\$27,000 raised under program

By Rob Germain

\$27,000 has been raised so far at BCIT for bursaries and scholarships under the new Provincial Education Endowment Fund. The money is the first to come in following a letter campaign informing previous donors about the program, which matches private sector donations with government dollars.

with government dollars.

Marketing and Development
assistant director Susan Walters says over 200 letters were sent,

some as recently as mid-January. She says more money is expected to come in and "there have been many inquiries."

BCIT is eligible to raise up to \$200,000 under the program BCIT is eligible to raise up to \$200,000 under the program. Financial Aid director Jennifer Orum says they want to make sure BCIT raises the full amount so it will be eligible for at least as much next year. She says BCIT has until January 1, 1989 to raise the limit raise the limit.

Marketing director Gerry Fund.

Lloyd says a campaign will be launched in the spring to try to bring in more scholarship and bursary money for trades students.

Lloyd also says BCIT is trying to expand its donor base in general and will be "going after new companies which are beginning to hire BCIT grads."

Of the \$27,000, approximately one third has been donated under the Maria Stevenson Memorial

Sexist video games pulled from BCTT

By Robert Germain

University College in Toronto has joined BCIT in pulling the plug on a video game deemed

has joined BCIT in pulling the plug on a video game deemed sexist.

The Double Dragon game depicts scenes of a woman being beaten unconcious by a male captor. The Student Association at BCIT deceided to remove the two games it had on campus after complaints over the game's violent nature were publicated. complaints over the game's violent nature were publicized in a Vancouver Sun newspaper

in a Vancouver Sun newspaper article.

At University College, the Student Council voted almost unanimously in favour of removing the game after complaints by the campus Women's

Centre coordinator Women's Centre coordinator
Jelen Fallding says Double
Dragon and "many other video
games are sexist and playing on
outdated stereotypes."

The council treasurer,
however, says the games were big
money makers and called their
removal "intermediary
censorship."

At UBC where there are five

censorship."

At UBC, where there are five of the controversial games, a games room attendant says the UBC student society will decide on their fate this week.

The video games at both UBC and BCIT are owned by High Tech Investments Corporation, and revenues from the games are shared with the student unions.

Feds update job futures handbook

Federal Youth Minister Jean Federal Youth Minister Jean Charest has released the 1988 edition of the Job Futures handbook. The two volume publication is aimed at giving both current and prospective students an idea of where the career opportunities are.

The first volume deals with the experience of 1982 post-secondary graduates. It includes their occupations, as well as their assessment of the courses they took and what they would do

their assessment of the courses they took and what they would do differently now that they have experience in the job market.

Volume two contains an indepth look at 200 different occupations, including working conditions, job prospects and earnings, and the number of people that will be needed in each field in 1995. people that will I each field in 1995.

There's also a computer version of the handbook which will contain the same information on an additional 300 occupations not in the printed book. The books will sell for \$9.95 and the computer version is \$200.

"The future labour market cannot and need not, be unpredictable," said Charest. "Together with international trends and technological advancement, our economic advancement, our economic industrial and trade policies give us a pretty good idea of what kind of workers will be in demand in the next decade."

The main BCIT library currently has a copy of the 86-87 handbook. A spokesperson expects they'll be getting the updated version soon.

February is Heart Month

By Delanne Reid

February is Heart Month, time to ensure that your heart is in good working condition.

The first step is to have your blood pressure checked, because high blood pressure can lead to North America's number one killer - heart disease. And don't think that heart failure, stroke and kidney disease occurs only at an 'older' age. All ages are susceptible to heart disease, but high blood pressure can be controlled and should not be ignored.

be ignored.

According to information available at Medical Services in the SAC, the high majority of persons with high blood pressure are smokers, caffeine drinkers, the 'out-of-shape', the overweight, the junk-food eaters and others.

Those exposed to constant

e exposed to constant situations should also Those

James Morrow, a registered nurse at BCIT Medical Services, nurse at BCIT Medical Services, says students have to remember to keep everything in perspective. As the homework piles up, Morrows says it is vital that students make rest, exercise and diet top priorities. He also recommends that everyone have their blood pressure checked on a regular basis.

