## MY OPINION

During my stay of execution at the Institute I have come across a number of problems which in my opinion should be corrected. The trouble is I had to wait 1 year before I could voice my beefs. Now as editor of LINK I have my chance. Following is a list of items which really piss me off:

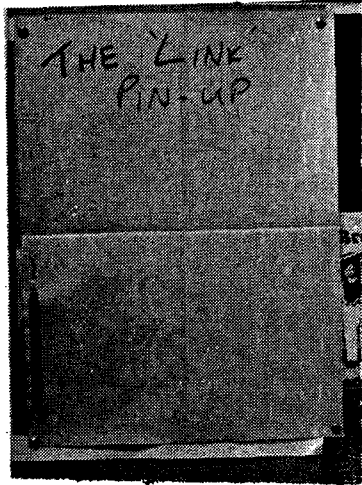

- 1) Have you ever tried to make a right turn onto Willingdon from Goard Avenue during rush hour?
- 2) Have you ever tried crossing Willingdon at rush hour? The damned crosswalk sure doesn't help much, does it?
- 3) The really shitty parking problem (see pages 4 and 5).
- 4) Do you remember last year when you could still get a decent parking place at 8:14? Try getting one at 8:15 now!!!
- 5) Do you remember when students had the right to use the elevators instead of hiking it up to the fourth floor? Quick---who's got an elevator key???
- 6) Do you remember our protest rally to put in a traffic light on the Willingdon crosswalk last year? Where is it? Does someone have to be killed before Burnaby opens their eyes??!
- 7) Have you ever tried making a left hand turn onto Willingdon at 4:30? It's even worse than making a right hand turn.
- 8) Did you know that beer at SFU Pubs is 40¢!!! Why is it 50¢ here?
- 9) The crappy residence situation (small rooms, no cooking facilities etc)
- 10) Why wasn't construction on the BCIT grounds done in the Summer? You know that funny looking wooden wall of China that dissects the campus ground.

If any of the above beefs of mine tend to piss you off too, or if anything else does, why not write me to publish your beefs. Its your school too!!!

## THE LINK PIN-UP

In the last issue of this paper the above page was completely blank. How come? Could it be because there's a shortage of models? Or were the staff of the Link just catering to our imagination? Or

is it possible that they made a mistake?

Will we see this page used in the future - perhaps with proper pin-ups, drawings, or pictures of B.C.I.T. events? Or will we have to rely on our imaginations to see what they didn't dare print?

In a paper which comes out only once a month, let's hope that something more constructive appears this month.

P. Minett

Editor's note: Sorry, Paul..... please see this issue's centre pages..... Is that better?

Dear Sir:

It is now the end of October and so far your council has accomplished the following:-

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

Tuesday, October 15, there was supposed to be an executive and council meeting. Unfortunately, both meetings were cancelled due to lack of interest.

Many students are questioning the effectiveness of the council, as can be seen by the above list of accomplishments, the

students are being represented by ineffectual and incompetent persons. can this be stopped?

If you are tired of being governed by class reps that don't show up to council meetings, attend the next meeting, Nov. 5, at 7. Let Mr. Kennedy and his co-horts know that BCIT students want a voice in what goes on and that you have the right to demand that the students Association get off their back sides and start carrying out their elected duties. You and I don't have to put up with apathetic council members.

## LINK AND NEWSLETTER

A LINK OR NEWSLETTER WILL NOW BE PUBLISHED EVERY 8 DAYS WITH 2 newsletter during the beginning of the month and a link again at the end. LOOK FOR THE NEXT NEWSLETTERS ON NOV. 6 AND 17 AND THE NEXT LINK ON NOV. 27th.

Dear Sir:

Why are some students always attacking our President, Blaine Kennedy? He was voted in last spring by a majority of the students to be our elected representative. We supported him and his objectives last spring and we intend to keep on supporting him.

Blaine Kennedy has taken constructive steps to come to grips with the parking lot situation. A Parking Committee has been set up to investigate this issue carefully and prepare recommendations. There is place on this committee for (interested) students. To help Blaine get this problem solved we should bring forth our own suggestions to him or ask for a place on the parking committee.

Blaine Kennedy is well aware of the situations prevailing in our residences. He himself does not live in residence because it is his policy that members of the Student Council should not take or give special consideration to anyone. Blaine's example of practicing what he preaches is a commendable attitude that we can all follow. He has even given his public support to a group of students living in residence who are fighting for improved conditions.

We should all appreciate the fact that there is a "student liason" office located in the SAC complex. Blaine realizes the benefits of having a direct, and sympathetic "pipeline" into the second floor. This office is available to all students on any matter and serves as an excellent means of communication and the rapid settlement of grievances. In consideration for this office space, the Second Floor has contributed financially toward recent alterations in the SAC building.

Instead of complaining about what our elected officers aren't doing, let's get out and help them do things for us.

B. Semaj

Link  
The Editor

Sir,

Is the Second Floor represented on our newly formed Parking Committee? Is there any strength to the rumour that they are dragging their feet on this problem claiming that they can't do anything because of union-management contract negotiations? Is there any truth to the rumour that the Second Floor is not co-operating with the Student Association in supplying computer listings on the student body to help analyze the car driving segment of our enrollment? Or what about the listing for our student directory? Is the Second Floor dragging its feet here too? Will we have to wait until May before the Student Directory gets printed?

What about these students (B.C.I.T. & B.C.V.S.) in residence who are attempting to get a better deal? Has the Second Floor been dragging its feet on this problem? Is there any truth to the rumour that the Second Floor is deliberately ignoring what these students want in order to remain in favour with their "bosses"? Could it be they are just pretending there is no problem in the hope that these students will give up and forget it? Are students living in Brentwood Manor having to resort to hiding food in their rooms because there are no facilities for the proper and sanitary storage of food provided? Are the upper floor of that hi-rise almost a fire trap because of the lack of water pressure in the fire hoses? Are they in violation of the City of Burnaby Fire Laws?

What's with these long line ups in the Food Service cafeteria? Aren't they just a little bit longer and a little bit slower than last year? Is there any truth to the rumour that some of the people standing in line don't have B.C.I.T. or B.C.V.S. student or staff cards. Has the quality of the food offered improved or deteriorated over the last year?

Why hasn't the Second Floor enlightened us about the contract negotiations involving our instructors? Why not the Staff Society? Isn't this our school too? Don't these happenings affect us in a very real and direct manner?

Jim Britton  
10B2

# PARKING

There is a parking committee that includes in its make-up two students. Other members include; The Director of Planning, Technical Staff Rep, Staff Rep, Traffic Dept. Rep, etc. The function of this committee is to study our present parking facilities and put them to the best use, and to forsee future requirements.

Early in September, the functioning of this committee froze because of the procedural avenues that came into existence over changing parking regulations. THE BCIT STAFF SOCIETY AND THE BRITISH COLUMBIA GOVERNMENT EMPLOYEES UNION ARE THE AVENUES THAT NOW EXIST.

The unions have to negotiate with the Board of Governors of BCIT, whether or not parking will be a condition of employment in their pending contract. If any changes to the present parking situation occurred now, the Labour Relations Board would step in and say that you can't change a condition or term of employment with negotiations pending. This matter should be one of the first brought up once negotiations start, so the committee will begin to function soon.

One possibility to ease the parking congestion out back is one which would encourage car pools to develop. If a set number of parking spaces were markee as a student reserved section, with one permit to be issued to two students. The student's names and car license numbers would be on this permit. In this way you could share the driving with one other person and only half the number of cars for that section would be arriving each day. So if 100 spaces were reserved we would have 100 less cars to worry about. Do you think this solution is feasible? This solution would only help the people who had similar time tables and who lived close enough together to pick each other up in the mornings. Please communicate your reactions to us by dropping any suggestions you might have into the Information Booth or the SAC offices.

# HEALTH SERVICE NEWS

## HEALTH SERVICES

Did you know that BCIT has full doctor facilities right on campus? Yes, we offer the same services you can get at your own doctor's office PLUS Public Health Services. There are no appointments necessary, no locomotive hustle bustle just the traffic of students. We can be found in the east wing of the SAC. This is the same wing that the TNT and Publications Office are located. Our staff includes Mrs. Fenner, Public Health Nurse, with us now for a total of 10 years; Dr. Bob Wilkie, M.D., & Dr. Barbara Copping, M.D. Mrs. Fenner originally trained at Vancouver General for 3 years. Upon graduation she left for Los Angeles to work at U.C.L.A. in their intensive care unit. Between her departure from U.C.L.A. to the past 10 years here she has had many exciting moments working in doctors office, working for the V.O.N. and then proceeded to further her education in Public Health. But because she likes us younger generation she has persisted (along with the others) in our chronic complaints. You know the symptoms???

Last year Dr. Bob Wilkie, M.D. joined the Health Services to help keep the student body healthy. Originally he attended school at the University of Alberta. Furthering his education he took 4 years of medicine to achieve his Bach. of Science and MD.

Some of his many interests include People, dogs, karate, skiing, scuba, diving, carpentry & sex.

Travels have taken him on excursions all over the U.S. and to many parts of Mexico. New to our staff this year is Dr. Barbara Copping, M.D. After grade 12 graduation Barbara entered Med. school to achieve her Bachelor of Science, Masters of Science, M.D. & Interning degrees. She then came here to be an active part of our staff. Some of her many interests include horseback riding, skiing, travelling, her enormous love for dogs. Travelling may take her on her many jaunts to Hawaii or to the slopes at Whistler where maybe you can give her a hand down the green chair.

"What all 3 of us would like to assure you, is that we have all of the modern conveniences you will find at your own doctors office but... the overall atmosphere is much more relaxing with limited formalities, such as the necessary confidential data. But other than that, there are no appointments necessary, no rigamorole, etc. We would like to meet you so why don't you come and meet us. If you have a problem of any kind, or if you just feel like dropping in to chat for awhile come on over.

Feel free.....we do!!!!!"

# Commerce Student Services. They're tops!

At the Commerce, we offer a complete range of student services, to help you with your banking needs. Services that you'll need now, and after graduation.

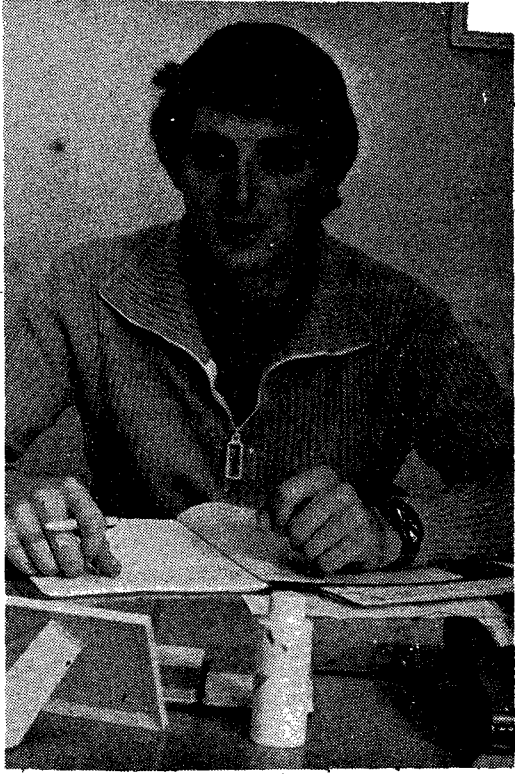

Like savings accounts, to help your money grow. A variety of loan programs, including Bankplan and student loans. Chargex, and more.

Get to know the people at the Commerce on or near your campus. Drop in and ask about opening a savings account with us.

We think you'll find our people are tops, too.

Dr. Barbara Copping, M.D.

## WHERE DO WE PARK?

## THE PARKING PROBLEM

by Hal Hickey

We've heard it before, and we're going to hear it again and again. By now all of us have been caught in the 8:10 to 8:40 parking rush. And after two months, unless you're very determined or just plain stupid, you've realized how futile an attempt is to park in the main parking lot after 8:10 a.m. A space just can't be bought, unless you're one of the privileged few who get to pay three to four dollars a month for a reserved space.

