# editorial

Once again it is the time of year when students pat themselves on their backs, the walls become covered with posters, and the student body is asked to elect into office someone who they haven't seen, haven't heard, and in all probability don't know of at all.

As is the tradition here at BCIT, half of the offices available are being filled by acclamation. Why this is has always been a puzzle to observers, but perhaps it is that there are so few students here with enough initiative to run at all, that they are the only ones possible for the post.

For example, the Engineering Technology has managed to nominate two candidates, one for V.P. Internal, and of course the Engineering Society President. Health fares slightly worse, nominating a grand total of one candidate, to the Health Society Presidency.

Now it is the responsibility of the student body to elect that person who can do the most able job in the position. Because of the size of the student body, and its general lack of interest in elections, again these 1974 elections will be reduced to a popularity contest. However, should some positions require some thought on your part as to who to vote for, remember that the student elected should also be able to take the job for the full year. A repeat of this past years demonstration of Student Executive quitting would best not be repeated.

## DEBATING RESULTS

Last weekend BCIT sponsored a province-wide competition of community colleges in debating. The team scores are as follows:

The debating tourney held last Friday and Saturday was by far the largest and best ever since its inception three years ago. Nine teams from six regional colleges were trying for the English Speaking Union Trophy, symbol of Debating supremacy in B.C.'s regional colleges.

B.C.I.T.'s team comprising of Roy Allanson, Danny Plecas, Paul Minnet, and Janet Samalack put on a good show losing narrowly to the strong teams from Vancouver City College and College of New Caledonia.

B.C.I.T.'s Roy Allanson was edged for the trophy for best individual debator by one point. The final overall standings were:

	W	L
College of New Caledonia (red)	7	1
Vancouver City College (blue)	7	1
Royal Roads	5	3
College of New Caledonia (blue)	5	3
Malaspina	4	4
B.C.I.T.	3	5
Vancouver City College (red)	2	6
Selkirk (red)	1	7
Selkirk (blue)	1	7

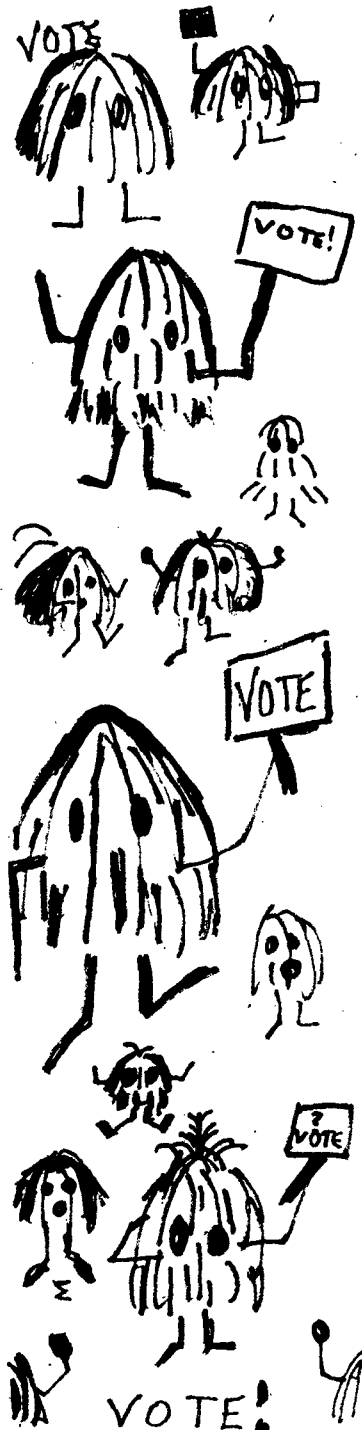

I would at this time like to thank all those students who helped throughout the debate and made the tourney a success; especially Marian Benjamin, Bob Harper, Kelly Hayden and Wendy Moon.

## OBITUARY

The BCIT Student Executive reports that Judy Hallgrimson yesterday handed in her resignation. Bob Harper, Vice President Internal, reports that Judy cited the reason as being a difference in opinion between Judy and other members of the Council.

The council has of yet made no plans as to the replacement of the Health Society President.

On a lighter note, Cam Hyde, co-editor of the LINK, also tendered his resignation this week.

## HELP WANTED

Would anyone interested in working as polling clerks on April 10th and 11th please contact Bob Harper in the SA Offices. \$2.50 per hour.