Month, Medical Services is recipes.
sponsoring two free blood The blood pressure clinics pressure clinics on campus next will take place Wednesday, week. The staff of Medical February 10 in the SAC Services will be on hand to answer questions. As well, information on heart disease will be J.W. Inglis cafeteria, 10 a.m. available for the taking, to 3 p.m. both days. rmation on heart disease will be available for the taking, including pamphlets on high blood pressure in women, high cholesterol, atherosclerosis, and dealing with your heart rate. Of particular interest will be a free guide to restaurant dining and a selection of low cholesterol available. J.W. Inglis cafeteria, 10 a.m. both days. For students and staff unable to attend these clinics, Medical Services staff will measure your blood pressure in their office in the SAC anytime Monday to restaurant dining and a Friday, 8:30 a.m. to 4:30 p.m., no appointment necessary.

Webster inspires budding broadcasters

Jack Webster visited the BCIT

Jack Webster visited the BCIT Broadcast Centre last week, and showed he's just as entertaining off televion as he is on.

The well-known television journalist answered questions from a group of radio, TV and journalism students, and his answers left no doubt he's lost none of his fire since he became semi-retired.

Webster sounded off on a wide

personal conduct of politicians, and Bill VanderZalm. (On VanderZalm: "He's a political curiosity who's life-span won't be long because he's a one-man government").

He gave the journalism students several pices of advice not the locate.

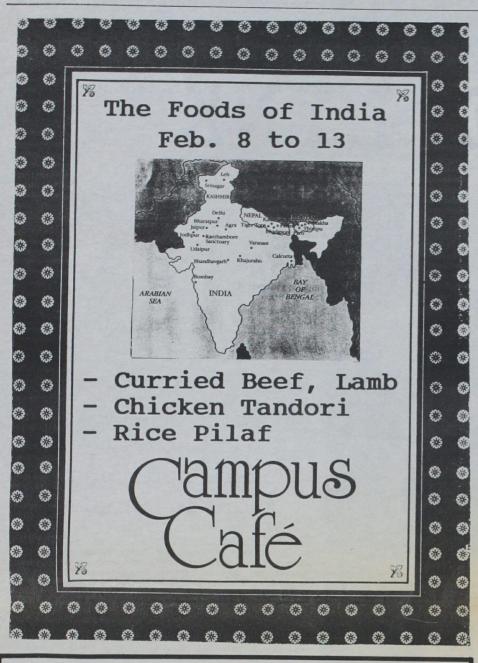

students several pices of advice, not the least of which was, "Remember, nobody ever tells the truth!"

blood pressure checked on lar basis.

Students could be heard leaving the meeting furiously range of subjects, including practicing their Scottish conjunction with Heart journalistic ethics, the accents.

Council takes over paper

The University of Manitoba's student newspaper, the Manitoban, has gone underground after the student council fired its staff and installed a new editor.

The underground paper, called the Ioban Gazzette, published its first issue in January with help from the Canadian University Press, which voted to expell the Manitoban when it was taken over by council.

by council.

According to a spokesperson for council, the original Manitoban staff were fired because the paper "was not living up to expectations," and had a "left-wing radical bias."

Council members cited complaints about use of the word 'fuck' in the paper, complaints from students about a series of cartoons they considered anti-Christian, and the paper's policy of not accepting military ads as reasons for shutting down and "restructuring" the Manitoban.

Cap student prez impeached

Capilano College's student president was impeached earlier s month after an investigation revealed he had misused student society funds.

society funds.

The executive of Capilano College Student Society (CCSS) voted to impeach president Shawn King January 8 based on the findings of an investigation by the college's Ombuds office.

The investigation revealed King had abused the society-run workstudy program and used CCSS funds without authorization. The amount and use of the money were not disclosed.

King, who was invited to defend himself, did not present any information or attend the meeting, and has since been unavailable for comment.

for comment.

Meanwhile, the student council at the University of Windsor in Ontario won a preliminary decision in its case against former president Jon Carlos Tsilfidis.

The council is seeking payment of over \$9,000 it claims Tsilfidis owes for unauthorized use of council funds. The contested funds include a \$4,000 pay bonus approved only by the three-member executive, and travel and meal expenses that could not be verified by an auditor's report.

U. of T. votes to divest

Canada's largest university voted to divest its \$1.26 million shares in companies doing business with South Africa, January 21. The governoring Council of the University of Toronto passed the motion, calling for the liquidation of its investments in companies that have holdings in South Africa by a margin of 30 for and 12 against.