You've also probably been caught in the middle of two rows of cars, realizing that the only way out is in reverse, only there's half a dozen cars behind you waiting for you to park somewhere.

So what do you do?

- (A) Give up and leave your car right where it is before you miss your first class. Fine, but it won't be there when you get back and at \$25 a day, it isn't the cheapest place to park.
- (B) Threaten to roll your tank over everyone that's in your way.
- (C) Bring a 4-wheel drive and park on the hill.
- (D) Park your car in White Rock and walk. Or,
- (E) Scream a lot and wait patiently for everyone to get out of the way, and out of the good parking lot and into the bad one, while missing your first three classes!

Well, the latter is probably the only one you can do. It may not be the sensible one, but it's the only one. What I'm trying to say, in case you haven't realized, is that right now the parking situation at B.C.I.T. is disgusting and just plain crappy. Let's face it, without some help it's not going to go away, it's just going to get worse.

Okay, so some people are saying that when we lose a few of our fellow students after the first term, it will get better, and we do lose a few students. But remember those that were given the boot last year? Maybe they want to come back and restart the second term. Or maybe the former students of U.B.C., S.F.U., and so on, want to come to this beautiful place, at least until they see the parking situation.

Hmmmm, maybe it won't get better after all, maybe it will only get worse! And hopefully some of us realize this! Okay, so it's your second year and it'll be all over in another seven months. But can we face ourselves in the morning if we let future generations of B.C.I.T.ites fight the war every morning. And what about all you first year guys and girls. The chaos you see this year is only going to be worse next year unless something is done about it. And maybe there is something both, we, the students and the B.C.I.T. Board of Governors can do to make it a bit better.

First of all, next time you roll into the unlined parking lot, look beside you and maybe, just maybe, you can park a few inches closer to your neighbour.

Or next time you're caught in the bottleneck, like tomorrow and the next day and the day after, just for something to do, count the number of cars with more than one body in it. Not very many, are there? You wouldn't be in that class would you? So get together with some of your friends or other students in your set and organize some sort of car pool. Especially you guys who live nearby. And there must be more than a few people living close enough to each other to all come in one car. Car pools may be a bit of a hassle, always depending on someone else, but try it anyway, who knows, it could work out. Every little bit helps.

Okay, since we've done our part, it's up to OUR representatives in the student council to present some ideas to the principal, the Board of Governors, and to whoever else is running this place.

At least we desperately need another entrance to the dirt parking lot off Wayburne Avenue. Like how about where the Forestry guys are set up. We've got a great deal of construction going on right now and it wouldn't take much for a cat and a truck to drift over and cut a hole to the dirt lot. This would get rid of one-third of the bottleneck at the main entrance off Wayburne.

For the very near future, let's have a hard, but not long, look at our all-weather field. How much do we really use it? Okay, so we use it walking to our cars, but isn't it a bit large for a sidewalk? What DO we use it for? If we're lucky maybe a few football and baseball games a year.

Is there the slightest chance that it might be built up and used as a parking lot? Think about it! All three parking areas to the southeast of the school could be combined to form a larger area for cars that all the unreserved part of the main parking lot could ever hope to.

For the more distant future, most of our landscape is being ripped up for more classrooms and offices, which our staff sorely need, but that's another issue. But more classrooms mean more students and staff and that spells out parking shortage. So what can we look for? A double decker parking lot?? Is it really too much to hope for?

## COPIER INFORMATION

## XEROX AND PITNEY-BOWES COPIERS

The Student Association is responsible for all the coin copying machines in the school. I imagine you have noticed that the XEROX machines are 10¢ and the PITNEY-BOWES are 5¢. The difference is because XEROX gives a bond copy and the PITNEY-BOWES gives a treated paper copy. At a council meeting last year it was decided that the Student Association would make a contract for three XEROX copiers and four PITNEY-BOWES copiers. The reasoning behind this was that your particular types of copying a student needs a good quality paper and reproduction. When you want to do a lot of copying you can use the 5¢ PITNEY-BOWES machines.

You may have noticed that at some of the other schools XEROX machines like ours are only 5¢. In the summer time after we had made the contract with XEROX for the ten cent vend, they came out with a new policy whereby you could put a five cent vend and still break-even. The only problem with that was that it would be in direct conflict with the PITNEY-BOWES contract.

If we put the XEROX down to five cents the other five cent machines wouldn't get used. With the PITNEY-BOWES we get charged for every copy and we get a .5¢ profit per copy. With this profit you have to buy the paper. When you figure it out the machine has to do 90,000 copies per year in order to break even. So that means in one year with just the four Pitney-Bowes copiers, 360,000 copies have to be made. If we don't make that volume we lose a lot of money. Of course that's not a new story because in past years we have always lost money on them. So that is the economics side of it.

The other side is, what do you want?

1. We could cancel the XEROX and have all 5¢ Pitney-Bowes machines and there would be no worry about losing money due to lack of volume.
  2. We could leave things as they are and if you wanted a 10¢ quality reproduction, it is there.
- Unfortunately we can not cancel the Pitney-Bowes two year contract unless we wanted to be subject to legal action. The Xerox contract can be cancelled with one months notice. If we cancelled Pitney-Bowes, then we could have all Xerox machines for 5¢. The question is what do you want? Let's give the machines a chance and see which one breads down the least. It doesn't really matter what the cost is, the most important thing is, will it be working next time you rush out of class to reproduce last years exam or Harry Smedlaps' notes.

Servicing is another important aspect of a copying machine. Through experience we will find which of the two companies repair the machines the quickest when there is a major breakdown. The day to day upkeep is done by Bert Cameron, the commissionaire, posted in the North Foyer (Local 356) or June Jones at the Student Association offices in the SAC (Local 601). If you notice that a machine isn't working report it to one of the people. If you get mad at a machine don't kick it, complain by putting a note in the suggestion box on the information booth.

If there already isn't a 5¢ machine in the library, one will be moved over shortly. We have a bit of a problem with the library because of the construction that is going on there. The machine may get in the way of workers, and we can't have one in the quiet section of the library. The library staff has nothing to do with the copiers in there. They know nothing about how to fix them and I don't think they want to know anyways. Then they would probably get swangled into fixing a machine that isn't even theirs. Maybe we can talk them into doing it, if we pay them a bit. The problem with the day to day servicing (ie. putting in paper, keeping adjustment right, and keeping it filled with toner) is that the present people are not available to fix the machine if it breaks down in the evening. They are doing their utmost to keep the machines in working order. It sure can be frustrating if you have to run all over the school to find a machine that will work. Save the guy behind you a trip and let us know when a copier isn't working.

Perhaps next year the students should leave it up to the administration to contract the copying machines. Then the library staff may be able to provide a better service in keeping the machines going 24 hours a day.

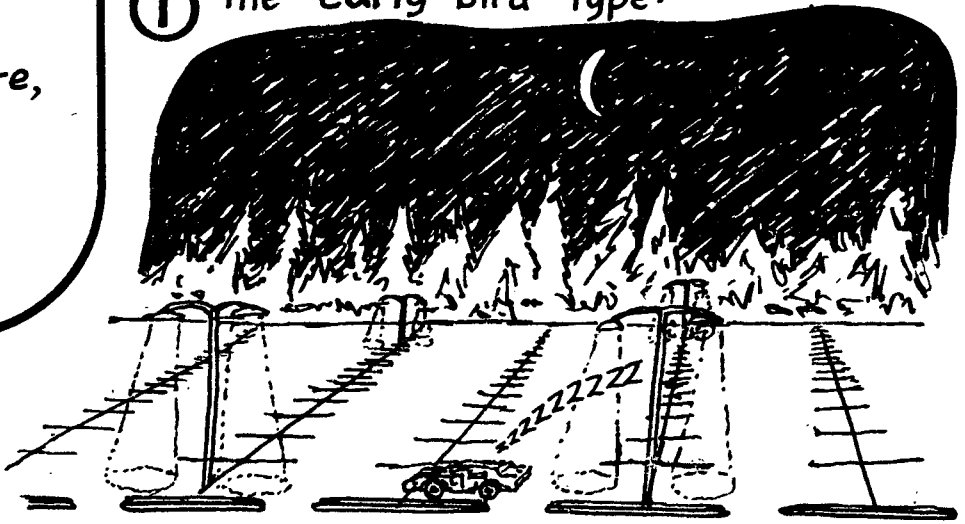

## TNT ACQUIRES PART OF BIRKS' ORIGINAL STORE DISPLAY EQUIPMENT!!!

Recently the Birks downtown store in Vancouver was torn down. Prior to the demolition, the TNT store acquired two sections of the original jewelry display fixtures from the downtown store. As antiques, they are valued over \$3000. See these cabinets in the TNT. They now display the calculators and Birks jewelry.

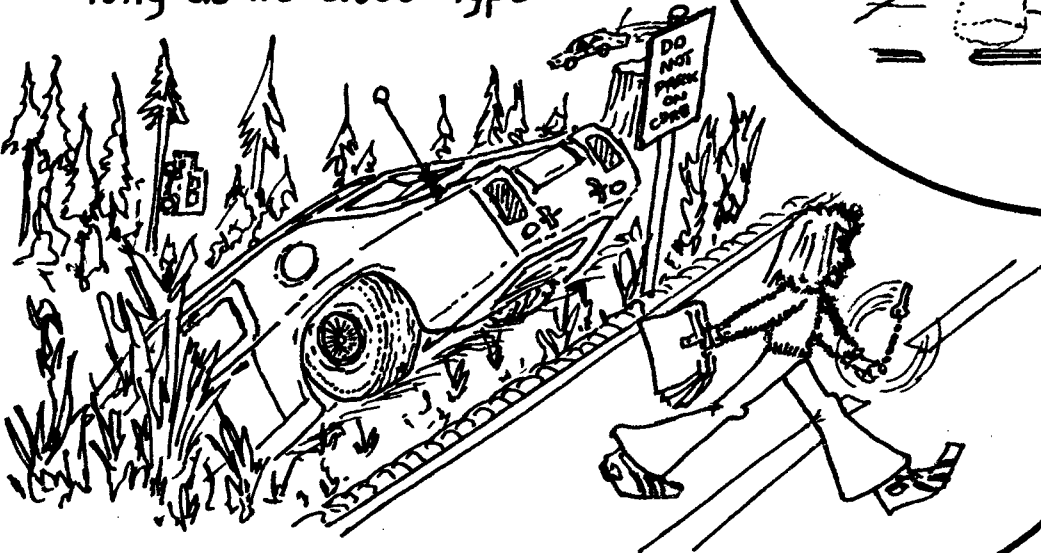

# STUDENT'S GUIDE TO PARKING AT BRIT :

~ If you drive a car, you are no doubt aware of the parking problem here... there are ways to overcome this. Here, as seen in our lot, are some different types of parkers who have found a solution to this problem:

① The 'early bird' type:

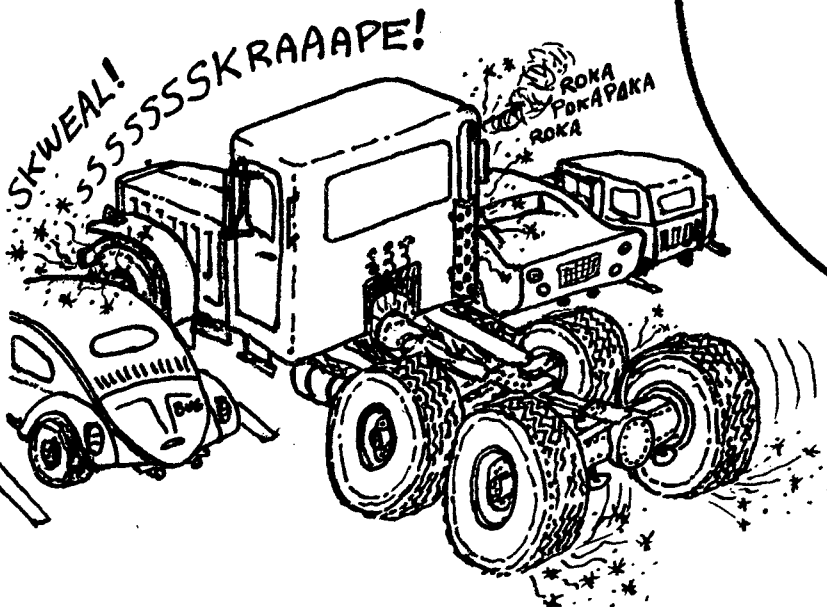

② The 'I'll park anywhere as long as it's close' type:

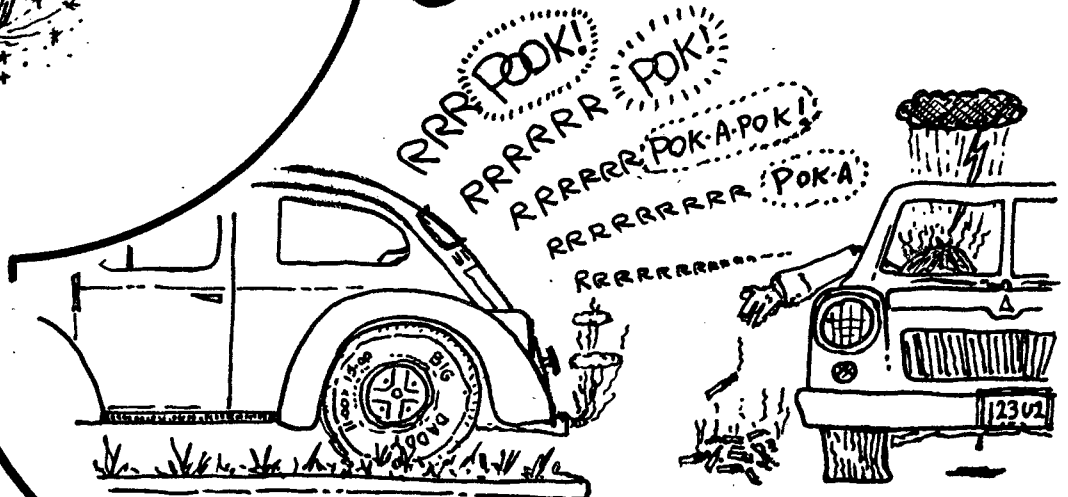

③ The 'foreign car' or 'I think I can' type:

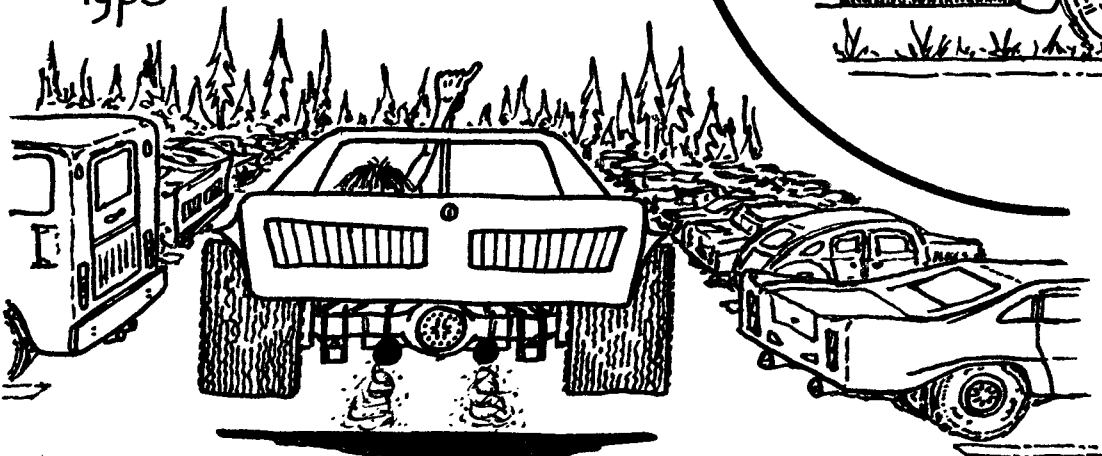

④ The 'heavy metal' or 'I know I can' type:

⑤ The 'I'll wait until he goes' type:

⑥ The 'flying coachman' or 'I'll come late and take a chance' type:

# THE TAMING OF THE SHREW-REVIEW

THE TAMING OF THE SHREW by William Shakespeare

On October 7, 1974, the Playhouse Theatre Center of B.C. opened the doors of the Queen Elizabeth Playhouse to a capacity audience for their 12th season. The Taming of the Shrew was the first production, and this reviewer believes that if the rest of this year's productions are as well done and entertaining as the Shrew, then the 12th season will be one to remember.

The Taming of the Shrew is a comedy - a comedy of pretences and disguises. It's all a game - a game which even the audience find themselves drawn into as they are asked to accept a pretentious 19th century train station in Padua, Italy. Here a band of travelling actors, having missed their train decide to rehearse their play for the station masters and porters. These viewers soon become very integral parts of the Taming of the Shrew and all (audience, actors and porters) are carried back to 16th century Padua.

As mentioned earlier, the case should be proud of this effort. All in all, the play moved smoothly. The first half the wooing and wedding of Kate and Petruchio was priceless. The audience was kept in stitches, first of all by the antics of Grumio, Petruchio's co-hort (acted extremely well by a talented actor, Bernard Hopkins), later by the quick and spicy play of Kate (Denise Fergusson) and Petruchio (Michael Ball). This scene, where Kate gets told by Petruchio that she WANTS to marry him is one of the best of the performance. Miss Ferguson and Mr. Ball bring it alive and one can almost feel the sparks flying between shrewish Kate and dominant, forceful Petruchio. This act concluded as the audience watched Curtis, a very old and faithful servant of Petruchio attempt to cross the plaza to join the wedding gaieties.

Grumio opens the second half of the play. Kate and Petruchio come home and here is where the "Taming of the Shrew" begins. Again, brought to life by the talent of Fergusson and Ball, the "taming" moves quickly to a point where Kate becomes the docile and agreeable wife. She even goes as far as to say the sun is the moon just because Petruchio says it is, even though she knows that he is wrong.

Unfortunately from here on out, to the end of the play, the action starts to move slowly. TOO MUCH attention is paid to Bianca and her shallowness. Performed before an increasingly restless audience, it appeared that it was a chore. Too Bad!!

Luckily, this slowness wasn't enough to detract from the total jolity of the performance. The final speech by Kate - called by Germaine Greer as "the greatest defence of Christian Monogamy ever written", was done brilliantly by Miss Fergusson. Kate realizes and tells her fellow wives (Bianca and the widow) that a husband is a protector and a friend. Kate has a man who is both gentle and strong. Kate found her happiness with her Petruchio. Shakespeare's message seems to be that while the Biancas may be desirable, it is the Kates that make the best wives: while the "Lucentios" and "Hortensios" make good suitors, it is the "Petruchios" that make the husbands.

Over all, Christopher Newton, director; Cameron Porteous, designer, Denise Fergusson, Michael Ball, Bernard Hopkins and the rest of the Shrew cast all can be proud of their opening production.

Entertaining and very enjoyable, it enticed the audience into playing a game; a game which left all with a feeling of well-being and zany self-contentment. Well done, actors!! Well done the Playhouse Theatre Centre of B.C.

Marion Benjamin

If you are intrigued by the above review and would like to have a change of recreation, why not take in a play at the Playhouse. The schedule is a lively one this year and has a play for every taste:

Oct. 7 - 26 The Taming of the Shrew  
Nov. 11-30 Harvey  
Jan. 13-Feb 1 Of the Fields, Lately  
Feb. 7 - Mar. 8 The Caucasian Chalk Circle  
Mar. 24 - Apr. 12 And Out Goes You  
Apr. 21 - May 10 Jumpers  
(Or, Butley)

For information on any of the above call Leslie Henrickson at 684-5361

HOW ABOUT A CHANGE?

## THREE HOUR BREAK

On Tuesday 8 October a special meeting of the BCIT council was held to discuss a very current item- THREE HOUR BREAK. Not regularly scheduled this meeting was called to review the students reactions to a referendum which suggested changing of the three hour break.

The week previous saw this referendum being held by the technology representatives.

Choices were :

1. Maintaining the break as it is- Wednesday 11:30-2:30
  2. Changing it to either two 2 hour breaks on Tuesday and Thursday, or one full afternoon off on Wednesday.
- Results came back to the council varied. Some were for maintaining it as it is and some of the BCIT students wished change.

For approximately one and one half hours following the calling to order of the council complete but redundant discussion followed. Motions were put forward and defeated; amendments were made and rejected. Finally a motion was put forward and accepted by a 13/4/2 margin. The motion which reads as follows:

I move that the tree hour break be kept as it has been in the past. That is that no classes may schedule in percent agreement by the class and instructor a class may be moved. I believe that the students will utilize that time to the best of their ability.

Hopefully activities and intra-mural sports will not suffer. If they do, have we made the right decision?!

# mother knows best

Dear Mother:

I have this problem with my boyfriend which seems as if it will split us up, although I know we love each other very much. My best friend recommended I ask you for advice, so here is my problem: my boyfriend is a 7' 2" basketball player, and I am only 4' 6". Everything is fine except my nose keeps getting caught in his navel. What do you suggest?

signed Navel Recruit

Dear Navel Recruit:

Stock up on Dristan - the cold season is coming. Be prepared and there should be no problem; don't suffer from post - navel drip.

Dear Mother:

My boyfriend has this extremely hard problem and I just can't seem to handle it. He suggested we write to you for help.

signed Butterfingers

Dear Butterfingers:

Tell him to get a grip on himself.

Dear Mother:

I'm trying to date this chick in Mining, but so far he hasn't noticed me. What shall I do?

signed Grog - Lover

Dear Grog - Lover:

Get some blinkers, eyes front, and lay off the sauce.

Dear Mother:

I'm getting worried about my boyfriend - Last week he came home with a new TV set he said he found. At the time I believed him, but now he comes home with something new every day. The day before yesterday it was a new Pinto; yesterday it was a split-level bungalow. I'm afraid of what this is leading to, and I don't know if I can believe him much longer. Please Help!!

signed Lost and Found

Dear Lost and Found:

Don't look a gift horse in the mouth (there are better places).

Dear Mother:

About eight months ago I met this extremely voluptuous chick that has a drive like you wouldn't believe. At any rate, about three months ago her drive disappeared and she has gotten these weird craving at really strange times. Like who ever heard of having a licorice pizza with mayonnaise and celery stalks at three in the morning? Is this just a problem caused by too many late nights, or is there something she hasn't told me? Please help as going without has brought me to the point where I have to get a hold of my problem.

signed Point of No Return

Dear Point Of No Return:

If what you tell me is true, I believe that you have reached the point of no return. I think you'll have to get a hold of yourself for some time to come, and come it will; there's no stopping it now. (And to think it all started with a simple idea.

SAC BUILDING**

# THE GREAT GOATS HEAD ROBBERY OF B.C.I.T.!

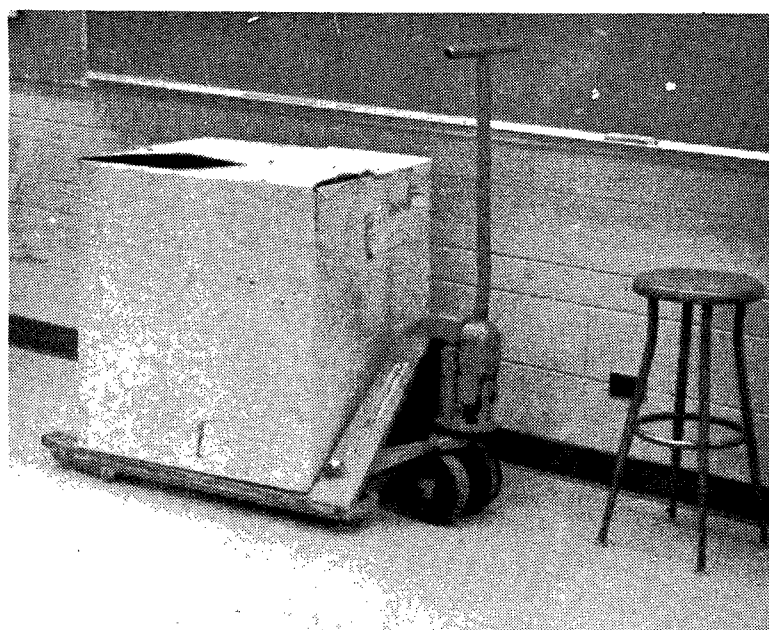

## the GREAT GOATS HEAD ROBBERY OF B.C.I.T.

Once upon a time during the '73-'74 school year the beloved mascot of Fish and Wildlife was stolen. This handsome goats head, (well ain't he cute???)