## TYPING SERVICE

Professional typing at reasonable rates for students living in the Port Coquitlam area. Phone Mrs. Knudson at 942-8452 for further information.

## WHO WANTS GRAD

As we now have volunteers to chair committees for decorations and set-up, we now need volunteers to assist these people. Any persons interested in grad please see the Activities Chairman as soon as possible.

A meeting will be held Monday, April 8 at 7:00 P.M. in the SAC Committee Room of all Club Chairmen.

The agenda will be:

Club Budgets for next year.  
Club Audits for present year.  
Club reports.

Any Chairmen not able to attend please see Gerry Poitras by Monday 4:30.

We offer all passenger Radial, Bias Ply, Belted Summer and Winter tires in the Dunlop range to all Staff and Students of B.-C.I.T. at:

# PRESIDENT

## Jim Britton

Jim Britton wants to keep up the good image that B.C.I.T. students have in the eyes of the public in British Columbia. B.C.I.T. graduates are respected by their employer and their fellow employees wherever they put their talents to work. This respect is partly due to the reputation of our school and it is this good reputation that Jim wants to uphold. We students have made many gains in the last few years: the residence, the Whistler Lodge, and control of the SAC Complex, to name just a few. Jim is pledged to further the interests of the students in these matters and many more.

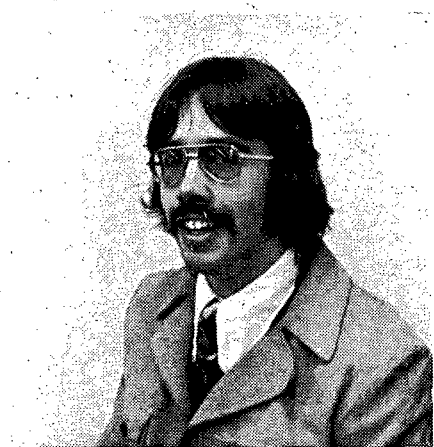

We students deserve a strong voice in the conduct of affairs here at B.C.I.T. and Jim is the person to speak for us. He has the interests of the students at heart and will speak up on our behalf on any issue to the administration or the government or anybody else.

Jim is aware of some of the problems facing students here: the parking problem, the commuting problem, timetabling problems, the lack of elective courses, and problems with instructors. Jim Britton is the person to tackle these problems. Jim has had some administrative experience. He was an elementary school teacher and principal for many years before entering B.C.I.T. A serious student—a person of integrity—he deserves our support.

When asked why he was running for office, Mr. Britton replied that participation in student affairs has always been one of his criteria's for a successful school year.

If he was elected, Mr. Britton's top priority would be to ensure that student rights were being honoured specifically in relation to the SAC building, the residence and student-instructor relations.

When asked why people should vote for him rather than his opposition, Mr. Britton replied that he had the proven administrative abilities to ensure that the student voice is heard in Victoria as well as in the administrative halls of B.C.I.T. and that his experience in dealing with school administration would benefit all his fellow students.

## Blaine Kennedy

My name is Blaine Kennedy. I am 21 years old and I graduated from High school 4 yrs ago. In the ensuing time I have attended Douglas College and travelled in Europe, N. Africa, and Asia. On returning I worked in a sporting goods shop and I taught skiing part time. My experience working with people in retailing has increased my receptability to peoples demands. I feel I can relay the students ideas to the administration and make feasible ideas work.

In the coming year, some of the important issues are;

- (1) a comfortable lounge
- (2) better food services in SAC and
- (3) pubs which open at noon on Thursdays & Fridays.

Furthermore I will do my best to assist any newly formed clubs. I believe that clubs are an essential part of the campus.

My stance on the council will be an active one. I am determined to accomplish objectives that will benefit the students attending BCIT now.

When asked why he was running for office, Mr. Kennedy replied that the office would put him in a position to solve major problems at B.C.I.T.

If he was elected, Mr. Kennedy's top priority would be the motivation of the Students Council and the student body to communicate with each other.

When asked why people should vote for him rather than his opposition, Mr. Kennedy replied that he felt that he works well with people and enjoys helping people achieve their goals.

## Jules Wilkins

My intentions as president are as follows:

- to approach you the members of the association to find out what you feel council should do.
- to act on your behalf, if it is in the association's power; if not, to effectively convey our message to administration, government, industry or the public
- to make available relevant information regarding the activities of the Student Council.