The vote followed the release of a report, commissioned by U of T's president, George Connell, that recommended full divestment. Connell, however, disagreed with the report's conclusion and led the battle ahainst divestment.

Connell said the university should not, as a corporate entity, commit itself to a course of action "the intention of which is to bring about change in the political, social or economic structures of this country or any other."

But History Professor Michael Marrus, who seconded the full divestment motion, said the university could not ignore the issue.

"There were reasoned and humane arguements to be made on both sides of the issue," he said, "I think we chose a path that shows our university's abhorence of apartheid."

The rising cost of a university education in BC

By Mike Gordon and Rebecca Games Canadian University Press VANCOUVER

High unemployment and poor student aid are making access to post-secondary education in BC a survival-of-the-richest game,

survival-of-the-richest game, say critics.

Students in all three BC universities will be hit by a tuition hike next year, and though the universities say the increase is needed to balance their budgets, students will be forced to pay for the shortfall in a constant struggle for more provincial budget.

nn a constant struggle for more provincial budget. Students at the University of British Columbia will have to pay five and a half per cent more in fees next year, a move the administration claims is necessary to keep tuition at a constant 15 to 16 per cent of the university's total operating budget.
The increase will

average arts students \$75 a year more, for total tuition of \$1455

more, for total tuition of \$1455
a year. Engineering fees will
rise \$100 to \$1,884.

UBC now has the seventh
highest full-time arts
undergraduate fees in the
country, and the fourth highest
for engineering.

Tuition will also rise again
at the University of Victoria,
where the board of governors are
proposing to build yearly

proposing to build yearly tuition increases into the university's operating budget, as at UBC and Simon Fraser

as at UBC and Simon Fraser University.

That means full-time undergraduate students will be paying roughly \$17.50 more per course next year, about 20 per cent of UVic's \$71 million

cent of UVic's \$71 million operating budget.

UVic charges the highest engineering fees in Canada (\$2,258), and SFU the third (\$1,880).

But whether the universities'

operating budgets are cut back, or they get more provincial funding, students will end up paying the difference under the

paying the difference under the present system, say student representatives.

"Every time there's an increase in the operating budget, there's an increase in tuition," said Canadian federation of Students (Pacific) chair, Rob Clift. "Does that mean every time there's a cut to the operating budget, there's a cut to tuition too?"

"Students are regarded just too much as an easy source of

said UVic student

society president, Pam Frache.
Frache and two other board of Frache and two other board of governors student representatives are proposing UVic reject the tuition-operating budget structure, and vote to increase tuition fees by the rate of inflation, only if required, on a yearly basis.

Frache said she and the two board representatives lobbied

board representatives lobbied the provincial government for a tuition freeze last fall, but the provincial government for a tuition freeze last fall, but were told by the Advanced Education ministry that once government has allocated its funding, it is up to the universities to set the yearly tuition fee levels.

Though provincial student aid funding has improved slightly this year, Frache and others say it will not - nor should it ot - nor should 'built-in' tu

student society UBC UBC student society president, Rebba Nevraumont called BC's student aid "appalling." She said UBC has already cut some of its student bursaries to boost its operating

Frache says UVic's administration takes a similar administration takes a similar approach. "They (UVic's BOG) think that if students can get the money from the government in the form of student aid, then it's an indirect source of revenue (to the university) from the provincial government," she said

UVic's move would also be a further signal to the government that the universities are willing to shift the funding burden to students, said Clift.

Although BC's minimum wage rose to \$4 per hour last year, he said, "the wages students are being paid are not going to keep pace (with rising tuition)."

pace (with rising tuition)."

BC has the highest unemployment rate in the country, at 10.5 per cent, almost two per cent higher than the national rate.

Frache also cited a 1981 study saying women will more likely be affected by tuition increases, as they are only half as likely to earn the same wages as men.

as Tracty to earn the same magacas men.

Clift said a successful tuition freeze campaign will hinge on the support of the general public; especially the middle, lower middle-class, and poor students who are already excluded from post-secondary education.

PSE advisory board under consideration

Canadian University Press

A group of federal politicians will be touring the country later this month to hear what educators think of setting up a national advisory board on post-secondary education.

The tour of the Secretary of State's standing committ comes as a result of Liberal MP Bill Rompkey's private member's bill C-228, which he withdrew just before the Commons let out for the Christmas Break.

Rompkey's bill called for the

the Christmas Break.

