "that fat Jap", "that dirty Hindu", "that smel-ly Nigger", etc. As an Oriental growing up in a predominantly white culture, I was, at various times in my life, subject to racial prejudice. To those individuals who taunted me with their racial who taunted me with their racial diatribes how could I prove to them that I was as Canadian as any of them? Who could (or would) see beyond the yellow hue of my complexion to catch a fleeting glimpse of the human being inside-that's the key word: human being! Does it really matter that some of us are yellow or black or white or brown-skinned? Yet, to some of us, it does

matter...because each time there is an economic, political, or social crisis in the more unstable parts of the world a mass influx of new immigrants seems to flow across land and water to our respective home-lands (wherever these may be)...and with each subsequent be)...and with each subsequent migration our sense of security suddenly, unexpectedly, and unwillingly becomes shaken up and undermined. "Oh those bloody foreigners! They're all the same: they come to exploit those of us who have lived here Ing and who have built up this country... taking away jobs and our whole economy...'' is a familiar monologue commonly heard expressed. SECURITY...having a sense of

it...that's another concept so fundamental to all human beings. Speaking in very general terms, for the majority of immigrants coming for the first time to a strange land, the purpose of coming temporarily overrides any sense of insecur-ity they may have. What can be more tantalizing

what can be more taitaining than the promise of a chance of a better life politically, economi-cally, and socially? For the new immigrants, their conventional support systems are broken asunder...left far behind to

asunder...left far behind to chance a new and better life. To be a new immigrant is to truly be a ''stranger in a strange land''; to have to learn new customs, language, pattern of daily living, to have to meet new people is at first overwhelming. people is at first overwhelming, puzzling, and frightening. To encounter racial prejudice for the first time is an absolute cultural atrocity: it's similiar to having been kicked in the balls (or so my male friends tell me) or having someone telling you that you're a worthless human being As an immigrant one that you're a worthless human being. As an immigrant, one can counter racial prejudice in one of two ways: totally reject the adopted culture or totally reject your native culture... the end result is the same: you find yourself in a cultural warp. In an attempt to regain some sense of security one could withdraw of security one could withdraw into the protective confines of one's own native culture and view any other culture as being allen, intrusive, and unwanted. Or, one could totally reject one's own native culture in attempts own hative cuture in attempts to disappear facelessly into the dominant culture of the adopted country. (Only problem is Orien-tals, Blacks, and Indians are at a greater disadvantage than say their white counterparts; I mean really...skin colour is a dead

giveaway every time!!!) Extre-mely young-in-age immigrants and first generation children born into an adopted culture often choose the latter alterna-tive. I know...I did. My number one uncle on my mother's side calls me a 'banana'; meaning I am yellow on the outside but white on the inside. How often I white on the inside. How offen I can remember fighting with my parents, my relatives, myself to suppress, destroy, negate, deny the Chinese identity I was born with. How many years did I insist on dating only non-orien-tal men just to prove that I was a enverting of thempion as any as worthy of attention as any white female. I'm illiterate in the written Chinese language.... the written Chinese language.... although I did concede to learn to speak it. And, it's only been in the past few years that I have begun to learn about my Chin-ese culture and heritage (an Asian Studies 100 course taught by Kwallo opened my eyes). I can now accept the reality that parts of me are very Chinese and other parts of me are very Western: I have finally been able to take the middle way. It was in the late 60's that I became politically aware: aware

became politically aware: aware

Super hockey

Super Hockey This weeks first game saw a new improved Health/Staff team give Forestry a good workout for about 40 minutes. Too bad it subsided after 40 minutes. Health/Staff, you had a chance! The score was 5-4 after 2 periods, but when the teams came out of the dressing rooms for the third period Forestry poured it on and Health/Staff rolled over. Goals for Forestry were scored by Nyhaug (3), Lloyd (2), Mitchell, that racism and prejudice were not (and did not have to remain) the basis of the human condition ...that moral, ethical subjuga-tion of other human beings was wrong. As I came to maturity in the 1970's I was filled with hope and optimism that the 1960's had paved the way for equality of all human beings whatever their race or colour of skin. Yet, I also saw the 1970's turn into a decade of consumerism, materialism, "me-ism", ultra-conser-vatism, and continued racism. Political and social insensitivity among its young adults seemed to increase to a state of unconscionable and inexcusable apathy. I sincerely hope those individuals reaching maturity in the current decade of the 1980's will not forget the political and will not forget the political and social consciousness and consci-entiousness of the 1960's and that the 1980's will see a continuation of that interrupted struggle toward true equality, common understanding, and acceptance of each other as human beings sharing a com-mon bome mon home