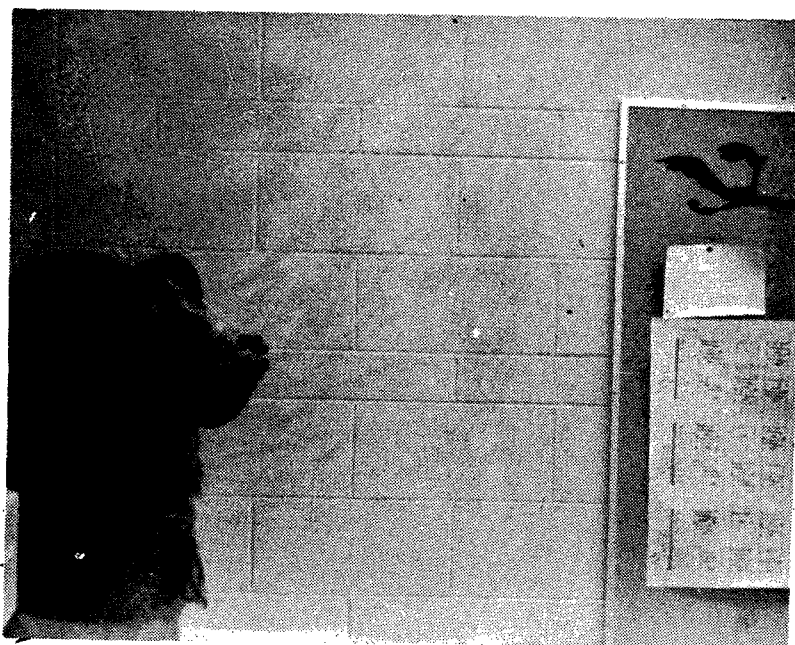

Simply vanished without a trace. The Institute was in an uproar. The ricmumps (alias RCMP) were even called in to try and recover the missing head. But even these fearless crime fighters were unable to catch up with the culprit(s) who pulled off this dirty, nasty crime. For five long months the pride? and joy? of Fish and Wildlife was nowhere to be found.

Could these be the two big brains behind the contract for the rip-off of Fish and Wildlife's mascot?

could this be the box that the goats head was roughly transported in?

And its reappearance in a strange corner of the school right next to a bulletin board with the mark of Civil and Structural, the infamous ROADRUNNER. Is this a clue to the great mystery? Does C & S have something to do with it?

This reporter does not know but there is a feeling in the air that there could be another mascots disappearance. Whose it will be, only time will tell.

But then came the FLASH!!! The goats head had been seen! By a mysterious quirk of fate it was returned.

OR WAS IT?????

No one really knows the circumstances of the goats heads reappearance.

## LATE NEWS BULLETIN!

### CIVIL & STRUCTURAL MASCOT STOLEN!?

Civil & Structural technology's roadrunner has been stolen! The kidnapping occurred in the early moments of the first class on Friday, 25th Oct. '74. After almost two years of flawless security, keeping the location a total mystery even to their own tech. it made its first public appearance at the C & S Pub on Thursday night. It was left in the East wing of the SAC that night.

E. & E. and Mining are strong suspects in this outrageous theft but the popular consensus is that these technologies have neither the intelligence nor the organization to carry out such a plot.

## WHISTLER LODGE

Do you want to use Whistler Lodge?

If you don't help your student association nobody else will!

Here's how YOU can help!!!

1. Volunteer lists of volunteers to Student Association offices.

include: - names

- phone numbers

- Technology

- Date that you want to work.

2. The following work needs to be done before the SKI season starts:

1. Bathroom area and kitchen need gyproc put in.

( ATTENTION: If you know how to work with gyproc we are dying to see you!!!!)

2. Crawl space and floor of cabin need to be insulated and a vapour barrier put in.

3. A hole needs to be cut through the roof to put in a chimney for a corn burner. ( Do you know how?)

4. Lots of firewood needs to be cut, so bring up chain-saws and axes!

5. Valuable scrap wood has to be neatly stacked and put under cover before snowfall.

6. Arberite needs to be put on bathroom and kitchen counters.

7. Bunk beds need to be made.

8. Coverings for foam mattresses have to be sewn.

9. Porch has to be finished.

10. Tar paper has to be put on outside of building.

11. Head room for stair case has to be cut back about two feet.

12. Railing for loft has to be put on.

13. Kitchen cupboards are needed.

14. Furniture has to be built.

15. The eaves must be sheeted with plywood underneath.

What can you do for WHISTLER LODGE? It is your cabin!!

There is six workparty leaders and caretakers of which at least one will be up every weekend. See if you can make it up for a day soon!!

Projected opening date is 1 December 1974. The reservations and procedures, prices, policies and house rules will be in the November edition of the LINK.

We do have a lot of work to do at Whistler but a lot has been done in the last one and a half months.

1. Plumbing and waterline is in.

2. Electricity is hooked up.

3. Electrician has been in.

4. Power pole was put up.

5. Bathroom areas and kitchen areas have been framed in.

6. Inside paneling has gone up.

7. Porch is on.

8. Waterline which is three quarters of a mile long was buried

9. Stove, fridge and platform range were bought and transported up.

10. Two thousand dollars worth of material has been bought and transported up.

For information call caretakers or see bulletin board in SAC.

## OPEN HOUSE

It may seem as if it's too early for me to be calling for volunteers for Open House, but it is a big project and we want this to be the best open House ever.

I am forming the Open House Committee this month and anyone interested in filling the following positions should see me in the Student Association office as soon as possible. People are needed for:

Equipment - A/V  
Parking

Finance  
Food Services

Promotion

Room Allocation

I need people interested in these areas, i.e. someone from Traffic and Transport for parking; someone from Hotel/Motel for food services, etc.

Open House is your responsibility and you are the only ones who can make it the best ever.

## VANCOUVER PLANETARIUM & CENTENNIAL MUSEUM NEWS

### IT'S ALL YOURS FOR FIFTY CENTS

What is? Well, let's start with the Centennial Museum. If you're interested in finding out the fascinating history of this province, from earliest times until now, you can pass a pleasant hour or two exploring the galleries in the museum. The designers have aimed at a "total" experience effect - you don't just look at objects in glass cases here, you can ( for example ) walk through a Victorian kitchen. In the same building as the Centennial Museum is the Planetarium, with shows every day and night except Monday. From Vancouver's early beginnings same building as the centennial museum is the Planetarium, with shows every day and night except Monday. From Vancouver's early beginnings to the space age, you've bridged the gap when you sit under the Planetarium dome with its man-made sky and super-stereophonic effects. Across the lawns of Vanier Park you can now walk to the Maritime Museum. (You'll be admitted for the same 50¢ ticket.) They've got a marine radar unit, a periscope, model ships galore, many unusual and fascinating relics of history like a piece of flotsam from the wrecked "Lusitania"...and of course the famous schooner "St. Roch". This gallant little ship was the first ever to sail through the Northwest Passage from west to east and home again. She has been declared a National Historic Monument and is fully restored to her former glory. You can explore the interior of the ship, look into cabins that are complete to the last tiny detail - a book lying on an unmade bunk, socks pegged on a line to dry, a radio playing the music of wartime

1944 when the ship made her epic voyage. If you believe in ghosts, you'll love the St. Roch!!

All yours for fifty cents? If you're a student with a card, yes, it is. The Centennial and Maritime Museums and Planetarium (plus gift shop, bookshelves, cafeteria and restrooms) in beautiful Vanier Park right on Kitsilano Beach, offers you an evening, a Saturday or a Sunday, that's filled with experiences you'll remember. The settings are gorgeous (you can walk on the beach from the museums) and the whole complex is easy to get to from downtown Vancouver. A bus (23 Macdonald) will drop you at the corner of Cypress Street and from there it's no more than five minutes on the hoof.

### THE ART SHOW OF THE YEAR

"It costs a dollar...it's worth ten times that much." "There aren't enough superlatives in the English language..." "If you don't visit the Centennial Museum again for ten years, don't miss this show." "An eye opener for Vancouver."

These are some of the things the newspapers have said about the Exhibition of Handicraft Arts and Traditional Chinese Paintings of Kiangsu Province, China, which is at the Centennial Museum until December 1st. This fabulous show - four galleries filled with paintings, ceramics, paper cuts, and embroideries the like of which you've never seen before-returns to China when it leaves here, and will not be shown anywhere else in North America.

From "Georgia Strait" to "The Province" the press has unanimously raved about the Chinese exhibit. Students with cards can see it for fifty cents. Don't miss it - you'll be talking about it for years.

# NATIONAL UNION OF STUDENTS

## NATIONAL UNION OF STUDENTS:

BCIT Student Association is a member of N.U.S. Last year the membership fee was 30¢ per student or approx. \$900.00. We have been a member in this 2 year old organization for one year, going into our second year.

The objective of this organization is to gain membership of as many post secondary institutes in Canada as possible, so that students all across Canada can speak to the government with a unified voice on issues of common concern.

N.U.S. is administered through a central office at Carlton University in Ottawa by a group of elected officers. This central committee handles all correspondence to member institutes and acts as a library or resource centre to collect studies and statistics done by member institutes.

In the past two years the organization has concerned itself with studying the proper organization and structure that would be most effective for a national union of students. This concern is justly so, because its predecessor C.U.S. (Canadian Union of Students) failed, due to poor organization. This lack of organization caused members to lose faith in the organization as a whole. N.U.S. now seems to be experiencing the same difficulties. Its credibility is being questioned by many present members and shunned by many non-members. This is due to the fact that N.U.S. has done nothing concrete except get itself organized. The greater majority of members are the universities, with little securing interest from community colleges and similar 2 year schools such as ours. If N.U.S. cannot secure its membership it will fail, due to lack of funds.

The strength of N.U.S. lies in its members. An attitude that has been developing is seen when members refer to NUS by saying, "they aren't doing anything for us". The correct reference is "We haven't done anything". The core of N.U.S. is its members, not the central committee that administer it.

Twice every year there is general meetings at various campus' across Canada. Delegates from all member institutes attend these 4 day conferences and hash out the orders of the day. It costs each institute approximately \$275.00 per delegate (2 delegates) to attend these conferences. This is done through travel pool arrangements, whereby the total costs are averaged and equalized for every member.

Some of the issues that the N.U.S. has concerned itself with are the following:

- 1) Canada Student Loans Program. (more money for students with the rising rate of inflation & tax deduction for texts)
- 2) Student Residence & housing
- 3) Financing of Post Secondary Schools (physical plant)
- 4) Recruiting a larger membership to N.U.S.

The above points are the most recent issues of debate for N.U.S. In its childhood N.U.S. was thought to be developing a right wing attitude when they began debating such issues as: (womens rights; boycotts of Food & MacDonalds Tobacco) An organization such as N.U.S. surely carries quite a political clout if it speaks for every student in Canada. Many members became concerned that N.U.S. was becoming too concerned with social issues. Is this what students want? Should we speak up, on issues to do with this country? OR on issues we are inheriting from our parents? What do you want? Will an organization like N.U.S. provide a valuable channel for young people to voice their opinions about their future? Since N.U.S. is concerned with long term goals, should member institutes cry when they don't see immediate results? It is true that change comes slowly and tangible results may never be able to be directly attributed to N.U.S. Do you think however that our concerns will echo in the back of the politicians mind in Ottawa when it comes to election time? Does BCIT have a place in NUS???? The reason I am asking you all these seemingly unimportant questions is because the BCIT students council may be asking you to vote FOR or AGAINST the National Union of Students. If council decides to hold this referendum, what percentage of the students will vote? If the vote goes against N.U.S. the Student Association Executive will be obliged to pull out of the union.