Rompkey's bill called for the creation of a board that would study universities and colleges and make recommendations to the prime minister on how the federal government should spend money on post-secondary money education.

education.
Bill C-228 had been in the
House since September 1987, but
Rompkey said he withdrew it
because he felt the government

was stalling.
"It was my idea and my reasons were when you are

heading towards a brick wall, seek a diversion," Rompkey said.

Many other areas, such as science and technology, economic policy, and women's rights are represented by national advisory boards, Rompkey said, but there is not one for post-secondary education. Currently, that is governed by the provinces.

"It was quite obvious the government would not support C-228, and so I took half a loaf." com The snag was over the question of education as a of provincial jurisdiction, Rompkey said.

provincial jurisdissaid.

"The government felt they were not willing to support a unilateral federal initiative that would probably be seen by the provinces as overtices in provincial in as jurisdiction," he said.

What the MP from Newfoundland opted for was a position as one of two non-conservatives, along with NDP member Howard McCurdy, on an eight-person Secretary of State committee.

The group will hear the opinions of officials such as Roland Penner, the Manitoba education minister who chairs the pational Courcil of

education minister who chairs the national Council of Ministers of Education. The committee will present a report to Parliament on the feasibility of establishing an education

advisory board.
Rompkey's bill was widely Rompkey's bill was widely supported by groups such as the Canadian federation of Students during the National Forumon Post-Secondary Education, the Secretary of State-sponsored event held in Saskatoon this past October.

EDITORTAL

Enough, already

Are the TV networks getting a kick-back from Petro Canada? What other reason could there be for the endless, irratating coverage of the Olympic Torch relay?

Tell me if this sounds familiar...a runner dressed in red and white approaches with the torch... he/she passes it off to someone else... a microphone someone else... a microphone appears... a disembodied voice says, "How do you feel?"... the runner enthuses all over everyone.

It should sound familiar. We've seen the same set of images every day for the past six years (or so it seems).

Of course it's a thrill carrying the torch, but do we have to hear and see it ad nauseum?

And could someone explain why people get excited touching the torch. Maybe we Canadians are as dull as other people seem to think we are. The first question that comes to mind when someone is jumping all over the place after their fingers have barely brushed the torch is, "You don't get out much, do you?"

It wouldn't be so bad if the

networks didn't flog us with these images every single night. Good lord, these people are highly paid, supposedly creative professionals. It doesn't take a whole lot of brainpower to stick a microphone in someone's face and ask the same question every night. Surely they can come up with something better. And if they can't, then they should leave that defenseless Olympic Torch

One more thing, do the people travelling with the torch have to listen to that 'Share the Flame' song all day long. And if so, to what institution will they be committed when they get to Calgary? Calgary?

Pseudo Echo Love on Adventure

This new band from down under is getting lots of airtime with their new hit/remake of Funkytown. The album features a wide range of hybrid dance and rock musical approaches.

musical approaches.

The members of the band are young and full of energy both in and out of the studio. I expect the next album will be of similar quality.

A fine collection of tunes to please all tastes.

- Jim Brown

The Tragically Hip

This album is a good example why a band should wait for right people and the right material.

Side one has three songs that show promise, Smalltown Bring-down, Last American Exit, and

show prom.
down, Last American East,
Killing Time.
However, although these songs
are promising, the poor production and obvious lack of a
good lead guitar hurts the
songs. Side two did nothing for
this writer, which shows the

skills.

Comparing the band to the Doors and R.E.M. was a bad P.R. tactic. The record buyer then expects great music with a wide variety of styles, but instead is treated to a poorly produced record that should probably only be a demonstrate. be a demo tape.

De a demo tape.

I don't expect to hear a lot about the Tragically Hip in the future although stranger things have happened in the music industry.

- Michael Aikin

Alphabet City

As a virgin record reviewer, I was deleriously impressed to have the opportunity to dissect the latest album by British artists ABC.

Art is a key term when generalizing about this LP, because ABC's lyrics and muscianship are polished masterpieces. This review could be slightly biased though, I am a pre-Alphabet City supporter of ABC's techno-romantic sound.

There is no doubt that an

There is no doubt that an abundance of new BMW worshippers will emerge after a couple of experiences with the first experiences with the first single, When Smokey Sings. The energy emitted by this tribute to Smokey Robinson and Motown should be enough to power a U2 concert. It does though, show a huge resemblance to a previous hit Be Near Me, which cracked the top five in Canada.