Alice Chan

Freisen and Samuelson. Health/Staff goals came from Hughs, Nychuk, Decker and Lambley. The exceed came of the state

Lambley. The second game of the night saw Albert Tom pick-up his first shut-out of the season as Business defeated Engineering 4-0. Scoring consisted of Gregg Claggett finding the Engineers pet on all 4 gaster A brief net on all 4 goals. A brief skirmish in the third period saw Jeff Townsend and Brock Crys-tall taking showers a little earlier than planned.

Baha'i Club formed

During the first week of this semester, three members of Baha'i Faith, who are students here at B.C.I.T. got together to form the Baha'i Club of British Columbia Institute of Technolo-

gy. The aims of the club are to promote and further the follow-ing ideals of the Baha'i Faith.

The unity of the burnan race implies the establishment of a world commonwealth in which all nations, races, creeds, and classes are closely and permanclasses are closely and perman-ently united, and in which the autonomy of its state members and personal freedom and initia-tive of the individuals that compose them are definitely and completely safeguarded. The Baha'i Faith inculcates the principle of equal opportunity, rights and privileges for both sexes _ advocates compulsory. sexes, advocates compulsory education, proposes a spiritual solution to economic problems, solution to economic problems, exalts work performed in the spirit of service to the rank of worship, recommends the ado-ption of an auxiliary internatio-nal language, and provides the necessary agencies for the esta-blishment and safeguarding of a permanent and universal peace. permanent and universal peace. It recognizes the unity of God and His Prophets, upholds the principle of an unfettered search principle of an unfettered search after truth, condemns all forms of superstition and prejudice, teaches/ that the fundamental purpose of religion is to promote concord and harmony, that it must go hand-in-hand with science, and that it constitutes the sole and ultimate basis of a peaceful ordered and progresspeaceful, ordered and progres-sive society. Baha'is strive to live up to

these ideals and feel that to bring about these changes in the

world, we must first change ourselves. There is no clergy in the Baha'i Faith and each person is accountable to themself and to God. We are not supposed to preach our ideals supposed to preach our ideals but rather, we are to follow them. Every human being has the right to know God's messa-ge for this era and it is the duty of the Baha'is to give this message of unity and love to inquirers!

We will announce public meet-ings in the Link to invite interested people to hear and Faith. For more information: phone Bob Evans at 931-3388

'For me to live is...'

How would you complete this sentence? What is life to you? Just take a few moments and give it some thought. Far too give it some thought. Far too many people live day-to-day never knowing what really moti-vates them. Is it your prospect-ive career; the drive for financial security or are you just living to the next pub night? What is life to you? life to you?

Iffe to you? And how about death? What is death to you ? What does death accomplish for you? Is it an end-to-all? Is it the event which makes everything you've ever done futile? Is it the loss of everything you've ever worked for? Perhaps you've never thought about it and don't want to right now. Could it be your greatest fear? So what's the story?: 'for me

So what's the story?: 'for me to live is '888888, to die is

I'll give you my answer and the answer of millions of CHRISTIANS. FOR ME TO LIVE IS CHRIST AND TO DIE IS GAIN.'

AND TO DIE IS GAIN.' For me to live is to have purpose and direction in life; to bring honour and glory to my heavenly father; to share the

good news of Christ's redeem-ing work on the cross. For me to live is to walk in power and confidence. Not my own power and not even with confidence in myself. But I walk with the power of the risen Christ, and the confidence that through Him, I can do all things. For me to live is to have hope--unwavering faith in God's

ability to carry out those things He has said He will do in the Bible. What is life to you'?

Bible. What is life to you'? For me to die is to be ushered into the very presence of my Savior, JESUS CHRIST. To worship Him for the Eternal life He has given me! I KNOW where I'm going a split-second after my ole' ticker stops ticking. For me to die is gain, I KNOW IT! WHAT IS DEATH TO YOU? TO YOU? If these

these few thoughts have struck a nerve in you, why not come out to room 220 at 11:30 today and chat about it? At 12:30 we'll be talking about the world's current status, in parti-cular, the situation in Afghanastan. We invite you to join us and contribute any thoughts you may have

Dons required

Candidates are being sought as dons in BCIT student residences. There are two donships in the Willingdon Residences, serving 22 students each, and five in the Maquinna Residences, serving 48 students each

The don's primary duties are to assist each resident to adapt to BCIT life, to advise and consult with the individual members of the house, to provide organiza-tional assistance to collective residence activities, and to perform certain administrative duties. The prformance of these tasks requires a considerable of time each week. A don may be a faculty or

staff member of BCIT, or a full-time student or alumni-member. Apointees may be single or married.

