The MANAGEMENT COMMITTEE met for the first time on May 12 and now meets regularly each month. Consisting of representatives from various groups across the Institute, the committee concentrates on three areas:

- Institute wide issues which do not align themselves with either the Education or the Finance and Administration committees

- Recommendations from the Education and Finance and Administration committees
- Key issues brought to the committee by the president.

A major role for the committee is to assess the impact of proposed policies on the Institute and make recommendations to the Board of Governors.