A referendum is a must if we want to pull out, because it has to be a wish of the majority of the students. (N.B. this is in the N.U.S. constitution)

From October 17th - 20th there was a N.U.S. conference in Saskatoon. There was some new developments that arose out of this conference:

- 1) the membership fee decided by a majority will be increased to \$1.00 per student (approx. \$3000.00 for BCIT)
- 2) Also decided was that N.U.S. should form a corporation. Our membership fee is due at the end of October. If we decide to hold off the payment of \$900.00 we may run into some legal problems. The new \$3000.00 membership fee will be effective as of Oct. 30th, 1975. With this in mind although we will most likely remain a member this year we can hold a referendum in the spring of next year to determine whether you want to remain a member.

There are some drawbacks to 2 year schools being members of N.U.S. We have a high turnover rate of students compared to the enrollment length at universities. As a result the new students council lacks the continuity with their delegates and executives. Thus it is more difficult to pass the torch on to the students who follow us, from year to year. However our elections in the spring are before the spring conference of N.U.S. so the newly elected external affairs officer could attend the conference for our representation.

The post secondary institutes in B.C. formed a union called B.C.A.S.U. (the British Columbia Association of Student Unions). Although B.C.A.S.U. was not conceived as a lobbying organization, it is more feasible that lobbying with the Provincial Gov't through B.C.A.S.U. would be more effective than lobbying with the Federal Gov't. through N.U.S. They hold several meetings a year with the greater majority of B.C. Post secondary institutes attending to help B.C. student councils approve their services to students. There is no fee to be a member of this organization and it doesn't operate under the societies act with a set of by-laws.

- It gives B.C. Student Gov't. the chance to get together and talk about mutual areas of concern in B.C. In dealing with government agencies B.C.A.S.U. is valuable to speak with one voice about student concerns in B.C. However this organization has evolved into a sub-organization or standing committee of the N.U.S. This is valuable because the meetings of B.C.A.S.U. bridge the gap between the semi-annual meetings of N.U.S. Myself and Jim Clark attended the first meeting of the year on October 5th. Items that were on the agenda:
- 1) co-operative pub policies between B.C. Universities, colleges & institutes.
  - 2) discussion on liquor laws in B.C. and the campus licences.
  - 3) B.C. HYDRO bus services and what extra services we need.
  - 4) N.U.S.
  - 5) The task force report on Community Colleges in B.C. (a report to the Dept. of Education making recommendations on the services & atmosphere that new developments should take on)

If we decide not to be member of N.U.S., we can still be a member of B.C.A.S.U. Think about N.U.S. Is it valuable? Should we allocate our resources elsewhere? Bring us your opinions.

Blaine Kennedy,  
President  
Student Association

## IBM Career Counselling Seminar

Students interested in talking about job opportunities with IBM are invited to attend a career counselling seminar to discuss the various careers available at IBM.

The seminar will be held on November 13th, from 12:30 to 1:30 p.m. in Room 197.

**IBM**  
IBM Canada Ltd.

### INTER OFFICE MEMO

TO : ALL STAFF

FROM: MR. D.M. MACPHERSON

By resolution, the BCIT Board of Governors has determined that henceforth Board of Governors' meetings will be open to interested observers. The agenda of each meeting will be divided into PUBLIC SESSION AND COMMITTEE SESSION. Committee sessions are not open to observers.