Applications are available at the Maquinna Residence Busin-ness Office from Monday, Jan-ry 21st until FRiday, February 8th.

th. more information is available com bousing manager Val from housing manager Karpinsky,local 606.

Daycare

Bryce McElroy **Business Administration** B.C.I.T., 1973 Look for TD recruiters on your campus soon.

"When it came to picking a career, banking was the last thing on my mind. The reason was, I pictured myself disappearing into the woodwork and surfacing 40 years later with a gold watch, a slap on the back and one of those 'good old boy' retirement parties.

"Brother, was I wrong. "Before graduating from B.C.I.T., I talked with one of Toronto Dominion's campus recruiters. He stressed the personality of the bank and its people. Plus the fact I wouldn't get lost in the shuffleand I could make my own opportunities if I worked hard at it.

"He talked a lot about TD's management opportunities, too. He explained that they were into everything from market research to international banking.

"I was impressed. And so I decided to give TD a chance.

"I started in their Banklab Training Course and it gave me some important insights into management. Next, I became an Administration Officer and, in April '76, I became a Banklab Instructor at TD's Pacific Division headquarters. Then I moved into personnel work and now I'm a Commercial Credit Officer.

"Today, things are moving along just fine. The future looks bright and prosperous. And Bryce McElroy is getting ahead in the world."

BANK OF MONTREAL.

We'd like to talk with you about something that might not

REA

have occurred to you...working for us. Maybe you feel that bank-ing is a business that hasn't changed (or hasn't had to) since your grandfather was your age, and that the skills you've acquired in college or university wouldn't be used in a career with us.

That's just not true anymore. The fact is, Bank of Montreal has become the leader in an innovative movement that's seen Ganadian banking change more in the past ten years than it has in the past fifty. And we can offer you responsible, challenging points of entry into a dynamic

business that just might go farther and faster than any other in the next few years. We need special people to keep us out in

front. "Special" means people who can effectively manage and motivate others and who are always perceptive and responsive to our customers' needs. A career within our branch system provides this continual chal-

lenge and a comprehensive grounding in business and people management.

The only common denominators with people who work at Bank of Montreal these days are the characteristics that never go out of date talent, ambition and determination.

You can find out a lot more by dropping by. We're not into hard sell on a career with Bank of Montreal. We'll just let the facts speak for themselves. We'll be at this campus on the dates shown below.

Interviews to be conducted

worry about it. Give him some time to finish his coffee and re-read my resume.

by: John Meisl Shoulders back, straighten tie, one more deep breath, push

"Good morning" I say to the secretary, "My name is John Meisl, I have an appointment with Mr. Jackson." "Oh yes" she smiles as she checks the appointment calen-der. Tight dress, short hair, too much make-up. "Won't you have a seat?" she says as she flitters towards the office mar-ked "Personnel Manager", "I'll see if he's in??, I think to myself. Oh well, better not to

the door, walk in.

My resume. I spent a lot of time polishing my resume to sell myself as much as possible. It's a fine line between confid-ence and conceit; between bias-ing the facts and outright lying. The library's wealth of informat-ion on resume writing, cover letters and interviews made it a lot eaiser. Anyhow I did get the interview, and that's all a resume is for.

I cross my legs and look around. I wonder what's taking him. In the background I hear the general noise of office activity

five minutes

Check over the magazines. Business week, Fortune, Wall Street Journal. Who's this guy trying to impress? Have another look at my resume. ten minutes

ten minutes The secretary emerges smi-ling from the office. "Mr. Jackson will see you now." "Bloody good of him", I think to myself. "Thankyou" I say as

to myself. "Thankyou" I say as I rise from my seat, trying not to crumple my file holder in ever-tightening fingers. I stare at the secretary as I enter, trying to make her stop omilion. She doesn't.

enter, trying to make her stop smiling. She doesn't. "Good Morning Mr. Meezel" booms Mr. Jackson as he rises from his desk and firmly shakes my hand. "You must be our new applicant". "UIb Meisl Mr. Jackson

applicant''. ''Uh...Meisl, Mr. Jackson, yes, I am.''. ''Meisl, I'm sorry, have a seat'' he says as he shuffles me to a sparsely padded chrome and plastic chair. ''Thankyou'' I reply as I sit down

down.