There are roughly three thousand sources of constructive comments, beefs, and ideas here at BCIT. Questions we must ask ourselves include "How are these sources tapped?" "Are the present methods as effective as they could be?", and "What improvements can be made, and who will make them?"

A good president isn't someone who vainly thinks he can do things best by himself, but is rather someone who can make use of the many talents and ideas found within the student body.

I plan to study and revise the present lines of communications, as it is only then that I can effectively serve you, the student association. We say we want a lounge in the SAC; it seems concerts would be great, and for five years we've wanted a lodge at Whistler. These I will attempt to turn from issues into realities, but what else would we like to see? For example, should hockey games be scheduled at the same time as pubs? I will not decide on such issues without feedback. I will get the feedback and then decide on your behalf.

This year's grievance committee folded. Was this really student apathy or was it just because no one knew it existed? As president, I will let you know what is happening in your council. When you choose your student council president, you're looking for a person with intelligence, experience, character, maturity, and ethics. The effect of a poor choice will be felt not only this year, but in the years to come, with the reputation of the institute at stake.

To look at an example, the Provincial Government is presently considering a report concerning the governance of BCIT. If the report is passed the Student Association will have a voice in the administration of BCIT. I will make effective use of such opportunities so that all may benefit. Make certain that you don't elect someone who will abuse it. We cannot afford the mistake.

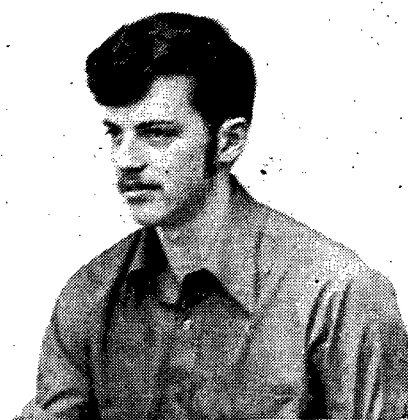

If anyone has any questions, do not hesitate to phone 985-3666, or 987-9608.

When asked why he was running for office, Mr. Wilkins replied that he felt a lot of things need doing; and he is the one to do it.

If he was elected, Mr. Wilkins' top priority would be to finish Whistler Lodge, and put it into operation.

When asked why people should vote for him rather than his opposition, Mr. Wilkins replied that a good president needs experience, intelligence and the ability to think for himself.

# VICE-PRESIDENT INTERNAL

## Ralph Sanford

As a candidate for V.P. Internal I would like to acquaint you with the office of V.P. Internal. If a problem should arise between you and the Administration, I would act as Ombudsman in presenting your problem to the Administration, and do what ever is possible to obtain a fair solution.

Complainers Unite! Vote for me, Ralph Sanford, your next V.P. Internal. April 10 and 11th. You won't be sorry.

Mr. Sanford has been elected to the position of Vice President Internal by acclamation.

## VICE PRESIDENT EXTERNAL

Elaine  
Friesen

Hi! I want to talk with you about some of the projects and issues that need changing or improving that I will be involved in next year.

One of the biggest endeavours I will be involved in is the Open House at B.C.I.T. The success of this project will depend on the cooperation of the student body. I will be responsible for the overall coordination of the committees.

A great deal of public relations is involved in this project and I feel that my three years of business experience has provided me with some insight in dealing with projects such as this one.

Another important issue coming up next year is whether or not B.C.I.T. should withdraw from the National Union of Students. B.C.I.T. pays close to one thousand dollars for membership in the N.U.S. per year. I feel that this is a waste of money unless the N.U.S. does something worthwhile soon.

I would like to see the N.U.S. lobby in Ottawa for tax deduction for textbooks and student union dues. The average student spends about \$300 per year on books and dues and as the N.U.S. representative for B.C.I.T. I would like to see students getting these deductions.

High school visitations is another very worthwhile project and that I would like to develop further than it is at present. The visitations are done in high schools all over B.C. and they provide students with important information about B.C.I.T. I think that too many students enter this school with the idea that because it isn't university it must be easier. Well, we all know now it isn't. I think its important to let the future students of B.C.I.T. know exactly what going to this school entails.

Also, if there is any way in which I can help in a student issue next year, I will be glad to spend as much of my time as possible on it.