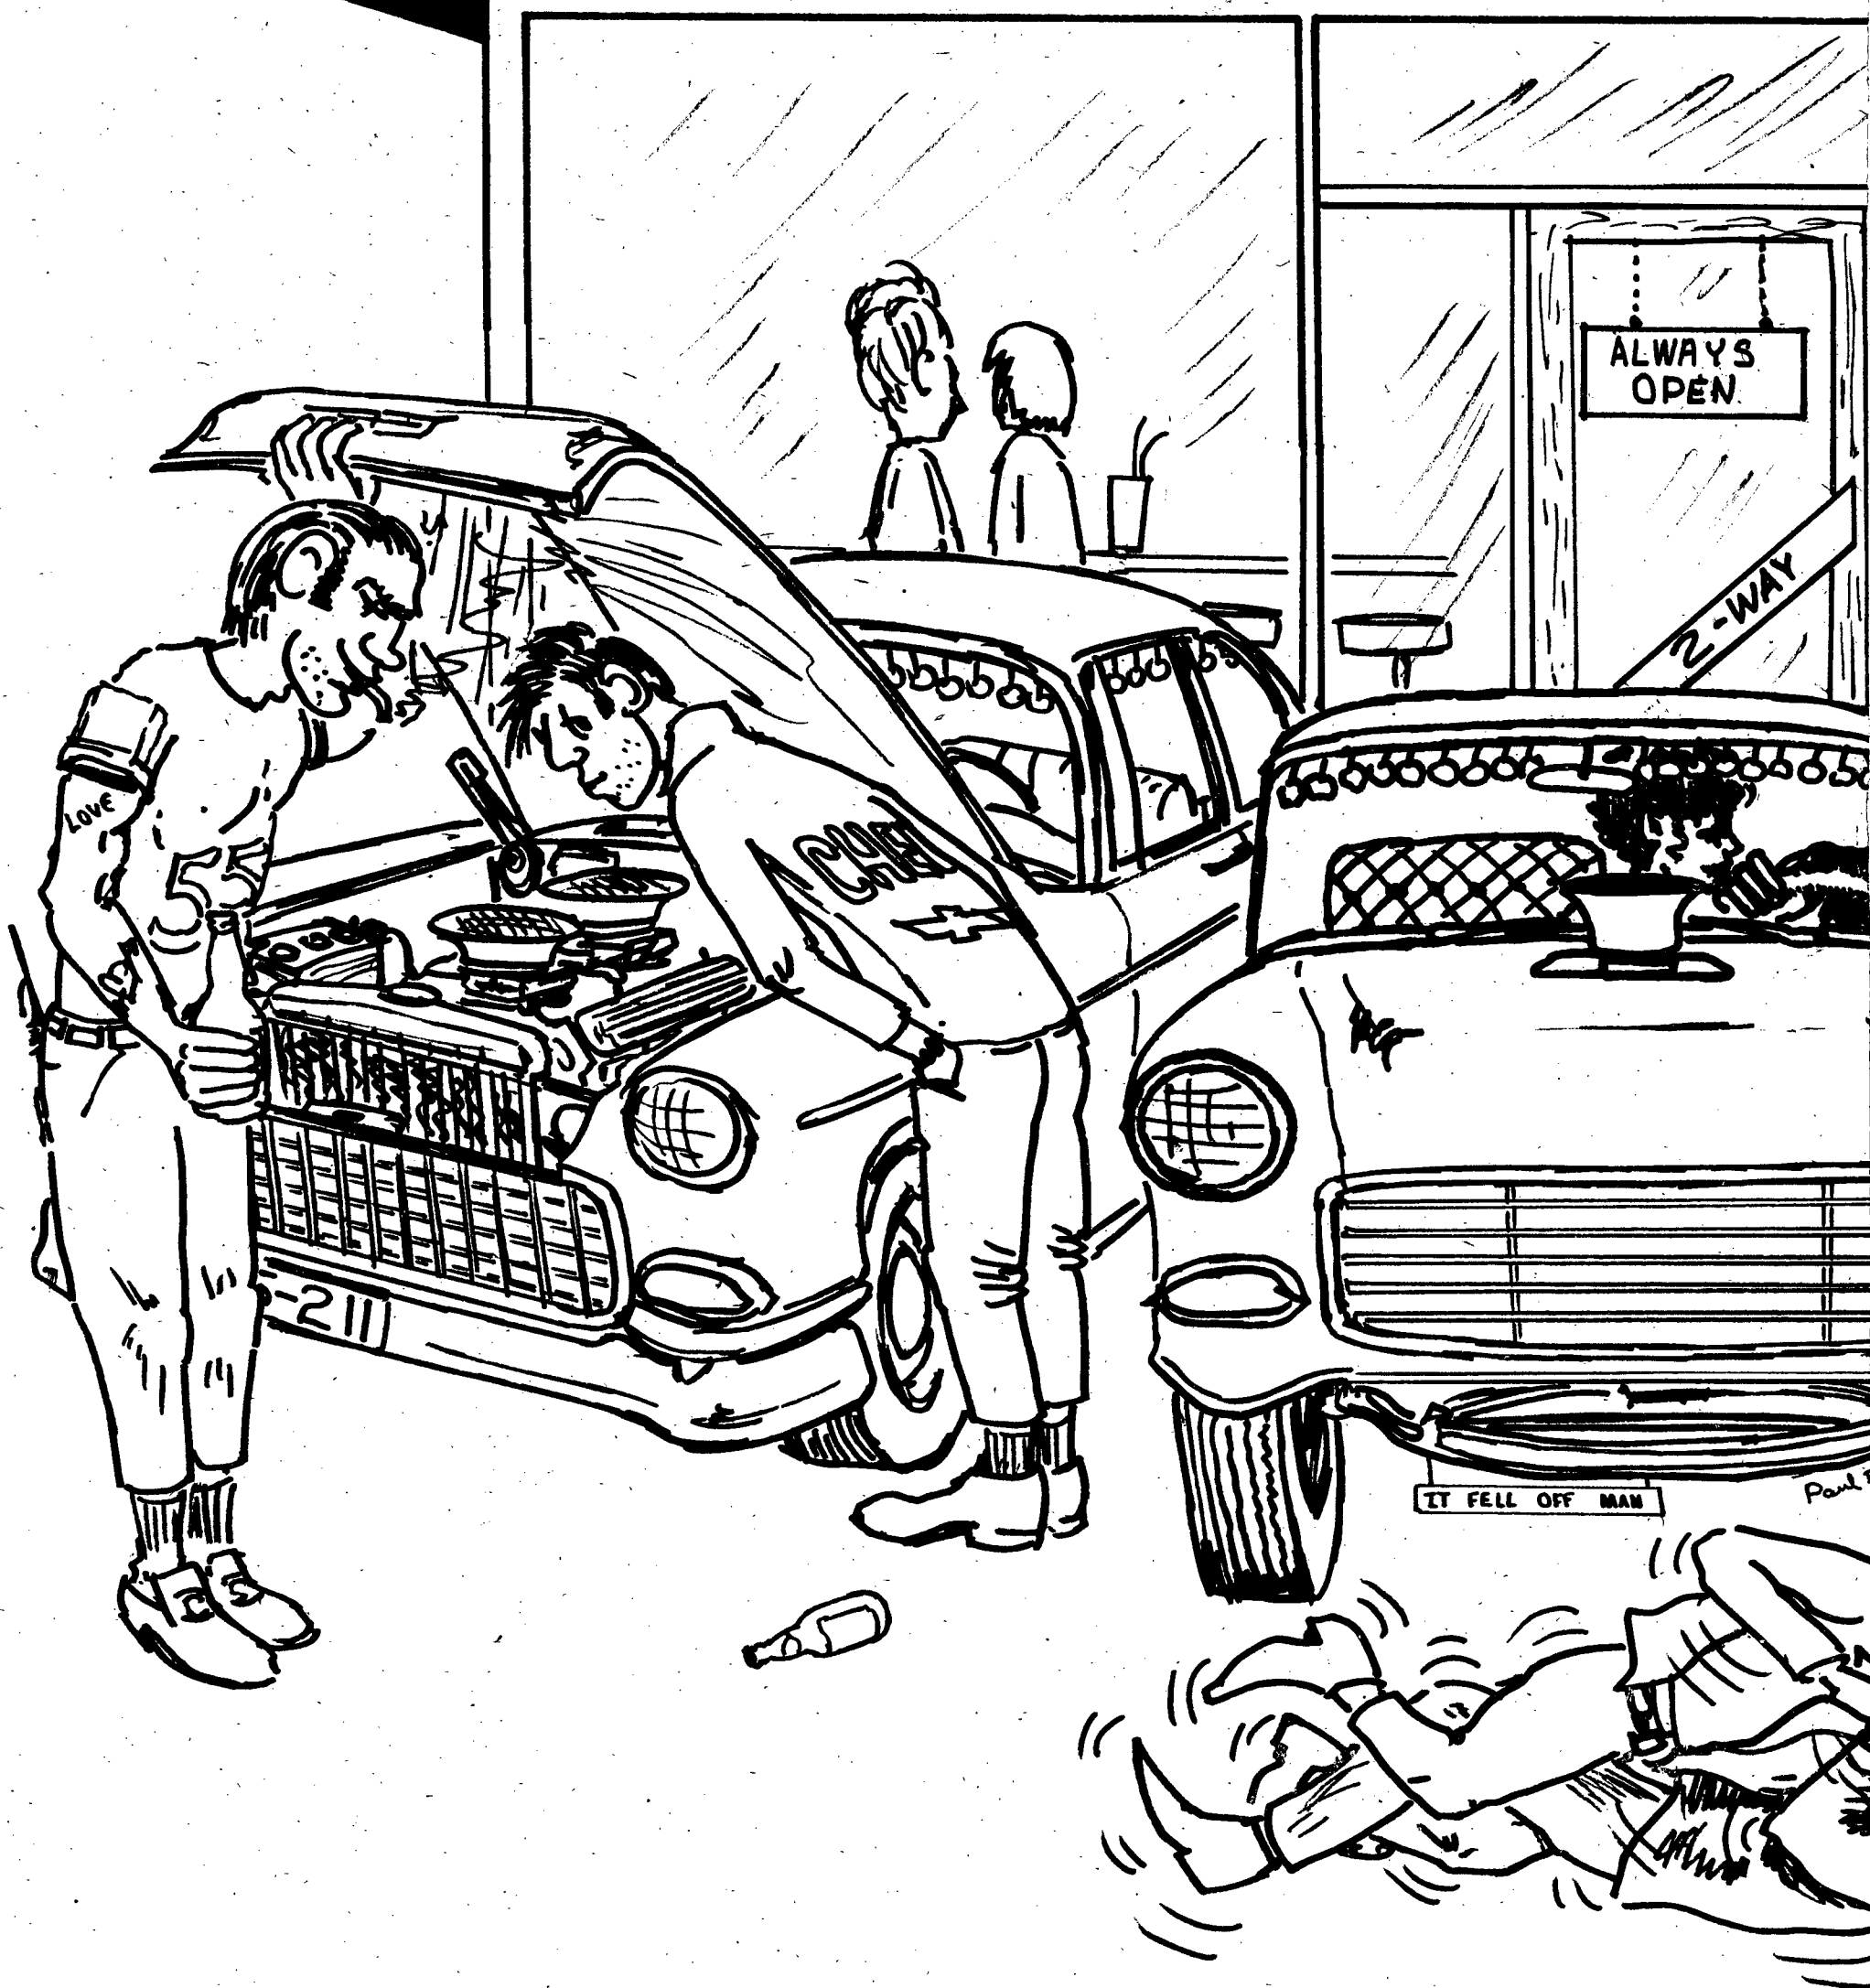

Notices of Board meetings will, in future, be placed on the notice boards in the staff lounge and mail room.

The next regular meeting of the Board of Governors will be held on Thursday 10 October 1974 at 7:00p.m. in room 250.