Now comes the tough part. I have to impress this clown that I'm better than anybody else. For me, that won't be easy. I hope my research pulls me

through. Mr. Jackson looks me over, fingernails. I look like I was born in a business suit.

in a business suit. "So" he asks, leaning back in his plush leather chair, "what made you decide to apply with Sigma Engineering?" Here comes the ball. Back straight, fingers still, look him in the ave

in the eye. "'Well'' I say, ''since Sigma

"Well" I say, "since Sigma Engineering specializes in water resources, my favorite branch of engineering, I feel our working together would be of great mutual benefit." Point. B.C. Engineering Dir-ectory in the library has com-plete listings of engineering firms in B.C. We talk a bit about what I've

We talk a bit about what I've learned at B.C.I.T. and what he expects from me. Easy coasting. I begin to relax. I need this job. My U.I.C. is almost expired. Jackson sits up and asks, "Have you beam baying much truthle you been having much trouble finding a job?'' Fumble! Try not to panic. I've rehearsed this question. Now

what was the answer? Oh yes "Actually I've been trying to be somewhat selective in choos-ing the next step in my career" I reply, bridging my fingers as I stare him in the eye.

stare him in the eye. He looks at a picture of a dam on the wall. He's not sure what to think of this. Be ready. He looks at me again. "What other firms have you been speaking with?" "I'd rather not answer that now" I say without a moment's hesitation, "Idon't want to abuse the confidence of the talks I've had with some of your competitors." Point. Let him think I'm on

Point. Let him think I'm on the wanted list.

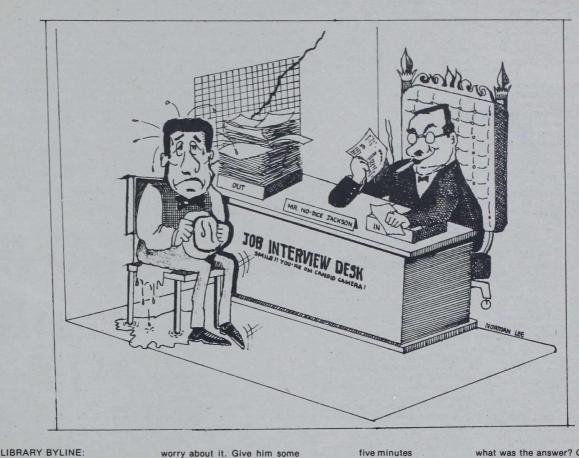

the wanted list. And so on. A few stock questions. "Tell me about yourself", "What's your great-est weakness?", "Where do you want to be in five years?" The hardest part was trying to look like I was thinking up the answers for the first time. Then he asks the question. MY question. Two hours research in

question. Two hours research in the library, running through microfilm question. "Do you have any questions about the company?" "Well, yes'' I reply nonchal-antly. "I understand your com-pany is using the electro-osmosis system of soil stabiliza-tion at your Pemberton Dam Project. How is it coming along?" along? Touchdown

The library can be a great help in landing a job. It can help in planning your career to fit your, aptitude. Worried about unemployment? Recent career outlook information is available for B.C. and Canada. Check out continuing education in the technical and university directhe tories

When you're ready, read up volven you're ready, read up on how to prepare resumes and cover letters. Check out the financial reports of companies you're interested in. Research the newspapers and trade magthe newspapers and trade mag-azines. Use the Contacts Influential directory to get your application to who you want it to. Know what to expect at the interview. Be prepared. Competition is tough. Hidden somewhere in the library could be the edge you need. Ask at the informa-tion desk

