SHINE 'EM TIME

...see page 11

editorial

Hi, my name is Bruce and I'll be this years Link editor. Well folks its that time again - school (hurrah!) Did you all have a good summer? I did. Since May 23rd I did nothing but sit on my ass (no job, nothing, what a life!) At this time I'd like to welcome back all you 2nd year people and say hello to the first year students. Welcome to "zombie land". Contrary to what you've probably heard, its actually not that bad at all. There are some good times such as (pubs, dances, clubs, etc.) and I urge all first year students to attend them. I'll tell you, the pubs are a great place to let off all that excess steam from your Monday to Friday blues. Its also a good place to meet people & have fun. Last years pubs though had a noticeable lack of the female species. Hey girls, BCIT has a 3 to 1 male to female ratio. What better place is there to meet guys, huh?

So just keep your eyeballs peeled for posters advertising pub nites, they'll be all over the place. Well that's about all I have to say for now. So until the next 'ish, Sayonara

JIM CLARK
TREASURER

I'd like to join the rest of this year's Student Executive in welcoming the new and returning students to B.C.I.T. This year, with the school having its own independent board of governors and a new principal, promises to be an active and exciting one for all of us.

Last spring, during campaign week, much was said about improving communications between the executive council and the student body as a whole. I still feel that this is an important priority, and will be working to accomplish it. To do this, however, we will need your help. Communication is a two way process. If you have any comments, complaints or suggestions, please let us know. You can do this either through your technology representative or come in and see us in the student association offices in the student activity centre.

Finally, I'd like to remind you that there is a lot more to life on the B.C.I.T. campus than straight studying. There are many sports clubs, and activities offered to you. Become involved in some of these, and you'll find that your time at B.C.I.T. can be really rewarding.

Have a good year

Jim Clark, Treasurer

TOKENS

Last year's tokens may be turned into the SAC office for a cash value of 25¢ per token. Tokens will not be accepted at pubs sponsored by S.A. or dances this year. So hurry down to the SAC office before the October 15th deadline.

I HOPE THIS IS MY TECHNOLOGY!

GORDON THOM

Students; start right, meet BCIT's new leading personality, Gordon Thom, a man who has time for you.

His most recent move to principal at BCIT was preceded by five relaxing weeks on Bowen Island. This vacation was spent with his wife, Helen and their three children Kathy, Graham & Margot. Some of his relaxation included fishing with Graham in a red, ten foot boat. Most of his big catches though seemed to be the kind that just didn't measure up.

Thom first came to B.C. upon graduation from Picture Butte High in southern Alberta. He then attended UBC receiving his Bachelors of Commerce Degree in 1956. Being time to step out into the world, he found himself covering the barren Alaska Hwy. from Dawson Creek (mile '0') to (mile '640') at Watson Lake. He was a sales representative for Imperial Oil. After a 2 year period he decided to further his education and was granted a leave of absence to enter the University of Maryland. Here he achieved a Masters in Business Administration.

His next job entitled him to the position of assistant director for the Alumni Association at UBC. Presenting many innovations he shortly found himself the director of the Alumni Annual Giving.

His work here for a four year period involved many events of a "town & gown" nature throughout North America with major emphasis in B.C. They received North American recognition for some aspects of their work.

BCIT first recognized Thom on their staff in 1965. He had a pleasant welcome to BCIT in the event that he arrived just in time for the first graduation ceremonies and BCIT's first grads. This opportunity arose quite unexpectedly when Thom went in search of other employment. "I asked Mr. Roper (the first principal for BCIT and a good friend) whether he thought I would be happy at the job". Mr. Roper didn't think he really would and should join the staff at BCIT. He accepted the position of vice-principal in the Extension Division and maintained it for the next eight years. Some of his eventful evenings during the next eight years led him to achieve a Masters Degree in Adult and Higher Education.

(Don't let this bundle of knowledge let you shy away though because his warm personality and keen interest in knowing people are just a few points emphasizing his charisma).

Last fall during Sept.-Nov. he was appointed to serve on a three man task force in the Lower Fraser Valley Area. The job entailed a feasibility study in the area to determine the demanding need for a Regional College in the area. As of the beginning of Sept. the Fraser Valley Regional College opened.