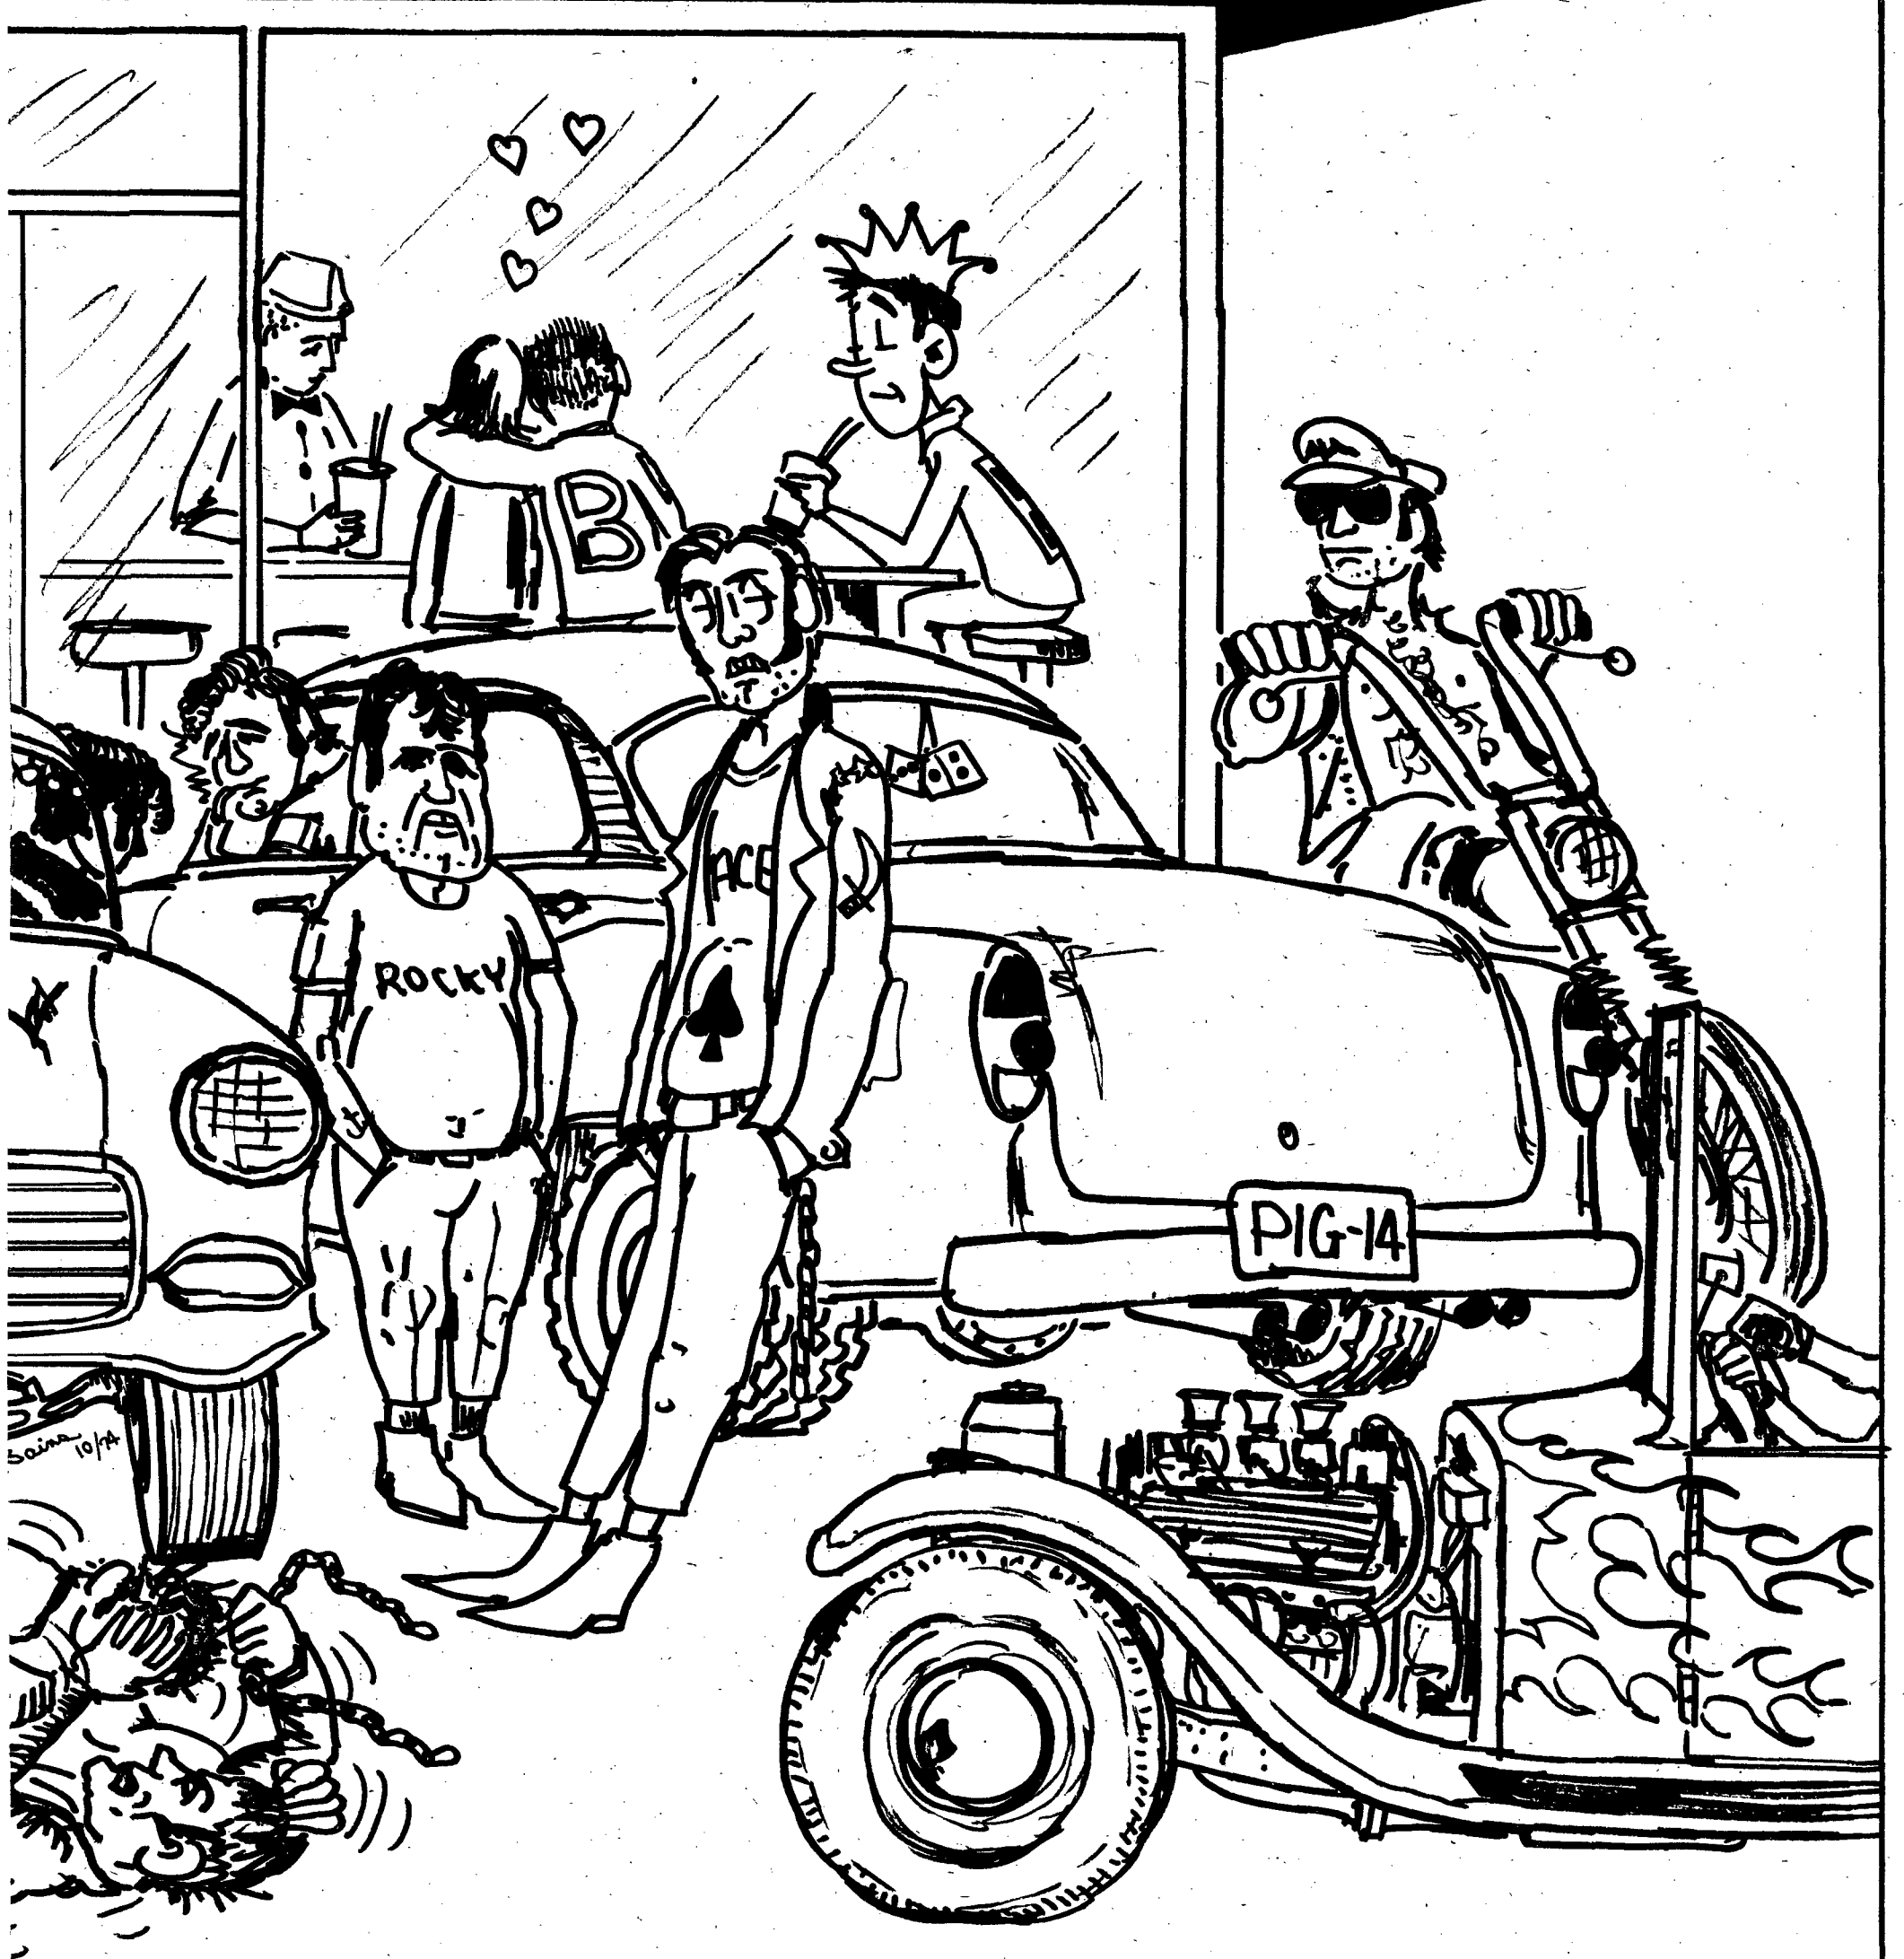

D.M. MacPherson, Bursar  
(Acting Secretary- BOARD OF GOVERNORS)

## bcit wrestling

The BCIT Wrestling is off and grappling, with practices being held Mondays and Wednesdays at 7:30 in the Residence Gym. Our problems with the gym closure have been solved, and we are preparing for our first tournament, which will be the UBC Invitational on Nov. 16. We can still use team members; come on out. Wrestling--you've got to love it.

## RESOLVED:

"That Free Enterprise is superior to Socialism for Canadians."

This is the topic of the next BC Intercollegiate Debate. Do YOU have an opinion? Would you be interested in representing your school in this debate at Vancouver City College, Nov. 22/23, 1974. If so, contact Mr. Peter Woolley - Department Head, Business Management, Office 215 or myself Paul Minett, in the SAC offices (local 601) - leave a message.

## "DO YOU HAVE TO HAVE A COCK TO DRINK BEER"

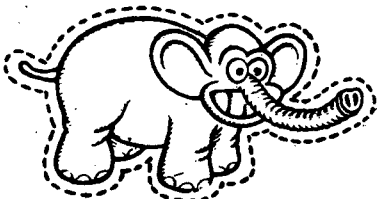

BCIT's annual Biefrest was generally a good time. There was an exception, though. The Chug -A -Lug contests had good participation by both guys and girls. However, when the final contests were held, the prizes for the guys and girls were very different. The overall guys winner won a Commodore calculator, but the overall girls winner won a BCIT beer mug. I would like to know who was in charge of this, and I would like to ask WHY THE DIFFERENCE??? Both the people had to enter two contests, and win both, and yet the guys victory seems to be more important. I hope this error has been noted, and will be corrected for future contests.

## DOES B.C.I.T. CARE?

I sure hope so because Variety Club Telethon (in aid of handicapped children) is coming up in February of '75 and I'm going to need a lot of volunteers to help me out. This will be the fourth year B.C.I.T. has provided the manpower to run the telethon, and I would like this year to be as much of a success as in previous years. You don't have to think about it now - I just want to keep you tuned in to the "charity" end of things. However, I do hope that you'll be ready and willing when I need a hand. Thanks for your time.

Karen L. Duffy  
Charities Co-ordinator.

## WHERE HAS OUR 3 HOUR BREAK GONE?

by Paul Minett, Student, Financial Mgt.

By now you will have noticed a blank spot on your timetable from 11:30 to 2:30 on a Wednesday. (Unless you are one of the unlucky ones!). This is the time which most students refer to as 'the three hour break'. This break has been used in the past, and is being used this year for Club meetings, Intramural sports, Extramural sports, and other activities. The film club occasionally show films, and the Student Association sponsors acts in the SAC Cafeteria for the students to watch. Sometimes controversial speakers are invited to give lectures which may interest or benefit the students.

Some students who did not realize that these activities are available have been studying during the break, and some classes have been moved into the break time-slot.

The reason the students were granted the three-hour break by former principal Dean Goard was to give us a chance to provide these activities for the students. Mr. Goard instructed timetabling to leave this time blank for all students, and for a number of years this was done.

This year, however, timetabling found that it was not possible to leave three hours open with out scheduling classes on Saturday mornings, (or so they said). They were instructed by the Student Association Executive in August to avoid both Saturday morning and Wednesday break classes. Regardless, classes were, for some students, scheduled during our break. To these students there are very few activities open, since the break is the time for the activities.

Also, as happens every year, a number of technologies, with perhaps one class on Wednesday afternoon, requested that it be moved to 11:30, so that they could leave early. Feeling that this was against established policy, the SA Executive again said no, and informed all instructors of their decision.

As a result of the memo sent to the instructors, the Student Association has received many complaints and suggestions as to how the problem could be dealt with. These are the suggested alternatives:

1. Two two-hour breaks, one on Tuesday, one on Thursday: Most club meetings are over in 1-1 1/2 hours, most sports take less than two hours for a game. This would allow for 4 hours of participation rather than the present 3, and the time off could be more effectively utilized. Teams could hold twice as many practises, meetings could be held on two different days, rather than the present Wednesday set up.
2. A whole afternoon off, once a week: This would mean a possible 4 or 5 hours of classes in the morning, and the whole afternoon off. The students would request Wednesday afternoon off, but probably get Friday afternoon, which is when many students already have a light day. This would be very convenient for both students and instructors, since all week-ends would start at Friday noon. However, from the point of view of the Clubs and Teams, both Intra- and Extra-mural, this policy would be bad. Potential teams would be weakened, since most students would have left for the week-end by the time of the practises. Clubs would be in the same positions as the teams.
3. Leave the break as it is with NO classes in the break time. Keeps all meetings and sports on Wednesday, edit the newspaper on Wednesday, show movies, etc, and leave the problem of making a decision until next year, when there will be more students, more classes, and more hassle.
4. Drop the whole idea of a break, have time off when timetabling wants to give it to you. This of course means no clubs, no sports, no films and no speakers.

These alternatives given, the Student Association had a special meeting of all division reps, on Tuesday October 15, at 7:00 p.m. All reps were to have asked each class before that time what their preference was out of the alternatives given.

This is a summary of that meeting:

Motion: (summarized) Change to an afternoon off as soon as possible. Motion Defeated.

Motion: (summarized) Change to an afternoon off in September 1975. Motion Defeated.

Motion: (actual words) Moved by Donna Pasko, seconded by Marian Benjamin: I move that the three hour break be kept as it have been in the past. That is that no classes may be scheduled in the three-hour break by timetabling. But if there is a 100% agreement by the class and the instructor a class may be moved. I believe that the students of the school will utilize that time to their best advantage. Motion Passed, 13 / 4 / 2/

It was also pointed out that while 100% is required, it is probable that a majority would sway any decision, since a few won't hold up the rest. For example, one basketball enthusiast in a class will probably not argue too much if everyone else in the class wants the class during basketball practise time.

It was mentioned that if Students are allowed to re-schedule their classes, then timetabling will assume that they can also. If this happens, and it inevitably will, we will have lost the break altogether.

One point which was not mentioned was that before a class can be re-scheduled, it must go through timetabling, because timetabling have to approve all room changes.

Well, the decision was made, on what it seemed was the feeling of the majority of the student body. I believed this to be the case until I discovered that some classes were asked their opinion after the meeting, and some were not asked at all. Therefore their opinion was not even considered in making the decision.

Is this a democratic process?? Nineteen people decided the course of the entire student body, without first consulting that entire body. Do you feel that this is fair? I call for a referendum of the students, with the majority decision being the rule. I argue that the students, should know all the facts and all the alternatives. Some students who voted didn't realize the implications of their decision.

The foregoing points were brought up at the meeting, but in the interest of an early adjournment they were disregarded. The decision, which will affect students for years to come, was made too quickly, and without enough thought. Are we here to be politicians, and make hasty decision which we will later regret, or are we here to decide on well thought-out matters?

The thirteen people who voted for that motion meant well, but could it be that they made a mistake? Do YOU think that they made a mistake? Do YOU feel that this should have been an impromptu decision, or should all students be consulted with a legal referendum???? DO YOU WANT A BREAK AT ALL???

If you agree with me, or even if you don't, why not tell someone? Write to the LINK, or to me, or to one of the SA Executive, or talk to your class president, whatever you do, for Chirst's sake do SOMETHING.

Our legislation is supposed to be for you, and your opinion MUST be considered.

## MOVIE REVIEW

AIRPORT '75 By HAL HICKEY

Airport is back, shorter in 1975, but fast moving and captivating.

Airport '75 stars Charelton Heston, George Kennedy, Susan Clark, Linda Blair, Helen Reddy, a cameo appearance by Jim Plunkett (quarterback of the New England Patriots) and Gloria Swanson who plays herself.

Airport '75 is a perfect example of today's modern movie, a 4 hour movie crammed into 1 hour and 45 minutes. Being short, it leaves out important character developments which are essential for a movie such as Airport '75.

The cast is a long list of familiar names and faces which tend to spoil the reality of the event, always spotting someone and trying to associate what T.V. show he or she was in. Because of the short length and the large cast of the film a great mistake was made. In an attempt to explore into the characters, the director tries to explore everyone's character. What he does accomplish instead is a short-lived brush on everyone's background and character. Through the entire movie, one becomes lightly annoyed at the jumping from character to character.

Airport '75 is not unlike other movies involving passenger planes. Everything occurs in the air right from the delayed and confusing takeoff to the ending which brings a large sigh of relief.

The story starts out at the passenger entrance gate, and with rapid jumping between characters, it is quite confusing. The jumbo 747 is diverted off route to Los Angeles because of fog just as a small private plane is also diverted. The pilot has heart trouble. Add one and one and you get a collision. If you saw the preview, you know what happens then. If not, well I won't spoil it. From then on it's up to our heroes, the Stewardess, (Susan Clark) and the well known super pilot, Charelton Heston.