The next song, The Night You Murdered Love, describes the raw emotion involved in a broken relationship. The albums spins on with their passionate pseudo-

Aykroyd disappoints in The Couch Trip

Movie Review by Z-Man

Being a giant fan of Dan Aykroyd, I went to this film be an artistic failure for expecting to see a great comedy Aykroyd. The majority of his along the lines of The Blues Brothers and 1941.

Instead, I walked away with profanities - I never though Aykroyd would stoop to these depths. Sure, he has done worse films, Doctor Detroit for his example, but I know that when he laughs as the film wears on seem to come from unneeded befitting his talents, he is

For now, I'll keep waiting, this wasn't his chance to really let loose.

let loose.
On the other hand, Charles
Grodin excels in this movie. His
role as a psychotic psychiatrist
Who doesn't want to talk to
anybody (I should be so lucky to
ever meet one) is pure genius,
the best acting and casting I've
seen in a While.

the best acting and casting I've seen in a while.

The Couch Trip does bring up one emotion though. That's pity for Walter Matthau. I really feel sorry for him in this one. Gone is the comic master-mind of the Couche and The Front Couple and The Front Il that's left is a

horribly ugly old man who was obviously exploited by the filmmakers for his looks.

Technically speaking, this flim is quite ordinary. Other than one bad editing mistake, this is just another film quickly produced by the studios.

It's not that this film isn't It's not that this film isn't funny, it has it's moments. It's just that I was slightly disappointed with Aykroyd. I think he should do a sex-change comedy. For those with some working grey matter upstairs maybe you can remember his portrayal of Julia Childs on the original S.N.L.

Tuition Fee Deadline For Dayschool Electrical Technology Students

Please note that the FINAL DEADLINE FOR PAYMENT OF FEES IS FEBRUARY 5, 1988.

After FEBRUARY 12, 1988 students will be withdrawn for non-payment of fees and assessed an additional \$50 late fee/reinstatement charge which must be paid in order to be re-registered into their program.

In exceptional circumstances, students can be considered for a fee deferral. For information on deferrals, check with Financial Aid reception in Student Services. Other enquiries related to tuition fees should be directed to Financial Services, Revenue Accounting in the J.W. Inglis Building - 1st floor.

Cale impressive one man show

Concert review by Glen Emery

Well I just didn't know what to expect when I went to see old J.J. I knew that it was going to be nostalgic, and I knew that he was going to be an old guy with a scruffy beard.

a scruffy beard.
The scruffy beard was there, the nostalgia was there, and so was a dance floor full of fucking tables and chairs. I guess the Commodore people expected a much more subdued crowd than that which showed up.

crowd than that which showed up.
Even at the relatively modest
beginning of the show people
were dancing amongst the tables
and exhibiting fine nocturnal
behaviour. I like to watch
people get really drunk, lose
their lips, and then get into a
heated dancing frenzy, because
then the musicians react and
play to them.

heated dancing frenzy, because then the musicians react and play to them.

Cale was quite impressive. It was more or less a one man show, with J.J. front and centre vocals and guitar with only a ppercussionist as accompaniment. He played all sorts of famous tunes that other people have made money covering. But it's good to see artists like J.J. Cale touring his own music to show people his interpreation of this great southern soulful rock

and roll. Eric Clapton's version of Cocaine was good, but sounded like the competition's response to a funky Pepsi commercial to a funky Pepsi commercial compared to how J.J. sings his

If you missed this show, don't pass up the chance to go see one of the old boys of rock and roll next time they're in town - they may never make it back again.

Ponty coming to Vancouver

One meets every Thursday at 6 p.m. (for info call Michael at 251-1472) and the other meets every Friday at 7 a.m. (for info call Clifford at 299-8815).

Both clubs meet in the SAC

Both clubs meet in the SAC rdroom and visitors and new abers are always welcome.