As for running for a position in student council goes I feel that students sometimes fail to see past the prestige of holding an executive position in the school. The reason students council originated was to act as a voice between the students and administration. I feel my ability to freely express myself and my opinions will be a great asset to the communications flow within and without the institute. With your support and my desire to fulfill my position as V.P. External, I am looking forward to being part of one of the most progressive and enjoyable years B.C.I.T. has seen.

Miss Friesen has been elected to the position of Vice President External by acclamation.

## TREASURER

Jim Clark

The position of Treasurer is one that carries a great deal of responsibility to the various organizations and clubs in the school and to the student body as a whole. It requires a person with the experience and maturity to maintain sensible financial control. At the same time, he must keep an enthusiastic working relationship with the organizations that are using student funds. I believe that my previous education and business experiences qualify me to take on this responsibility.

I am 25 years old, and in the past 7 years have completed 2 years of Commerce at S.F.U., and worked at a variety of jobs. In these years, my main business interests were in the ski industry. I did operate my own business in this industry, which included direction of a ski school and management of a retail ski shop. This experience showed me the value of proper budgeting and taught me a great deal about applying it in a working situation. In a service industry such as that, one also learns the importance of good human relations. I feel that this combination of business experience and the ability to get along with people will be valuable assets to me in the position of Treasurer.

One final point that is relevant to my qualifications for this position is my background in sports. Both extra-mural and intra-mural sports are users of school funds. The Treasurer should be able to identify with the sports and recreational organizations. That way he can assist them in getting the best use of the funds available to them. I have participated in a wide variety of sports, from intra-mural to international level, so my attitude towards organized sport and recreation is enthusiastic.

I have the experience and enthusiasm to be a good Treasurer.

Bank on me to do the job.

When asked why he was running for office, Mr. Clark replied that he is concerned about the use of school funds and wants to see these funds used to the best advantage.

If he was elected, Mr. Clark's top priority would be working with the rest of the council to improve communications between the council and the student body.

When asked why people should vote for him rather than his opposition, Mr. Clark replied that he has 5 years practical business experience and a good facility for working with people. He has been keeping one of the top accounting averages in any of the first year business technologies.

Chris Skuce

The job of Treasurer is more than just bookkeeping and writing cheques. The Treasurer must also be able to:

1. Make minor decisions in the allocation of funds.
2. Provide data to the council on major financial decisions
3. Treat groups financial problems with the importance they deserve

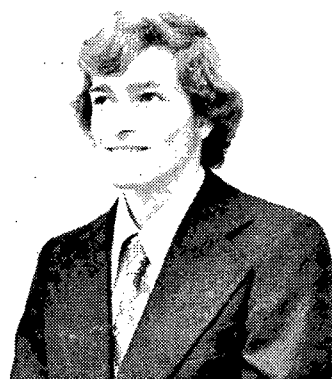

I am willing to devote the time and effort to make sure the job is done well and the allocations are distributed fairly.

When asked why he was running for office, Mr. Skuce replied that he could do a service for the student body while gaining valuable experience for himself.

If he was elected, Mr. Skuce's top priority would be to gain pertinent information on the groups' and techs' financial situations so that he could make decisions and provide council with data.

When asked why people should vote for him rather than his opposition, Mr. Skuce replied that he felt he had a good grasp of accounting principles (98% in his mid term) and would bring a great deal of energy and a sense of fairness to the Treasurer's position.

## ACTIVITIES CHAIRMAN

Paul Minett

This year the various clubs at B.C.I.T. got into pretty poor shape. The Outdoors club and the Motorsport club are two good examples. One of my main objectives next year as Activities Chairman will be to help these clubs recover. Improvements are needed in organization, control of equipment, interest and attendance, and coordination.

A topic of increasing importance at B.C.I.T. is the number of under legal-age students. These students are paying Student Association dues, but are not getting full benefits from these dues. I feel that something must be done to give these students their money's worth. My second main objective, therefore, will be to increase the rights of under-age students. For this I will need suggestions from the students, so let's have them.

Other questions I intend to look into include the use of lunch-breaks, the use of the Wednesday break, and how we will use the Residence Gym if we have it again to use.

For the rest of this year I will be working closely with Gerry Poitras, the present Activities Chairman, so that I can learn the ropes and do a good job next year.

Mr. Minett has been elected to the position of Activities Chairman by acclamation.