The interview is not the end

Super surprise fourteen

by Russ Cowan by Huss Cowan Steelers 31 Rams 19 Who would have thought that the the almighty Steelers and the 'lucky to be in the playoffs' Rams could get together for what turned out to be one of the best Super Bowls in years. The final result certainly was pre-dictable but it took three dictable but it took three

quarters and then some before the Steelers finally took the game away. Before that time the lead had changed hands six times and the Rams managed to carry off the loss in fine style. The Super Bowl has in past years gained a reputation as

being nothing more than a very hyped up, very boring spectac-

le. An anticlimax after the divisional playoffs. This year's edition seemed to fit the bill edition seemed to fit the bill better than most with a very fine Pittsburg club matched against an injury riddled Los Angeles team. For this reason the sixty minutes played for sixty minutes the rest of the four hours or so was dedicated to memorizing C.P Investment commercials) memorizing C.P Investment commercials). The Rams engineered some

fine drives which included solid running form Wendall Tyler who was not expected to make any dent in the Stee Curtain whatsoever. The Rams success on the ground was to a large degree due to their fine offen-sive line which included no less than three all pros. Quarterback

Vince Ferragamo threw the ball with authority but paid the price for increased confidence with an interception to Steeler middle linebacker Jack Lambert.

Although the Rams held leads on several occasions and Steeler quarterback Terry Bradshaw seemed content to fire interceptions at crucial points one was constantly being nagged by a feeling that the game was never

anyones but Pittsburghs. The real blows dealt by the Steelers came in the form of two touchdown bombs to wide re-ceiver John Stallworth. These strikes were largely the product of the veteran Bradshaw who had been waiting for the space to hit the Steeler's most danger-ous weapon. These two touch-

downs plus the one to Lynn Swann were clear examples of the excitement that can be generated by a team as power-full as the Pittsburgh Steelers. A sporting event of this magnitude is constantly in dun-ger of hyping itself and its audience to the point of making the game seem secondary. If anyone knows how to hype an the game seem secondary. If anyone knows how to hype an event, it has to be our neigh-bours to the south. From Cheryi Ladd singing a swinging nation-al anthem to 'Up the People' at halftime the name certainly bed halftime, the game certainly had the trimmings not to mention the hour and a half pregame show (God I would like to have seen that helicopter crash). But seen that helicopter crash). But if you take away all the extras and looked at the game you couldn't really be disappointed. Unless of course you had an eleven point spread and bet on the Rams. Oh well, there is always next year.

STAY

There was an awful lot of things happening in the world of sports last week. Time now to look back at a few of the major events.

The number one item had to be the Olympic situations. Both of them. Winter and summer. Canadian athletes looking for-ward to Lake Placid in New ward to Lake Placid in New York. Especially the men's downhill team. They had an outstanding week. The main man of course was Calgary's Ken Read. He had two first place finishes in Europe. One in Switzerland and the other in Austria. Read is now 3rd in the world standings behind Peter Meullar of Switzerland and Erik Haker of Norway. The men's world standings behind Peter Meullar of Switzerland and Erik Haker of Norway. The men's team on the whole is in 8th place. Very respectable. And it's about time that these skiers recieved front page recognition here in Canada. Why should our skiers receive acclaim only in Europe? Why shouldn't our skiers be household names here in Canada? To help you out, here are a few of the names to listen for at Lake Placid. Read as mentioned, Dave Murray of Abbotsford, Steve Podborski, and Dave Irwin. And in ski jumping, watch for Horst Bulau. He's a seventeen year old from Ottaw and he's just finished a successful competition in Japan. Should, continue to be an exciting season for our young ski team. And speaking of Lake Placid and the winter olympics, will there be any snow for the athletes in action? Who knows? Mild weather has cause a shortage of snow. If there's no snow, then the officials will have to use artificial snow. Either that or truck it in from Montreal or simply move events to Canadian areas. Especially if the event is cross country skiing. It's kind of hard to ski on the brown stuff.

Still with the Olympics. The summer olympics in Moscow slated for this summer are still slated for this summer are still go according to the Soviets. But, around the world, its not know whether some countries will participate. mOst countries will participate. mOst countries ob-viously watching the UNITED States to see what they'll do. (Canada in particular). It's not an easy decision. Think of what it involves. Athletes who have been training for years may have been working towards nothing. An awful lot of money spent for nothing. A possibility of no olympics at all. And a possibility of not seeing the best up and coming athletes in the entire world. Who knows. May-be there's another Nadia or entire world. Who knows. May-be there's another Nadia or Olga out there. What better representatives for world peace than athletes? So the cold war continues in Afghanistan with the Russian invasion? The Russian government is merely

guarding it's boundaries. Did the Russians or anybody else boycott other olympics when the U.S. had their puppets in Iran, (namely the Shah himself, and who's protecting him now) and Inamely the Shari Himseli, and who's protecting him now) and Chile? Say for some reason the U.S. goes into Castro land and the '84 are in Los Angeles. Should the Russlans, British, and Canadians boycott that??? Anyhow, a lot of boycott talk. I say let the athletes go and particitpate in what they've working so very long for. It's easy for politicians to sit back and say, ''We're not sending our athletes!' The only time that they OUR athletes is when they (politicians) want some-thing. Let a politician campaign 4 years and then have an IOC representative tell him that they're calling off the election. What a switch that would be! Frankly, I've had it with the whole thing. On to some more sporting events from the past week....