Noon hour workshops

The spring series of counselling department noon hour workshops has been announced. The workshop dates and titles

February 3 - Time Management

Tips February 10 - Post Diploma

Options February 17 - Job Search

Strategies

February 24 - Exam

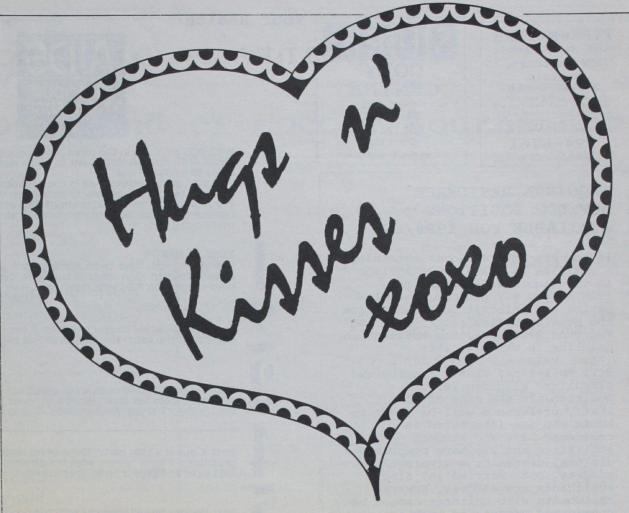

Preparation
March 2 - Overcoming Test
Anxiety
March 23 - Stress Management
April 20 - Assertiveness

The workshops take place in room 1A, building 1A, from noon to 1:30 p.m. They are free of charge, but students are asked to pre-register at Student Services on the second floor at the front of building 1A (facing Willingdon Avenue.

The workshops are presented by BCIT Counselling Services. Students may call 434-3304 for more information.

Student Activity Centre Open 8 a.m. to 5 p.m.

Now is your chance to tell your true love you worship the ground he or she walks on, you cherish every moment in her/his presence, and you would climb the highest mountain and cross the deepest ocean for a minute of his/her attention... yes... it's The Link Valentine's Issue!

On Wednesday, February 10, The Link will run your Valentine message for only \$1.00. Submit your message to the Link before 2 p.m. Monday, February 8, and be eligible for a special Valentine's prize draw, a box of chocolates for you and your sweetheart!

Your Health

With AIDS so much in the news most people know the main facts about AIDS. But it is important to understand how these facts apply to everyday life.
You may never find yourself in the situations described in this quiz, but would you or your friends know what to do? It is important to know the facts about AIDS and how to avoid unnecessary risks. Test your knowledge about AIDS by answering these questions these questions.

ROSS & SHARON

Sharon and Ross have been married for eight years. They have been faithful to each other all this time. Could either of them have caught the AIDS virus from sex?

YES. YES/NO

Sharon is attracted to another man. If she has sex with this other man could she catch the AIDS virus and pass it on to Ross?

Sharon decides to have an affair despite the risk of catching the AIDS virus from her lover. What is the best thing she can do to help protect herself from the AIDS virus in this situation?

Ross is out at a stag party. Some of his mates decide to visit a prostitute. If Ross has sex with the prostitute can he catch the AIDS virus and pass it on to Sharon?

YES

Ross decides he will have sex with the prostitute. What is the best thing he can do in this situation to help protect himself from the risk of catching the AIDS virus?

Tania meets Brett at a party. They are instantly attracted to each other. If they decide to have sex who could be at risk of catching the AIDS virus? (b) Tania (a) Brett

Tania and Brett decide to have sex but Brett has forgotten the condom. Should Tania: (a) refuse to have sex until Brett gets and

uses a condom.

(b) decide she should get to know Brett better and not to have sex that night.

(c) provide a condom herself.

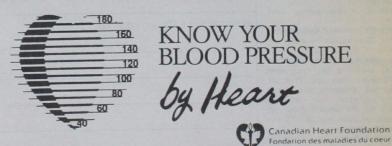

If Brett and Tania decide to have anal sex are they at risk of catching the AIDS virus?

YES/NO

SUE & IAN Sue knows that Ian Injects drugs and shares the needles and syringes with his friends. If Sue has sex with Ian will she be at risk of catching the AIDS virus?

Recreation and Athletics Special Report

On January 23rd, the BCIT Cougars coaching staff hosted an Indoor Soccer Tournament, featuring teams from throughout

featuring teams from throughout the Lower Mainland, Fraser Valley and the Kootenays.
Pool A included BCIT, Selkirk College, Burnaby Heights, Clan Alumni and Burnaby Lake. Pool B was made up of ICSF Columbus, Capilano College, Fraser Valley College, Club Ireland and ICSF.
BCIT got off to strong start by beating Selkirk College 3-0 on goals by Yen Fong, Ross Caputo and Ivan Mostrenko.
Unfortunately, BCIT lost their three remaining tournament games.

nes. Clan Alumni beat BCIT by a one of 3-1, BCIT's lone goal score of 3-1, BCIT's lone goal was scored by Yen Fong. Burnaby Heights then totally dominated the BCIT team 9-2. BCIT's goals the BCIT team 9-2. BCIT's goals were by Cal Traversy and Paul Butler. Neale Teverner, Dean Mosseau and newcomer Art Renand all scored for BCIT in their last game, but it wasn't enough, they lost it 4-3.