## INTRAMURAL SPORTS CHAIRMAN

Gary Holte

On Apr. 10th and 11th you are going to be voting for the position "Intra-mural Sports chairman." It is a fancy name for a person who organizes various house-league sports. I feel he is a means for the average "Joe" to get involved in any sport he wishes to play provided there is enough interest. He will schedule the games, provide the equipment and referees, accumulate and post the stats., keep in touch with the athletic wants of the student body, and be responsible for maintaining a fair degree of sanity before the year is over.

I feel I am qualified for the job for two reasons. First I have been involved in every sport from ping-pong to football, and consequently I know the required rules, equipment, and format for setting up many numerous sports. Second I have been involved with floor hockey, ice hockey, football and hopefully softball on an intramural level this year. I have had a chance to weigh the pros and cons of the present system and improve on it for your benefit next year.

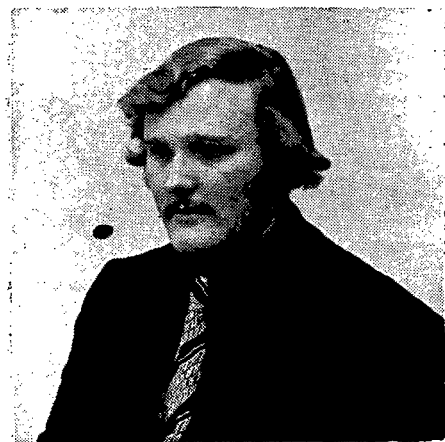

I have a few ideas I plan to instigate next year which I feel are of primary importance. First I plan to set up an "Honorarium" system, which involves appointing certain people in charge of tournaments in sports which they are well qualified in. This will give me more free time to expand the system and offer more activities to you of the student body. I plan to conduct referee clinics for each major sport next year. Improved refereeing will keep the games in the proper perspective and in the long run encourage more students to get involved. There will be sports representatives for each first and second year technology as well as a captain for each team. I believe with a captain in charge of each team there will be better organization with-in technologies.

I am open to any suggestions you may have, and if I am elected please feel free to approach me at any time. Do yourself and the school a favor and - VOTE!?

When asked why he was running for office, Mr. Holte simply answered "Yes".

He placed referee clinics, the organization of extra activities such as badminton tournaments, etc., the generation of interest in programs through publications and the development of a system of delegated authority - "Honorariums" - at the top of his list of things to do when elected.

He felt that with his sports background and his involvement in this year's intramural system, he should be elected.

Frank Sharpe

Hi! I am Frank Sharpe, your candidate for Inter Mural Sports Chairman for 74 - 75.

This year as Sports Coordinator for 1st year Finance, I have seen how the Inter Mural sports program functioned and feel that I can add to next year's program through better scheduling and coordinating of sports events.

I have been active in sports for the last 10 years as a participant, a coach and an organizer. In high school, as president of our Pep club, I was responsible for organizing many athletic functions and coordinating many athletic functions and coordinating the different groups.

Inter Mural sports serve a very important function in the lives of B.C.I.T. students. Many activities come from cities and towns outside the Lower Mainland. They need these students as a place to meet and get to know more students from their technology and from others. Especially the student who is not allowed to go to the school dances and pub nights (those under 19 years). This is one area that I feel should be changed and will work towards. I would also like to see more female participants in the activities and will work towards these goals.

With your support, all the Inter Mural sport programs and tournaments held next year will be an even better success.

Because of my association with the Extra Mural Sports Chairman, better scheduling and use of the sports facilities can be arranged. Also, by coordinating all athletic activities a better use of the equipment available will be arranged.

Frankly speaking, cast your votes my way for a SHARPE Inter Mural Sports Chairman.

Remember Coordination is the name of the game.

When asked why he was running for office, Mr. Sharpe replied that it was because of his enjoyment of sports and fun that can be enjoyed through them.

If he was elected, Mr. Sharpe's top priority would be to coordinate the athletic activities and strive for more participation from students.

When asked why people should vote for him rather than his opposition, Mr. Sharpe replied that he is prepared to do the work needed and that he also had the support of other members in the Athletic Office.

## EXTRAMURAL SPORTS CHAIRMAN

Stan  
Markowski

Students and staff of B.C.I.T. The extramural sports program offered here is available to all of us in some way or another during our stay at the institution. I am genuinely interested in all facets of its operation and how its benefits may be conveyed to you all.

