BCIT Information

Mission Statement

*To provide British Columbians
with world-class, job-ready skills
for career success*

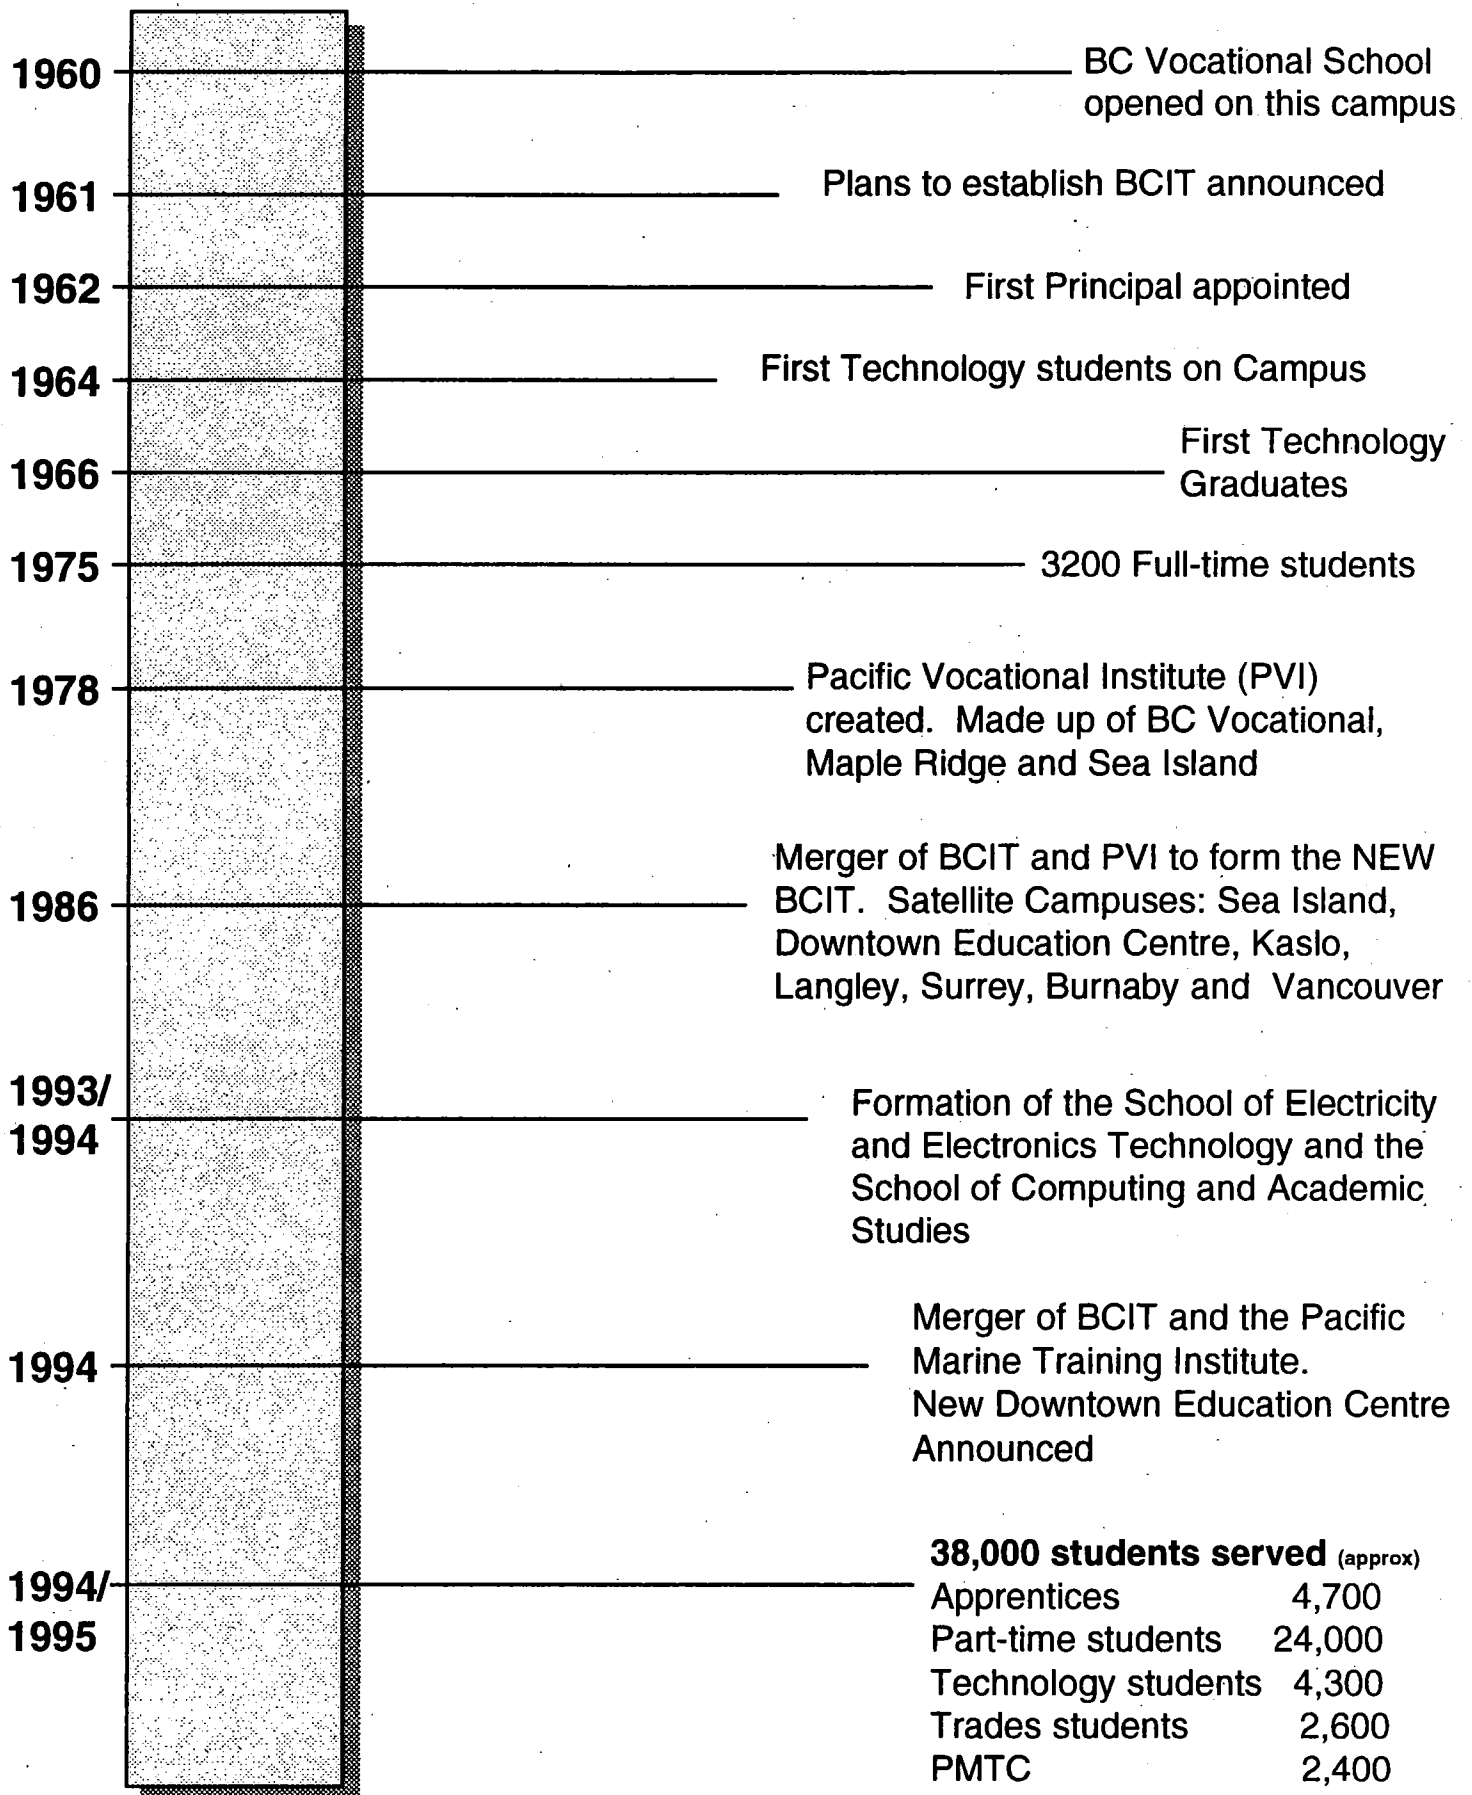

Mandate

BCIT will be a Province-wide innovative organization, specializing in advanced technology training and focusing on those initiatives that increase the level of economic activity, entrepreneurial activity and employment for the Province.