Another NHL record was set on Last Monday. 4 goals scored in 61 seconds. Colorado Rockies in 61 seconds. Colorado Rockies and New York Rangers doing the Honours. The old record was held by Montreal and Toronto. (4 in 65 seconds) Vancouver received it's first point in 7 games. A 2-2 tie with Buffalo. Harry Neale of the Canucks (coach) tied also. The knot that is. He got married. Look for the Steamer to dupli-cate the trick shortly... cate the trick shortly... Vancouver Whitecaps had a

Vancouver Whitecaps had a new goalkeeper in town..... Graham Tutt from S. Africa. Whitecaps have moved most of their home games to Saturday nights. And talking with the Caps office recently. Seasons tickets are now at 17,000 and climbing.

climbing.... And for the soccer enthusiast, indoor soccer begins in Vancou-ver shortly. There will be 2 games slated for the collseum. L.A. Aztecs will be the host club and it will have Bob

club and it will have Bob Lenarduzzi along with Bob Bolitho taking part. The Super Bowl is now history. The sports writers came very close to their prediction of the Steelers by 11 points. They missed it by 1. Pittsburgh 31--La 19. Isn't it ironic how Ram kicker Frank Corral missed that easy point after? There was an awful lot of money on the game

awful lot of money on the game wasn't there???? An interesting week in sports wasn't it? A lot happening. On and off the fields.

EXTRA:

EXTRA: Listen on BCIT RADIO for SPORTS SEAT twice daily at 10:45 and 3:45 with Graham Gurniak and Dan Russell. They have interviews, editorials, and more on all sporting events. International...national...and... local

Tomorrow could be a critical day in your emotional cycle and you could be subject to accidents, poor judgement or just an all around "off" day. In that case, you should stay away from difficult situations and important decisions and be more careful than you would normally during the course of that day

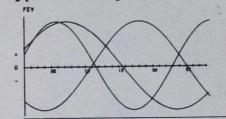

IS IT POSSIBLE TO FORECAST WHAT KIND OF DAY YOU WILL **HAVE TOMORROW?**

Your personal biorhythm computerized calendar chart can tell you in advance what the state of your physical, intellectual and emotional cycles will be.

LEAD A HAPPIER, FULLER LIFE THROUGH BIORHYTHM

Biorhythm helps you have a better understanding of yourself because it lets you know ahead of time what your strong and weak cycles are, when they will occur and you can easily use this advance knowledge to your advantage

Typical biorhythm chart.

IF YOU THINK THIS IS JUST ANOTHER GIMMICK

and you would like to receive more information before placing your order, we will be happy to send to you by return mail a brochure in which you will find the answers to all your questions. Send \$2.00 and check "Brochure" on the attached coupon

BIORHYTHM -RECOGNIZED SCIENCE A

IN BED!

Birth signals the start of human biological life and its three cycles (physical, intellectual and emotional) which will continue throughout your life. Today, science tells us that through the use of a computerized monthly biorhythm chart, we can stay away from financial problems, accidents, anguish and discouragement. Many large airlines make extensive use of biorhythm to better determine their pilots' critical days and thus ensure even greater safety in the air. Many insurance companies recognize the importance of biorhythm as a very important factor in the prevention and reduction of accidents.

YOUR OWN PERSONAL **BIORHYTHM CHART**

Luctor Management Ltd. offers you the opportunity to get your own chart at a low price so that you can effectively plan your social and professional activities ahead of time for more success and happiness

DON'T DELAY

we need to know is your date of birth. Our experts will supply you with your own personal computerized monthly biorhythm chart, complete with instructions and revealing data. This confidential and vital information package about your biorhythm cycle will enable you to lead a fuller and happier life by putting all the chances on your side in your everyday life.