There are a number of areas of concern at present. Perhaps the greatest is the cloud of apathy which hangs over the whole program. Sure we have some good athletes on the rep teams at present. Yet there are many of you good people out there who could make these teams also. Attending B.C.I.T. can be more than doing only homework day in day out. And what of you who can't actively participate in one sport or another? Your vocal support as fans is greatly appreciated. The latter point is of great importance when one considers the gloomy atmosphere prevailing around extra-mural sports this year. In attending many of the activities which took place, I could count on my fingers the few fans who supported us other than players' wives, girlfriends, (boy-friends) etc. And still have fingers left!!! The SAC facilities available here and the heated stands at 4-Rinks are for our use. Remember, you all pay a student activity fee in September. Participation in extramural sports in one way or another will insure at least partial returns on some of that fee.

What lies ahead? (Most important relating to 1974 - 75.) On registration day, September 3, 1974 I hope to see many of you who are entering your 2nd year of studies signing up for various teams and/or managerial positions. The following sports are offered for the next academic session:

Men:	Women:
Soccer	Field Hockey
Basketball	Basketball
Volleyball	Volleyball
Track and Field	Track and Field
Ice Hockey	
Rugby	
Golf	
Wrestling	

Yet extramural sports is not the only topic with which I am concerned with or involved in. The S.A.C. lobby may attract more of you if it is converted to a lounge.

-The present tennis courts should be expanded for next term.

-Whistler Lodge must be finished and full and enjoyable use made of it by students, staff and alumni.

-B.C.V.S. students must be remembered also. There are many good athletes and clubs personnel among you too.

-The facilities available at the residence - gym, theatre, and swimming pool may be used and enjoyed even more than now.

In remaining at B.C.I.T. for yet another year of studies, I aim to provide some of the continuity required as extramural Sports Chairman on the S.A. executive. I am staying in the area this summer to work on next year's extramural sports and related programs. I welcome suggestions from both students and administration. Please help me to help you make this a better place for all of us. Remember also to vote for the candidates of your choice April 10 & 11.

Mr. Markowski has been kept on as the Extramural Sports Chairman by acclamation.

## BUSINESS SOCIETY PRESIDENT

**Kelly  
Hayden**

My qualifications for this position were acquired through high school, and outside organizations where I took an active part in both organizing and fulfilling ideas.

My education, graduation from Delta Secondary in Ladner, and a year at U.B.C. has taught me the importance of a good relationship between students and council.

The purpose of this position is one of liason between business students and the student association, as well as the disposition of funds for business related and sponsored activities.

The present holder of this position, Roy Hynd has done an admirable job in these fields.

Should the student body elect me to this position, I will do my utmost to maintain, and further increase communications and technology funding, for the business society.

With the assistance of the Health and Engineering presidents we will continue to inform the students of all happenings on campus, and hope to make the coming year an enjoyable one for all.

When asked why he was running for office, Mr. Hayden replied that he wanted to help the liason between students and student association.

If he was elected, Mr. Hayden's top priority would be to better communications and information to business students.

When asked why people should vote for him rather than his opposition, Mr. Hayden replied that he is better prepared, and ready to devote time to the position.

## ENGINEERING SOCIETY PRESIDENT

**Wayne  
Humphry**

As Engineering President I will work on communications between the Student Society and the various Engineering Techs. I will also attempt to present as varied a social plan as possible. I would also like to amalgamate the Engineering and Nursing Departments to help bring the "Boys" and "Girls" together - "ALL TOGETHER NOW".

The Engineering Society will work more on affiliation with the Society of Engineering Technologists to ensure that B.C.I.T. Engineering standards are acceptable in industry.

Mr. Humphry has been elected to the position of Engineering Society President by acclamation.

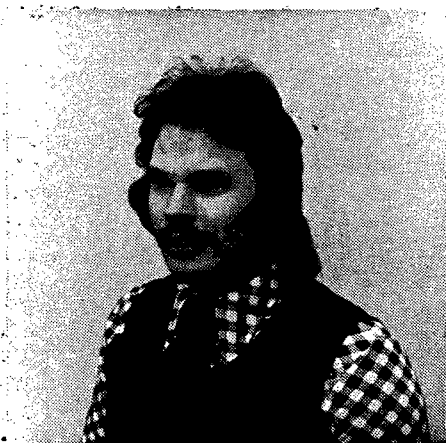

## HEALTH SOCIETY PRESIDENT

**Donna Pasko**

It is a common complaint of the students of this school that there is a lack of communication. One of the important duties of the Health Society is to maintain communication within the Health Technologies with the help of elected representatives I hope that I may gain the cooperation of students so that this goal may be met. I will do the job to the best of my ability and am willing to accept any criticism that may improve this office.