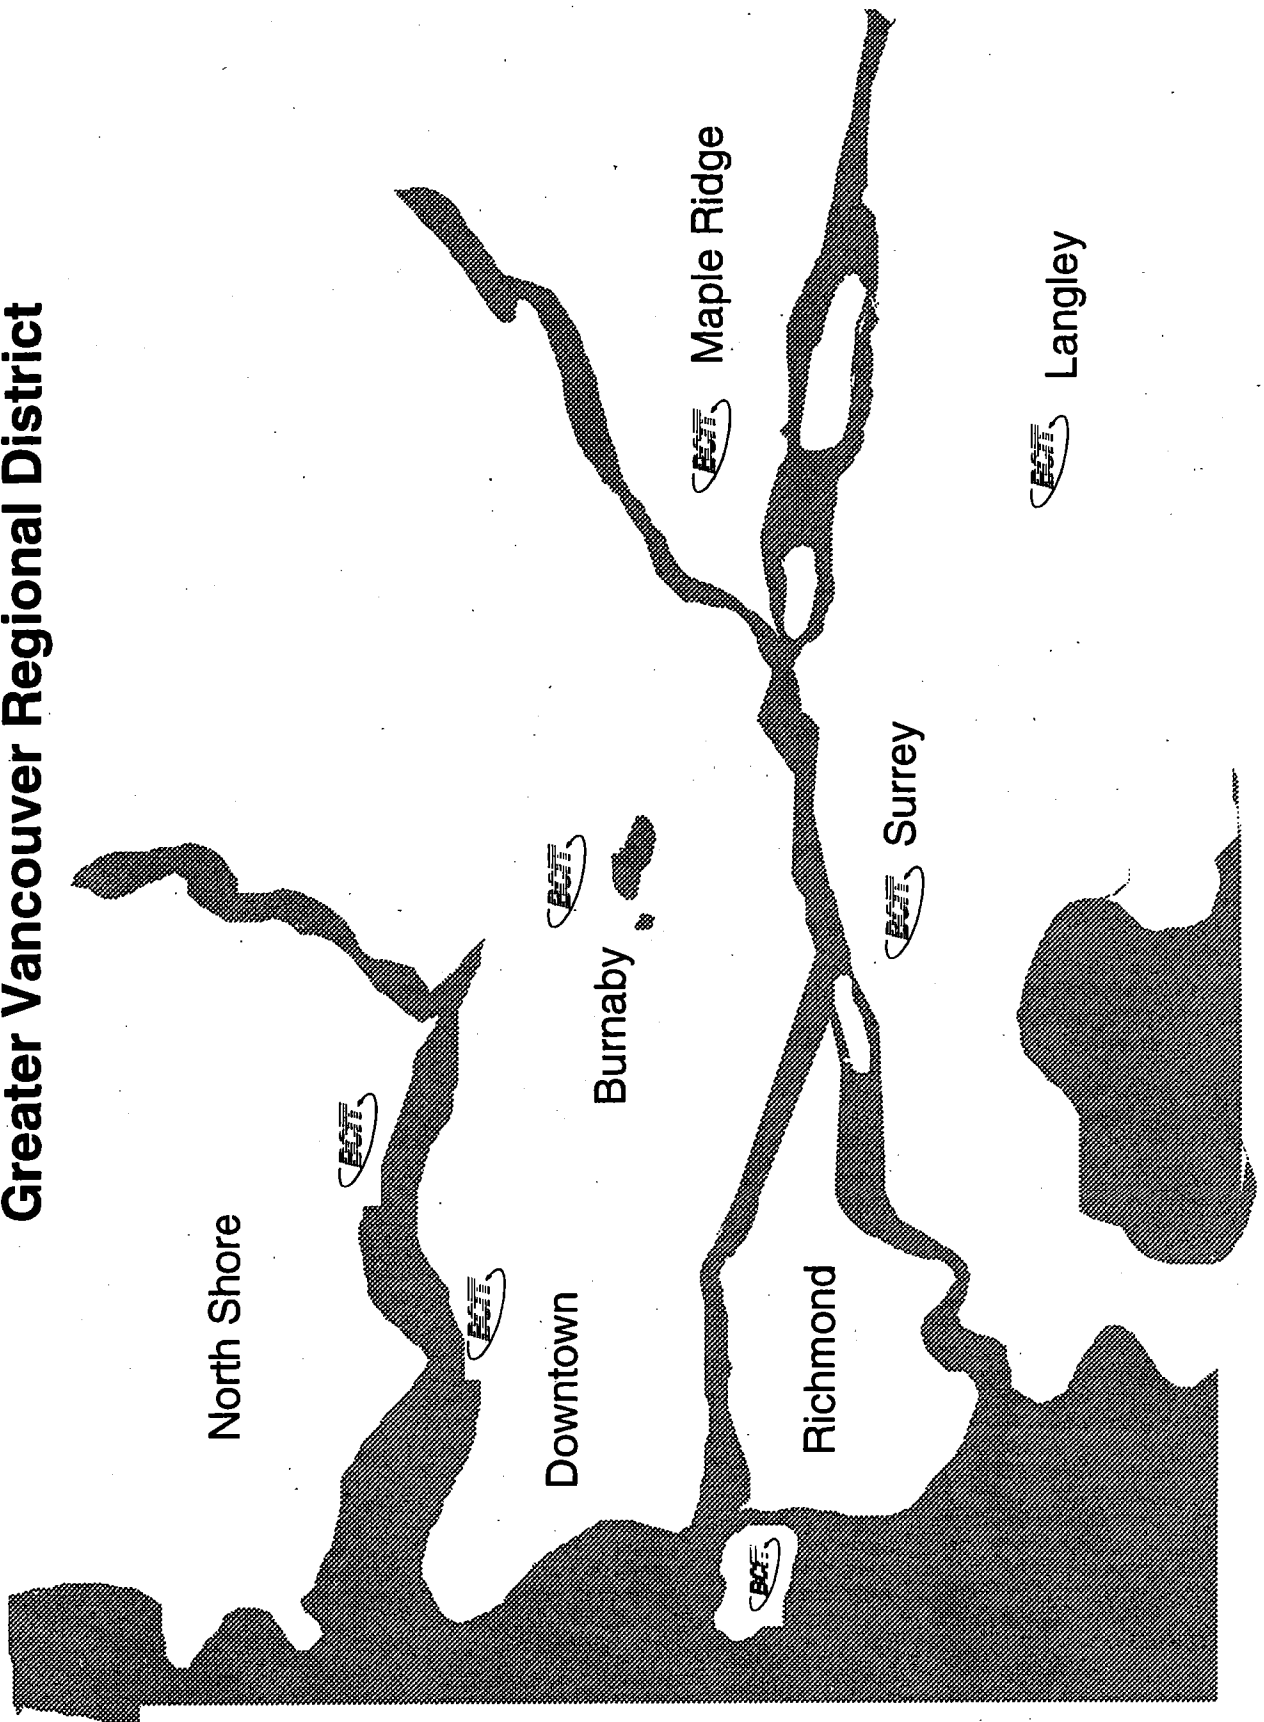

BCIT will:

- *Prepare dynamic, highly skilled members of the workforce by delivering full and part-time courses of study:*
 - *Certificate, Diploma and Technology Degree Studies Technologies and Trades*
 - *Contracted industry training and upgrading courses*
- *Conduct technology transfer activities by providing opportunities for innovation, industrial assistance and contracted applied research*

BCIT HISTORIC OVERVIEW

BCIT Campus Locations Greater Vancouver Regional District

FACTBOOK DEFINITIONS

Actual FTE	Measures the actual FTE achieved.
Fiscal Year	Reporting period of April to March.
FTE (Full-Time Equivalence)	FTE represents all full and part-time enrolments converted to the number of students carrying a full-time course load.
Full-Time Program Enrolment	Number of students who are enrolled in day time programs.
Full-Time Student	Student who is enrolled in a day time program.
Graduate	Student who has earned credential upon completion of a Technology or Vocational Program.
Home Address	Region student lived in at the time of admission to BCIT.
Pacific Marine Training Campus (PMTTC)	Formerly Pacific Marine Training Institute. Merged with BCIT in the 1994/95 fiscal year. Offers Marine related courses and programs at the North Shore Campus.
Ministry Funded FTE	Funding provided by the Ministry of Skills, Training and Labour that reflects approved educational services to be provided.
Part-Time Certificate Graduates	Students who earned a certificate in part-time courses.
Part-Time Registrations	Number of students registered in part-time evening courses. This is <i>duplicated</i> student count. Students could be registered in one or more courses.
Part-Time Students	Students who are registered in an evening course. This is <i>unduplicated</i> student count. Students are counted once regardless of number of courses registered in.