"I feel that my major contribution in accepting my new position of principal is my dedication and interest in BCIT's tremendous potential to serve B.C. We offer technical education which is advanced, practical and meaningful because of the very diverse talents provided by our faculty members.

I would like both faculty and students to offer suggestions and have a say in the future development of BCIT. (Authority flows upward from the employees to the leaders.) We have a big job to do but I think we have common goals."

On behalf of all students & staff at BCIT we would like to take this opportunity to wish you a warm welcome in your new position of Principal of BCIT.

executive

PRESIDENT

BLAINE KENNEDY

Involvement in the activities, sports, functions and academics at BCIT is your end of the bargain. My end, as President of the Student Association, is to see to it that every student feels at home and welcome to develop his interests in a creative way. Your student executive sponsors the leisure activities and the representative council at this school. To you I am sure it is important to develop this part of your life along with your academic goals. Interaction with people that have common interests, whatever they are, cannot help but establish a community where everybody is aware of what is going on.

There are several ways in which we will endeavour to keep the students well informed. There is the conventional way of putting posters all over the walls. Another idea which we have initiated this summer is to have an information booth in the south foyer, that will operate for several hours of each day, and for special function. The most important job we have is recruiting representatives from the Health, Engineering and Business Technologies to bring forward

people enthused about really getting people together this year. These members will be elected in September and the sooner everyone becomes aware of their student reps, the faster the ball will roll. Another end we handle here is listening to complaints. I would rather refer to it as constructive criticism. That's what we are here for, to receive input from all and any student and then attempt to better the state of affairs which he or she is concerned about. I warn you that change in many cases can be slow. It all depends on how many people we have to sell the idea to.

However, we students have our own energy, our own representation and our own operation. If we put these forces into gear, we can help ourselves and at the same time get help from the administration. The people that make the wheels run at this school are proud of this institution and are always interested in helping in any way they can.

I am the student representative on the Board of Governors, at BCIT. My job on the Board is to help make the policy, that guides the administration at BCIT. Since I am a student I must admit that my position has a definite bias towards students. This year is the beginning of a new era for BCIT for two reasons:

1. It is the first year that BCIT has gained autonomy from the Department of Education in Victoria (i.e. THE BOARD OF GOVERNORS)
2. There is a new Principal of the school--Mr. Gordon Thom

I know we will see the administration and the Board of Governors, guide BCIT in a long term and a short term direction that is suited to the needs of all parties involved with this institution.

Looking forward to your participation!!!

BUSINESS PRESIDENT

KELLY HAYDEN

Welcome to BCIT! This is extended to both the first and second year students. I hope everyone enjoyed a relaxing and prosperous summer. Many plans are on the stove brewing for this year.

Our big concern for the beginning of September is Shriners, the big drive for Cystic Fibrosis, followed by Frosh Queen in mid-month.

I would urge all students this year to keep in contact with their Societies, and pass on any suggestions or information they may have to their Presidents. This will not only help present students but also ones of the future.

In conclusion my best luck goes out to all for the coming year.

INTRAMURAL

SPORTS CHAIRMAN

GARY HOLTE

The most difficult task of running an Intramural Program is getting it off the ground. There are a few vital steps which must be taken to properly co-ordinate the program:

1. Establish referees' clinic
2. Have sports' rep elected to represent each technology
3. Develop a system of communication between myself and the student body.

There is a meeting on Wednesday, September 11th at 12:30 in the Committee Room, SAC Building, for the referees' association.

If you cannot attend this meeting and wish to join, please contact me in the SAC offices or 'phone 437-1333.

Clinics will be conducted for each sport to ensure that the referees are properly qualified.

I will need a reporter for the Intramural program. His job will be to attend some of the games and report to the Link and possibly have a sports column. Each technology must have a sports representative to ensure his or her technology is kept up-to-date on representative to ensure his or her technology is kept up-to-date on what the program is offering. The sports representative will attend a few meetings, post lists for each sport, and be the link between you and myself.

If you are sports minded or if you are interested in student affairs, you will find this job quite rewarding. Please try and get your sports representative as soon as possible.