Miss Pasko has been elected to the position of Health Society President by acclamation.

**Darryl Leib**

An active Business Society President is one of the most important people you, as business students, have working for you. You need a man who is experienced, capable, dynamic, out-going, intelligent and willing to serve you.

I'm Darryl Leib, a 22 year old business student. I've dealt with people in the business community a sales rep. for the past two years and I feel that this gives me the back-ground and experience I need to do the best job.

Do you want better facilities?

Do you want a more active Business Society?

Do you want a closer relationship with the business community?

I want these things too; and I'm the one who will get them for you. Vote Darryl Leib for Business Society President.

When asked why he was running for office, Mr. Leib replied that it is an important position and he feels that he could do the best job.

If he was elected, Mr. Leib's top priority would be to make the business society more active and involved with the students, business community, and other related educational institutes.

When asked why people should vote for him rather than his opposition, Mr. Leib replied that he has more experience, ability and is capable of doing a better job.

## PRESIDENTIAL CANDIDATE'S DEBATE

The three candidates for President of the Students Council; Jim Britton, Blaine Kennedy and Jules Wilkins, have agreed to a public debate on Monday, April 8, 1974 from 12:30 to 1:30 in room 197. Each candidate will have up to five minutes to state his platform, after which time he will be subject to questions from the other two candidates for the remainder of a fifteen minute time period. At the end of the forty-five minutes, questions will be taken from the floor until 1:30 arrives.

Although the allotted time is much to short for a debate of this nature, and in all likelihood there will not be time to answer many questions from the audience, this is an opportunity to get behind the smiling faces on the campaign posters and get an indication which candidate(s), if any, would be able to function as President. Your attendance is necessary if you are to cast your vote wisely.

# FLASH FANE

THIS WEEK'S EPISODE!

"FLASH MEETS JUNGLE JUNE"

HAVING FOUND THAT THE NOTORIOUS  
DANNY DOOM HAD MADE OFF WITH  
HIS DOO-DOO, OUR HERO HAS  
DECIDED TO GET IT BACK... WITH HASTE!

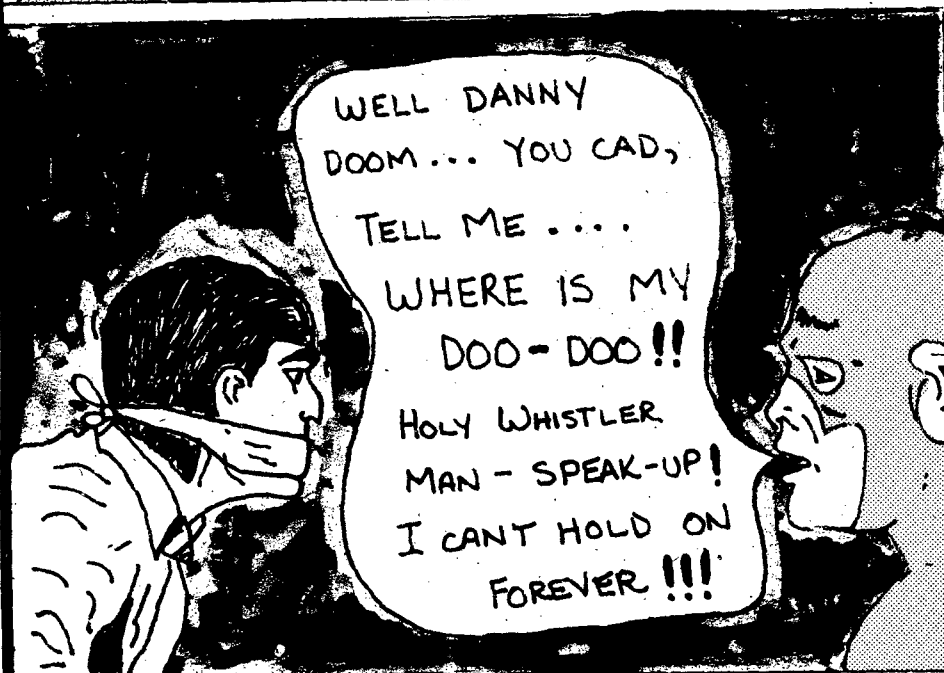

HERE I  
COME  
DANNY  
DOOM!