The semi-final game was between the Clan Alumni and ICSF Columbus, with the Clan outscoring the Italian club 5-1. The other semi-final game saw

Burnaby Heights whip ICSF 6-1.

Burnaby Heights whip ICSF 6-1. The consolation game was won by ICSF Columbus who beat ICSF 5-2. The championship final was between Burnaby Heights, led by former Vancouver 86ers forward Domeni Mekilio, and the Clan Alumni, led by John Connrer. The regulation game ended in a 3-3 tie, so the game went into overtime, with a goal by the Clan securing for them the victory. The Clan Alumni collected \$400 for their efforts, and second place Burnaby Heights took home \$200. Trophies went to the top three teams.

teams.
Coordinator of the tournament, Carmine Morelli, said the tournament was very successful. "It brought to our institute some excellent competition and sportsmanship next year we'll make it even bigger and better," said Morelli.

Students interested in joining the BCIT Inter-collegiate Cougars Soccer Team should contact Morelli at 464-8045 or local 5240 for more information.

The team's first league game of the year is February 7th, against the University of Victoria.

Where	and wh Winter	en was Olympic	the fir	st off: held?	icial
Answer	:				

Rules:

Campbell Athletic Services.

Drop off your answer at the Recreation & Athletic Office or Equipment Room by Friday, February 5th.

The winning contestant will be drawn from all correctly answered entries. Winner will be contacted and the name announced in the Link.

This week's prize:

One Full Day Lift Pass at Hemlock Valley

Clubs Update

Ballroom
The second series of lessons began last week and the change in days to Tuesday didn't reduce the interest. There is room for a few more, especially males, but hurry as the class may soon be too far ahead. The \$20 fee for seven sessions will be prorated.

Curling
Weekly sessions are held
at 4:45 p.m. at the Burnaby
Winter Club. Enter as an
individual or as a team.
\$30.00 for eight sessions
or \$5.00 drop-in.

Ham Radio Although the official opening isn't until next Wednesday, members had the station up and running last week, making contact with operators in Hawaii and the eastern United States.

The group meets every Wednesday from 11:30 a.m. to 2:30 p.m. in the trailer just east of building #10. For more information contact Russ at 434-5734 local 5021.

Outdoor
A dozen members had a thrilling time cross country skiing up Blue Mountain east of Maple Ridge. Trip leader Neil Simmonds (an Electronics instructor) reported that snow conditions were excellent and the weather was good. They even managed to 'reach the peak.'
The club has a moderate hike on Sunday, February 7, with everyone invited to meet in front of the BCII administration building at 10 a.m.
A more strenuous hike is planned for Saturday, February 13th, and participants should meet at 7:30 a.m. at St. David United Church, 1525 Taylor Way, West Vancouver.
And lastly, another cross country ski trip is planned, this time overnight at Diamond Head, Saturday and Sunday, Febrary 20th and 21st. Register at the Recreation Office.

Shisei-Kai Karate

Training sessions are held every Monday and Wednesday evening from 6:30 to 8:30 in the building 3A

Scuba

Scuba
A certification course
is in the works - hopefully
information will be ready
for the next issue.
The last dive was a
success as five divers
enjoyed the waters of Howe
Sound. Visibility was good
and rumour has it a night
dive is scheduled.
Next meeting is Tuesday,
February 9th at 5:30 p.m.
in the Telephone Exchange
room. Next dive is the
following Sunday, February
14th.

Student Activity Centre

Open 8 a.m. to 5 p.m.

Device helps foresters tell if seedlings are ready

Two engineering students at Simon Fraser University have developed a portable device that can test whether tree seedlings are healthy enough to be replanted. The device, called a fluorometer, could save the British Columbia forestry industry millions of dollars a year.