Tennis:

There will be a singles male and female (32 people) and 16 team doubles tournament. First to sign play, so check the list to see if there are any available spots. Lists are posted in the SAC and in the South Foyer. To win, one person or the team must take a 3 out of 5 game margin. The SAC building will have the draw and dates for play, so keep posted. The doubles tournament is co-ed. Tennis balls will be available in the equipment room, upon submission of your students card.

If there are any problems with the date I have picked, arrange with your partners a suitable date and play it as soon as possible.

The flag football will start on September 25, so try and organize your teams. Due to popular demand, ice hockey will start October 9th. There will be no conflict with your team playing football and ice hockey at the same time. There will be Sunday afternoon football games played this year.

TRY AND ATTEND THE MEETINGS AND GET INVOLVED TO GET THIS PROGRAM STARTED!!!

BCIT PUB REGULATIONS

1. BCIT students will be admitted with one guest. ID card must be shown on request and guest must have proof of age if requested. (19 and over is age requirement.)
2. Members of post-secondary institutions can be admitted upon presentation of valid ID CARD. No guest privileges.
3. Alumni of BCIT will be admitted upon proof.
4. In all cases proof of age may be requested.
5. BCIT S.A. reserves the right

EXTRA MURAL SPORTS CHAIRMAN

STAN MARKOWSKI

WELCOME TO BCIT

For many of you students, a new experience; for others, 9 more months of studies toward a diploma of technology in your chosen field. Yet more exists at the Willingdon complex than just books and examinations. There are dances, pubs, concerts, clubs, and other various social activities. To balance out the above, BCIT is blessed with modern athletic facilities on campus and the surrounding area. The gymnasium, weight room, tennis courts, 440 track, football fields, and Sac lobby are but 3 years old. One has facilities here not found in most other regional colleges in B.C. Students should make extensive, enjoyable use of these recreational surroundings which have primarily been the result of constant lobbying on your behalf with the provincial government by previous student councils and the BCIT administration.

Athletics of the extramural and intramural variety are housed at the SAC. The extramural sports program is headed by two extremely competent, co-operative athletic people, Messrs. (Wally) Rowan and G.N. (Gerry) Lloyd.

Though a student like the rest of you, I have been elected to work with these two gentlemen for the 1974-75 term to promote school spirit, comradeship and good, but fair athletic competition among students and staff at BCIT and BCVF together with all other post-secondary institutions in British Columbia as well as various Alberta, Asaska, institutions in British Columbia as well as various Alberta, Alaska, and Washington schools.

You all have studies and personal interests, but I hope each of you will participate in BCIT's extramural sports program as players, officials and managers and for above all, as FANS!

ACTIVITIES CHAIRMAN

PAUL MINNETT

There were two things I noticed when I started B.C.I.T.: 1st year students ran around from class to class having trouble finding each one, and 2nd year students walked from class to class, smug because they knew where each class was. While I spent my first term finding Room 197, the second year students were at the pubs, dances, in the clubs, generally having a good time.

1st year students never have time to do anything except work (at least, that is what they are led to believe, by instructors, & high-school counsellors). 2nd year students have found that this isn't true and they are having a good time.

In past years it has taken most 1st year students until Christmas to realize that there is a school pub every week, and one or two dances each month. Some students don't find out 'til the end of May that there are clubs to cover every range of interest (And that if there isn't, they can ask me and we'll fix it up).

1st year most students didn't know that ski-trips, vacations, etc. can be arranged through the Student Association at reduced rates. A lot of students didn't realize that we are building a lodge of Whistler Mountain, where groups will be able to go for a quiet weekend away from the city. (When it has been finished, that is.) We are building with Student Volunteer Power (SVP) (ask at the S/A office for more info.).

Now that I have told you the things that previous students didn't know, perhaps you will remember them. Join a club, go to PUBS, go to dances, take advantage of what your Student Association offers to you. There will be new things this year which previous

students had no chance to find out about. We will have corree houses, concerts, and more clubs. These are planned for you the student, and for me too, as I am still a student.

I have offered you the social side of B.C.I.T., but don't forget the athletic side, nor the academic. We don't want you to fail, but we do want you to have a good time.

I'm in my office when I'm not in class, so if you've got a beef, come and see me. I'll be glad to help.