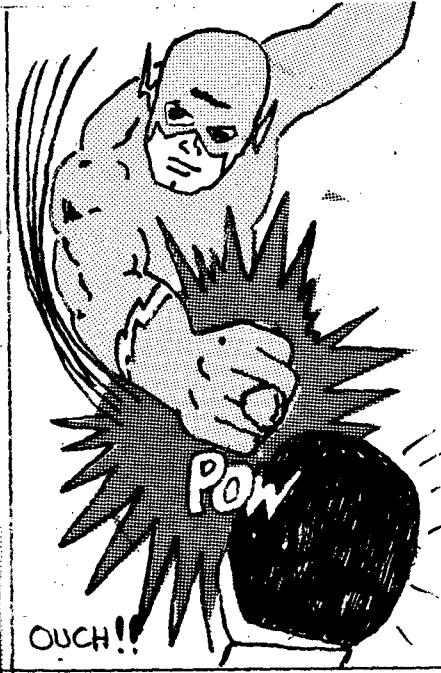

SLOW DOWN  
FLASH ~ BABY...  
I'VE GOT DANNY  
DOOM TIED UP  
IN MY STENO  
POOL

SUFFERING SAC!  
... IT'S "JUNGLE JUNE"  
& HER MAGIC TYPEWRITER  
RIBBON! .....  
WHAT A RUSH!

YES FANS....  
IT'S 'JUNGLE JUNE',  
FLASH'S RIGHT HAND!  
... WITH HER MAGIC  
TYPEWRITER RIBBON SNARING  
EVIL DO-ERS FROM THE SKY,  
... SHE IS AN AWESOME  
SIGHT TO ANYONE WHO  
GETS IN THE WAY!!

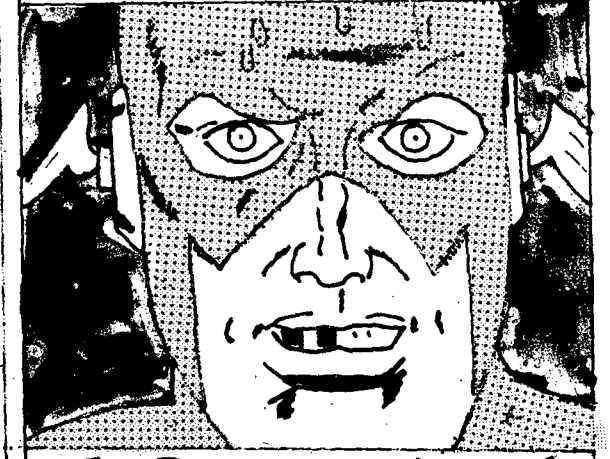

WELL DANNY  
DOOM... YOU CAD,  
TELL ME ....  
WHERE IS MY  
DOO-DOO!!  
HOLY WHISTLER  
MAN - SPEAK-UP!  
I CAN'T HOLD ON  
FOREVER!!!

POW

OUCH!!

WILL DANNY DOOM TELL OUR  
HERO WHERE HE HID HIS  
DOO-DOO? AND WHAT OF JUNGLE  
(HUBBA-HUBBA) JUNE?

TO BE CONTINUED!

## sports intramurals

### ice hockey

Playoffs will begin Wednesday April 10. Please check the current standings and the playoff schedule.

The following teams are definitely in the playoffs.

#### WEST DIVISION

Marketing I  
Pub Health  
C & S II  
Finance  
Building I

#### WEST DIVISION

Survey  
E & E II  
Instru & Sys II

The position have yet to be decided.

**NOTE:** Even though Alumni & Tech Man finished first in the East Division, they are eliminated from the playoff. Thus the 9th place team will be in the playoff.

### floor hockey

The floorhockey schedule has some minor changes, please check the revised schedule. Also, games are now being played on Wednesdays.

### softball

Due to the unpredictable weather, and playoffs, it is difficult to schedule games weeks in advance. Thus a schedule will be made one week prior to game time. A master schedule and game rule sheet is posted next to the pool tables in the SAC.

Games will only be cancelled due to rain on the day of the game. Also, softball gloves are available... Please show up for your games!

### tennis

Please check the master draw sheet posted outside the equipment room. The first round deadline has been set for April 10, but will probably be delayed to April 17.

Game rules are also posted outside the equipment room. **NOTE:** the rule concerning tied games.

Tennis balls are available in the equipment room.