A fluorometer for measuring the response of seedlings to light was developed a few years ago by two SFU biologists, William Vidaver and Peter Toivonen. But the device was too large to be moved around. Plants had to be brought to it. Now the engineering students, Glen Springle and William Hue, have designed a portable model which foresters can use in the nursery or in the field.

The fluorometer works by measuring the light emitted by a chlorophyll in plant cells gives off a fluorescent light as it traps the sun's energy and converts it to sugars. Because the light is in the far red end of the spectrum, and weak compared to daylight, people can't see it

To test a plant, the researchers give it a quick flash of light in a darkened room. This triggers the plant to photosynthesize. If it does, the fluorometer detects the fluorescence produced as a result, and plots the plant's response on paper. The plot can be interpreted to tell whether the plant is healthy and in condition to be stored or

replanted.

"People have known about plant fluorescence for years," says Carol Anderson, general manager of ENSC Student Enterprises. "But no

plant during photosynthesis. The one had ever correlated it to seedlings, and no one had tried to make it portable.'

The portable device is battery operated. It includes an overhead projector bulb whose light is emitted through a shutter and two filters. The filters make the light the right wavelength to induce photosynthesis when flashed onto the seedling. The plant's fluores-cence is then measured by an optical detector, which transmits the information to a personal computer. The computer stores the data for later graphic display.

Seeds for new trees are planted and allowed to grow into seedlings for 9 to 10 months. Then the seedlings are 'hardened off' (gradually cooled and deprived of water) and placed in cold storage until growers are ready to plant \$2.00 each.

them. However, if they are put into cold storage before they are ready

for it, many will die.

The way a seedling responds to the fluorometer flash tells the grower whether the plant is sufficiently dormant to go into cold storage. The fluorometer thus gives the grower a new insight into the seedlings' condition, allowing him to put them into storage at the op timum time to enhance their chan-

ces of staying alive and healthy.
Each year the forestry industry plants about 200 million trees. But about 25 per cent of these die, partly because seedlings go into storage when they aren't ready for it. By ensuring storage at the right time, the fluorometer could save foresters a lot of money. Tree seedlings are worth anywhere from \$1.25 to Rather than examining thousands of seedlings individually, the machine could monitor about 200 seedlings from among thousands that have all received the same treatment, and take an average to determine the general condition of all, Anderson says.

The two students are working on the design of a battery-powered microcomputer to make market the fluorometer through ENSC Student Enterprises Inc., a private company incorporated by engineering students to market new technologies developed at SFU.

The fluorometer and its software were built with assistance from the National Research Council In-dustrial Research Applications Program (IRAP).

Forever Free!

Make a splash at the beach this summer! Permanently remove hair from your underarms, legs, and bikini line, and show off your new swimsuit.

Razor stubble, skin irritation, and dark shadows of embarrassing hair ruin the "bathing beauty" look. It is a tedious task to eliminate excess hair with temporary methods. Electrolysis safely removes superfluous hair FOREVER and is the only permanent method of hair removal. For a consultation, contact:

Jan's Electrolysis Studio

Suite 1-4857 Kingsway Burnaky, B.C. o5h 2cd

Answers

No.
Because Sharon and Ross have not had sex with anyone else for the past eight years they will not have caught the AIDS virus from sex. You can be sure that staying with one partner is one of the best ways to protect yourself from catching the AIDS virus.

Yes.
Sharon could catch the AIDS virus from having an affair.
Women can catch the AIDS virus from sex. Women can also pass the virus on to others.

One of the important things that Sharon can do is to use a condom every time she has sex with her lover.

Yes.
Because of the number of partners prostitutes have, they have a high risk of catching the AIDS virus. If the prostitute Ross has sex with does not use condoms Ross will have put himself and Sharon at risk.

One of the things Ross can do if he has sex with a prostitute is use a condom. This will help protect him from the AIDS virus.

c. Both of them.
This couple do not know each other therefore they should treat each other as potentially at risk. They should use a condom because both of them could catch the AIDS virus from casual sex.

a, b & c.
All these answers are sensible ways Tania could deal with the situation and avoid having casual sex without a condom to help protect her from catching the AIDS virus.

Yes.
Both Brett and Tania would both place themselves at risk of catching the AIDS virus. Anal sex is very risky for either sex and should be avoided.

Yes.
The safest way is for Sue not to have sex with an I.V. drug user who shares needles and syringes. If Sue does have sex with Ian a condom will help reduce the risk of her catching the AIDS virus