Paul Minnett, Activities

PUBLICATIONS CHAIRMAN

MARIAN BENJAMIN

Hi there! Welcome to BCIT all first year students and welcome back to all second year students! Now that the school year has started, activities too will start. Be active and participate!

As Publications Chairman for 1974, my job is to publish the weekly newsletter, monthly news-paper and the yearbook as well as photography and generally informing students of up and coming events.

Students are always needed to work in the Publications office. Experience isn't all that necessary. If you are interested in becoming involved in the communication - publications process of the Student Association, please feel free to visit the publications office. My local is 607 and I can be found in the publications Office usually every day from 11:30 - 12:30. It's fun and its worthwhile to get involved. Support your student body - Support the S.A!

OPERATIONS MANAGER

NANCY HARFORD

The coming year at BCIT holds much in store for you! Pat Paulsen will start off the years major attractions!

We plan to bring exciting, entertaining people to the campus for your enjoyment. You work hard all day and most nights so remember you deserve a break from it all.

The pubs, dances, concerts, and athletics are all part of your education at BCIT. Help us to help you by supporting these activities. You can find me in the student association office or at local 606.

VP EXTERNAL

ELAINE FRIESEN

I hope you all had a great summer and that you're looking forward to this year at BCIT.

Several things have happened at BCIT this summer, like losing one residence and getting a new one.

We've got a new Board of Governors and a new Principal. Having a Board of Governors means that now we have a decision making body right on campus instead of across the water in the Parliament Buildings. Blaine Kennedy, the Student Association President, is the student representative on the Board of Governors.

Shinerama is coming up soon and its success will depend on you.

I hope that those of you who didn't participate last year will join in this year.

Most students feel they won't have time to take part in any school events because of the work load here. Well, its true that there is a big work load at BCIT but its also true that the more one participates I hope that you, the students of BCIT will come to see us, the student Association in the SAC Building, when you need questions answered or problems solved.

Remember we are here to represent you and to do that effectively we need to hear from you.

**SHINE ON

FRIDAY SEPT. 13 - SAC GYM

DOOR-8

BAND-9

» SHINERS FREE «

ADVANCE-\$1.50 DOOR-\$2.00

ALL PROCEEDS TO shinerama

For those of you who don't know Shinerama or Cystic Fibrosis is, here is the story.

Cystic Fibrosis afflicts babies, children and young adults. This disease distorts the body to deformity and causes difficulty in breathing due to large mucus formation in the lungs.

One symptom of Cystic Fibrosis is excessively salty sweat and for this reason several glandular and respiratory tests are taken to diagnose this disease. Once the disease has been diagnosed, the patient is subjected to daily treatments in a mist tent which helps to clear the lungs of the globs of mucus, thereby making breathing easier.

Doctors teach parents of Cystic Fibrosis children how to continue treatment when the child returns home.

Special equipment such as mist tents, therapy boards, oxygen masks plus large supplies of vitamins and drugs are essential to the life of their child. This equipment and medical attention is very expensive for the parents and also time consuming, starting from the time the child gets up in the morning he goes through a multiple amount of exercises which he must do every day. The child must consume a large amount of food as well as up to 30 pills each meal to alleviate the deficiencies in his or her body.

Both the parent and child suffer interruptions to their work and play every day because of the special treatments the child needs.

The Canadian Cystic Fibrosis Foundation was formed because in the 1950's, groups of bewildered and angry parents of Cystic Fibrosis children began to organize and demand answers. In 1960, these isolated groups joined together to form the Cystic Fibrosis Foundation. The Cystic Fibrosis Foundation relies on donors from coast to coast to provide money for research. As yet, there is no cure for Cystic Fibrosis. Shinerama is a means through which money can be raised to aid in research. It was actually started in 1961 by the University of Waterloo and since then colleges and universities across Canada have followed their lead by raising money for Cystic Fibrosis research.

This year, BCIT is trying to raise \$20,000 on September 13, 1974.

Shinerama is a lot of work and it is also a lot of fun.

We are looking for volunteers who can go out and shine on Friday, September 13. As there will be no classes on that day, we expect a good turnout. Food will be provided free on that day and shiners will be under shelter in case of rain.