BCIT Profile

BCIT serves 40,000 students every year in full-time, short-term and part-time courses. Many of our students are working while they learn and 2,700 enter the workforce as graduates of our full-time programs every year.

Those people who choose to learn at BCIT are highly motivated and, generally, have a clear understanding of what they seek to accomplish. Many look to us for upgrading, retraining or the development of practical skills to add to existing credentials.

BCIT is an institution mandated to deliver science and technology-based Technology and Trades Programs, with an applied rather than an academic nature. We concentrate on offering programs which meet the needs of the market place. We recently merged with the Pacific Marine Training Institute, expanding the range of programs that we offer.

Men and women, of all ages, leave us "job-ready", graduating from a learning environment that is reputed to be one of the most challenging in the post secondary system. They are graduates who are welcomed by business and industry; they help generate more jobs and wealth and, in doing so, enhance the competitive position of BC business and industry.

BURNABY CAMPUS

BCIT Department Information

- **BCIT International**
- **Housing**
- **Library**
- **Human Resources**
- **Physical Plant**

BCIT International develops and coordinates international activities with industry, government agencies and other agencies in British Columbia, Canada and overseas.

Department activities provide professional development and study opportunities for BCIT faculty, staff and students overseas. These opportunities result in long-term international relationships, which promote BCIT's comprehensiveness in technical training in the world market.

BCIT International is involved in international development projects, contract education training and related activities. These activities bring BCIT an increasing number of international students studying in full and part-time programs. Their presence on campus provides excellent opportunities for intercultural understanding, development of an international perspective and experiences among domestic and international staff and students.

Maquinna residence is situated on the Burnaby campus, a short walk from classes, the Student Centre, recreational facilities and medical services. BCIT's on-campus residence accommodates 336 residents in seven low-rise, split level buildings constructed in 1978.

The residence consists of town-house style units where 12 students live together sharing kitchen and cooking facilities, living/dining rooms, washrooms and laundry facilities. Residents may choose all female, all male or co-ed units. Each resident has a private bedroom.

During the 1994/95 fiscal year 590 students were accommodated in residence. 66% of our residents were male and 34% were female.

What was the most important reason you chose to live in Maquinna Residence?

Library Summary

The BCIT Library plays a leading role in the educational process by providing the BCIT Community with access to current materials using the latest information technology, assistance in retrieving information and instruction in research methods.

Library holdings include approximately 500 thousand books, periodicals, pamphlets and non-print media. Major strengths are in the following areas

- collections of technical reports
- standards
- Statistics Canada documents
- topographical and land use maps
- legal and legislative materials

There is a large microcomputer lab in the basement of the library as well as equipment for viewing video and film. The library is wheelchair accessible and a print-to-voice machine is available for the visually impaired.

Librarians give instruction in library research skills through the online catalog of the library's holdings, periodical indexes in print format and on CD-ROM and other specialized sources of information. As well as individual and group instruction there are printed guides to various information sources, facilities and services.

During the term, the Library is open seven days a week and during the evening from Monday to Thursday. Summer hours are posted.

Section 7

Pacific Marine Training Campus

Pacific Marine Training Campus

British Columbia's extensive coastline and offshore islands, scattered concentrations of people, and resource industries, have all contributed to the development of a large marine industry served by ferries, tow boats, barges, fishing vessels and a variety of merchant vessels. The necessity for educational facilities to provide and improve the knowledge and skills of individuals embarking on a career at sea has long been recognized.

The Vancouver School Board first began providing navigation training in 1919, in a building on Dunsmuir Street. This short-lived venture soon lapsed, and it was not until 1938, when the provincial government opened the Vancouver Navigation School, that publicly funded marine instruction was again available on the West Coast of Canada. In 1949 this operation was transferred to the Vancouver Vocational Institute where, with the additional of a marine engineering component, it remained until 1975. During the year, new leased premises were acquired, and this new facility, namely the Marine Training Centre, began providing training in navigation and engineering. Following the establishment of the Marine Training Advisory Council in 1976, it was decided that the responsibilities of the centre should be increased. As a result, in 1978, it was designated a Provincial Institute and renamed the Pacific Marine Training Institute.

In 1994 the Pacific Marine Training Institute merged with BCIT and was renamed the Pacific Marine Training Campus.