Applejack is the band playing at the Shinerama Dance Friday night, and all shiners will be admitted free. Also, a Texas Mickey will be awarded at the dance as a door prize.

Come out and support SHINERAMA; we'll guarantee you'll have a lot of fun! Contact June Jones, the secretary at the Student Association in the SAC building if you want to 'shine'.

For those of you who have not yet volunteered to shine there is still time to get involved. Don't miss this event. It's a great chance to meet fellow BCIT students and is (as we all know) for a worthwhile cause. Cystic Fibrosis.

The following is a list of the district leaders and their assistants. If you have not registered to shine and are now going to do so and if you would prefer to shine in a certain area, please contact one of these people

The following is a list of the district leaders and their assistants. If you have not registered to shine and are now going to do so and if you would prefer to shine in a certain area, please contact one of these people.

Let's get out and show everyone BCIT cares!

sports extramurals

WALLY ROWAN

GERRY LLOYD

The school will be participating in numerous mens and womens leagues and tournaments. We belong to the Totem Conference and participate in many exhibitions with universities and schools in B.C.

The calibre of teams varies from a very good to lots of fun. With the heavy school work load, teams usually practice during the three hour Wednesday break, or in the early evening after last class. As the calibre of the teams is established, practices are arranged to suit all members.

The aim of our extra-mural teams is to give students an opportunity to participate at a level of their ability. In extra-mural competition we achieve physical fitness, competitiveness- social contact and learn about other areas of education.

Totem conference teams this 74-75 season are:

- | | |
|--------------------|---------------|
| 1. Basketball | Men and Women |
| 2. Volleyball | Men and Women |
| 3. Cross Country | Men and Women |
| 4. Track and Field | Men and Women |
| 5. Field Hockey | Women |
| 6. Soccer | Men |
| 7. Rugby | Men |
| 8. Ice Hockey | Men |
| 9. Golf. Men | |
| 10. Curling | Men and Women |
| 11. Badminton | Men and Women |

We want you athletes that have played in high school or for local teams. Come out and get some fitness and a lot of fun. These programmes should not affect your studies. They are for relaxation and social contact. Come out and help our school win some trophies or promote good relationships with other regional colleges and the community.

BUSINESS MANAGER

PHIL HENDERSON

STUDENT ASSOCIATION: WHAT IS IT ALL ABOUT

To many of you, the phrase Student Association sounds great but you probably do not know what it does or the ideas behind it.

Student unions have become an integral part of university and college life. Many campuses have student union buildings, in certain instances financed by the students themselves. The student unions operate through fees paid by all students and by income generated through their own activities (small businesses).

As the "living room" of the college, the union provides the services, conveniences, and amenities the members of the college family need in their daily life on the campus and for getting to know and understand one another through informal association outside the classroom. Through its various boards, committees, and staff, it provides a cultural, social and recreational program, aiming to make free time activity a co-operative factor with study in education. Its goal is the development of persons as well as intellectuals.

At BCIT the Student Association has its offices in the Student Activity Centre. Our full time staff includes:

- June Jones - Secretary
- Nancy Herford - Operations Manager
- Phil Henderson - Business Manager
- Gail Trethewey - Manager TNT Store

As well as responsible for the functional operation of the student Activity Centre, the BCIT Student Association own and operate the "This 'N' That" Campus Store; Barber Shop; Used Book Store and Identification pictures.

The doors of the Student Association are open daily from 8 AM-5PM.

TALK ABOUT FUNNY

That's exactly what Pat Paulsen will be doing when he comes to the SAC Gym.

Remember the Smothers Bros. Comedy Hour! Pat Paulsen's editorials were the highlight of the program!

Remember when Pat Paulsen launched his nearly successful political campaign for the Presidency --- the unchallenged favorite of the straight talking Amer. Government (STAG) Party.

Well, the Student Association will bring it all back to you on Sept. 18th when Pat Paulsen will appear in person.

Be there when Pat Paulsen unfolds some television and film outtakes never seen because of censorship. We guarantee good laughs and good fun! He'll keep you hopping! He'll keep you chucklin! Come out and support the first concert of the year so we may provide you with more concerts and entertainment at a low price.

Buy your tickets now to see Pat Paulsen in concert September 18th, 8:00 P.M. SAC Gym.