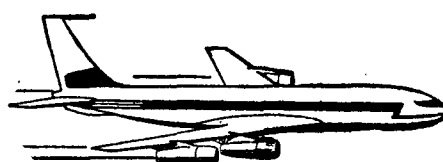

The film offers magnificent and probably the best and clearest of any aerial photography ever shown to the public. Many eye pleasing sights make an appealing movie. It should be on T.V. next year but commercials would tear the fast moving action apart. So, if you've nothing better to do, truck on down to Loughheed Mall, Cinema 1 and enjoy your eyes.

## Engle & Olack PICK OF THE MONTH

## by Engle & Olack

Bachman-Turner Overdrive - NOT FRAGILE  
on Mercury Records.

All right, who holds the #1 spot on the Billboard chart? That's right, Canada's own Bachman-Turner Overdrive. If you have ears you know the reason why, because you can't listen to the radio without hearing a cut off this album.

Of all the albums we have listened to in the past months this is the one that proves that boogie is still very much alive and well.

Opening the album is the title cut "Not Fragile", a foot stompin', toe-twitching piece of HEAVY DUTY rock and roll. This cut definitely lives up to its name and proves that B.T.O. is no two bit, hackneyed Canadian group.

The second cut "Rock is my Life and This is my Song" is self-explanatory for those of you who feel the same way. "Rolling on Down the Highway", the third cut, is one of the meanest songs on the album, a real mother trucker. Ninety-nine and nine ninths percent of the west coast must have heard the fourth cut "You Ain't Seen Nothin' Yet" and if it's the only song you've heard, then you definitely ain't. Another superb foot stomper.

The last cut "Freewheeling" is dedicated to Duane Allman and contains some classic guitar riffs in the style of the late Allman brother. A beautiful instrumental that shows why these four musicians are so popular.

The opening cut on Side two comes on like a real 50 ton "Sledgehammer". Another raucous number that gets you up and keeps you there. The next track hits you before you get a chance to recover from the last one. "Blue Moanin'" is a heavy rhythmic rocker that leaves you moanin' for more. The third track "Second Hand" is a true rocker in the classic B.T.O. STYLE. C.F. Turner plays some demonic inspired bass that will tap in your feet for days. The last cut "Giving It All Away" is a fast moving screamer that draws away whatever energy you may have left just to sit down and rest.

If after listening to this record your blue suede shoes aren't worn out, you either have a hearing imperiment or you don't like music. (so why are you reading this column anyway?)

This has to be the most high energy rocker of an L.P. we've had the pleasure of listening to. This one gets the buy of the month hands down. (Get it, it's great, and it's Canadian).

Golden Earring - MOONTAN on MCA Records

We expect most of you are familiar with "Radar Love"; well, here is the L.P. by Golden Earring chock full of equally fine musical selections to tickle your eardrums. Although they are not as well known over here these boys have nine records plus three best ofs to their credit back in Holland. If their music in the future is as consistently well done as this L.P. they will be a big name to watch out for in the coming months.

Side one opens with that familiar cut "Radar Love", longer than the AM version but just as hot. A real boogie number. The second cut "Candy's Goin' Bad" is another good rocker which sounds like it was influenced a great deal vocally and musically by the Alice Cooper band. The bassist, Rinus Gerritsen, pounds out some very classical riffs almost exactly as Dennis Dunaway does for the Coops band. Towards the end of this cut the music slows down and unfortunately loses a large part of its driving force.

The last track on this side "Vanilla Queen" is an interesting combination of musical expressions including heavy rock, billowing keyboard work and acoustic and lead guitar work a la Focus (not to mention some very strange sounds that make the cut on the whole an intriguing conglomeration).

The first cut on the second side "Blue Sea, Big Tree" is again a mixture of different sounds. Although it is well done, it is a pity somewhat that the group did not select one particular sound and develop it to its peak. The unfortunate result is that one is left waiting for a musical climax that never occurs.

The final cut "Are You Receiving Me?" has unfortunately not fall victim to Golden Earring's habit of flitting across the musical spectrum. Possessive of a steady rhythm with some very mellow complementary overtures it is heavy yet fluffy enough to listen to without having to be in a raucous state of mind.

On reflection this album contains some easily distinguishable influences from some of the better groups around these days but it is not totally without individuality. If you like "Radar Love" or have it, you'll undoubtedly like the album.

EDGAR WINTER GROUP "SHOCK TREATMENT" on epic

Having reached new heights of popularity with his last album, "They Only Come Out At Night", and the super single hit "Frankenstein", Edgar has come up with an album that isn't called "Shock Treatment" for nothing.

Opening side one is a typical rocker from the storming albino called "Some Kinda Animal", which really gets your

feet tapping. This cuts into "Easy Street", with some of the best vocals done by Winter in a long time. A very nice bluesy number with some super saxophone.

The next cut is probably the smoothest song on the album, and describes exactly what its title says, "Sundown". Written by bassist Dan Hartman its mellowness really makes you want to find a sundown somewhere so you can play the song at the same time. On this cut the lead guitarist presence is really felt, and if his playing sounds familiar its because the new guitarist for Edgar Winter is Rick Derringer of "Rock and Roll Kootchie Koo" fame, and who incidentally produced this album.

"Sundown" blends into "Miracle of Love" which is a perfect dance number for parties with its excellent beat, musicianship, and overall excitement.

Side one closes with another hard rocker called "Do Like Me", where Edgar gets back to his origins with some gutsy vocals and some solid rocking music.

Side 2 continues where I left off with some rock'n rollers called "Rock'n Roll Women", "Queen of my Dreams", and a jumping little number called "Rivers Rising".

"Someone Take My Heart Away" is a very pretty ballad by Edgar, and with Dan's "Maybe Some Day You'll Call My Name" the romantic part of your head is kept very much alive and well.

The last track on the album is very much fashioned after "Frankenstein" and must be played loudly. Edgar has really created a monster with "Animal", and its definitely going to be a very popular stage showpiece. Its a typical gutsy Edgar Winter heavy rocker with all kinds of electronic sound effects.

If you want an album that has a little bit of everything; blues, ballads, jumping dance tunes, and heavy rockers, then this record is what you've been looking for. Definitely a fine job by this veteran of the rock world.

JOURNEY TO THE CENTRE OF THE EARTH

by Rick Wakeman  
A & M records

Rick Wakeman is well known for his extraordinary ability at playing some thirteen keyboards with gutsy vigor, in his old group YES. His first solo album, "The Six Wives of Henry the VIII" proved that he is indeed a master of all the keyboards he is famous for.

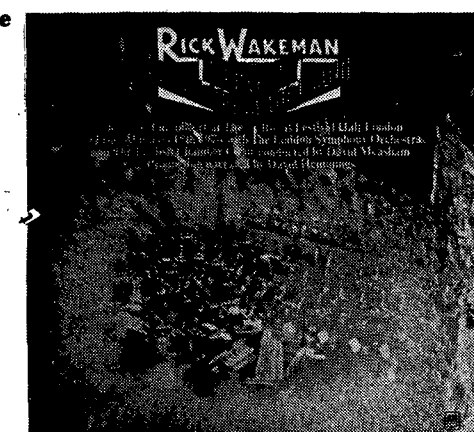

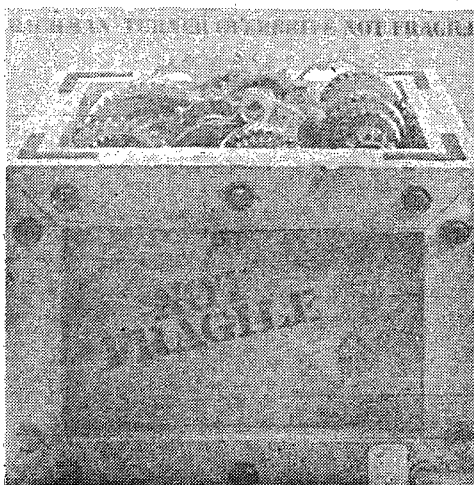

However, on this, his second solo outing, Rick Wakeman has gone back to the origins that turned him from a starving pianist to a rock millionaire; classical music. (The same brand of music that caused his break from YES). Gathering together a group of unknown musicians, Rick proceeded on his own journey, so to speak. After writing and composing all the music for this extravaganza, he decided that in order to create the proper mood the album would have to be recorded live. With the London Symphony Orchestra, the English Chamber Choir, and actor David Hemmings as narrator, what transpired on the evening of January 18, 1974 at the Royal Festival Hall in London may perhaps be Rick Wakeman's downfall.

It opens with a song called "The Journey", complete with orchestration and a strange buzzing sound. This leads to some offkey vocals and the first of Hemmings narration. Some not to badly done rock'n roll, and then that strange buzz leads into more narration.

The second song "Recollection" seems more like Wakeman reminiscing about his own past than keeping with the plot of his composition. Some very nice sweeping orchestration, and more narration close the first side.

The second side starts with some soft sound effects, and even more narration by Hemmings, then bursting into a piece called "The Battle" which is supposed to sound like a battle between two sea monsters, but gives the impression of a pee-wee soccer game. Gary Pickford-Hopkins sounds like he's going to cry "mommy help" at any second. Just as Wakeman starts to improve on his keyboard playing, Hemmings cuts in again with his atrocious Richard Burton imitation. From here the music picks up and begins to sound like the kind of music that Wakeman is known for. Hemmings blows it again with his mouth and seems to take over the rest of the album as it closes with what might have been the best part of the album except for those vocals again.

Overall this album is basically not bad if you like musical soundtracks. Personally we believe Wakeman should have found a better vocalist, chucked the orchestra for a mellotron, and spent some time in the studios perfecting what is essentially a good piece of music. But, more than anything, he should send David Hemmings back to acting school, so he can learn to use his voice properly. (After listening to the album a few times it does become enjoyable)

## ELTON JOHN: THE KING OF ENTERTAINMENT!

by Lalli and Olack

Elton John; performer, rock millionaire, king of the AM airwaves came to Vancouver this past Thanksgiving Day weekend and totally delighted over 17,000 fans who proved their loyalty to this one of a kind rock idol.

Before going into Elton's superb show, mention must be given to the opening act, Kiki Dee and her band. Who is Kiki Dee? She is a ten year veteran of the rock scene and has finally come into her own thanks to her super producer, Elton John. Elton's favorite "Rocket Girl" come onstage to an audience who not only didn't expect her but didn't want to hear any of the soft songs she played. Transmitting a true performer - to - please attitude she informed the audience that the next song was HER song and she was going to sing it just for them.

Capturing the hearts of everyone with her personality, Kiki sang her song and then broke into aboogie number called "I've Got the Music in Me" that really moved the crowd in the right direction. A few more pleasant songs set the audience in a serene mood for the last time in the evening.

After a short break the lights went out until a lone figure stood centerstage all aglow in a lighted suit. Screams of joy erupted through the Coliseum as Elton John opened with a stirring rendition of "Funeral for a Friend". Elton John had arrived and everyone in the Coliseum knew it.

A standing ovation was the order of the night for the rest of Elton's songs. Breezing through his more popular numbers; "Grimsby", "Rocket Man", "Daniel", and "Benny and the Jets", his stage show was nothing less than fantastic. Performance wise, Elton is unsurpassed in total energetic drive to please his fans.

Unlike many recent concerts the sounds of Elton John and Kiki Dee were surprisingly clear. All the instruments somehow came out melodiously despite the horrid acoustics at the Coliseum. Top-notch musicianship is nothing new from Elton John and his band, and they certainly proved their talents that night. Davey Johnstone did a lot of perfect guitar work to add to the flash of Elton's piano pounding, and Dee Murray and Nigel Olsson's rhythm was strong in the background supporting the constantly rocking ivory tickler's every beat. Also on hand for added flash were the Muscles Shoals Horns section from Alabama and a manic percussionist named Ray Cooper who is perhaps the number one session man for percussion needs.

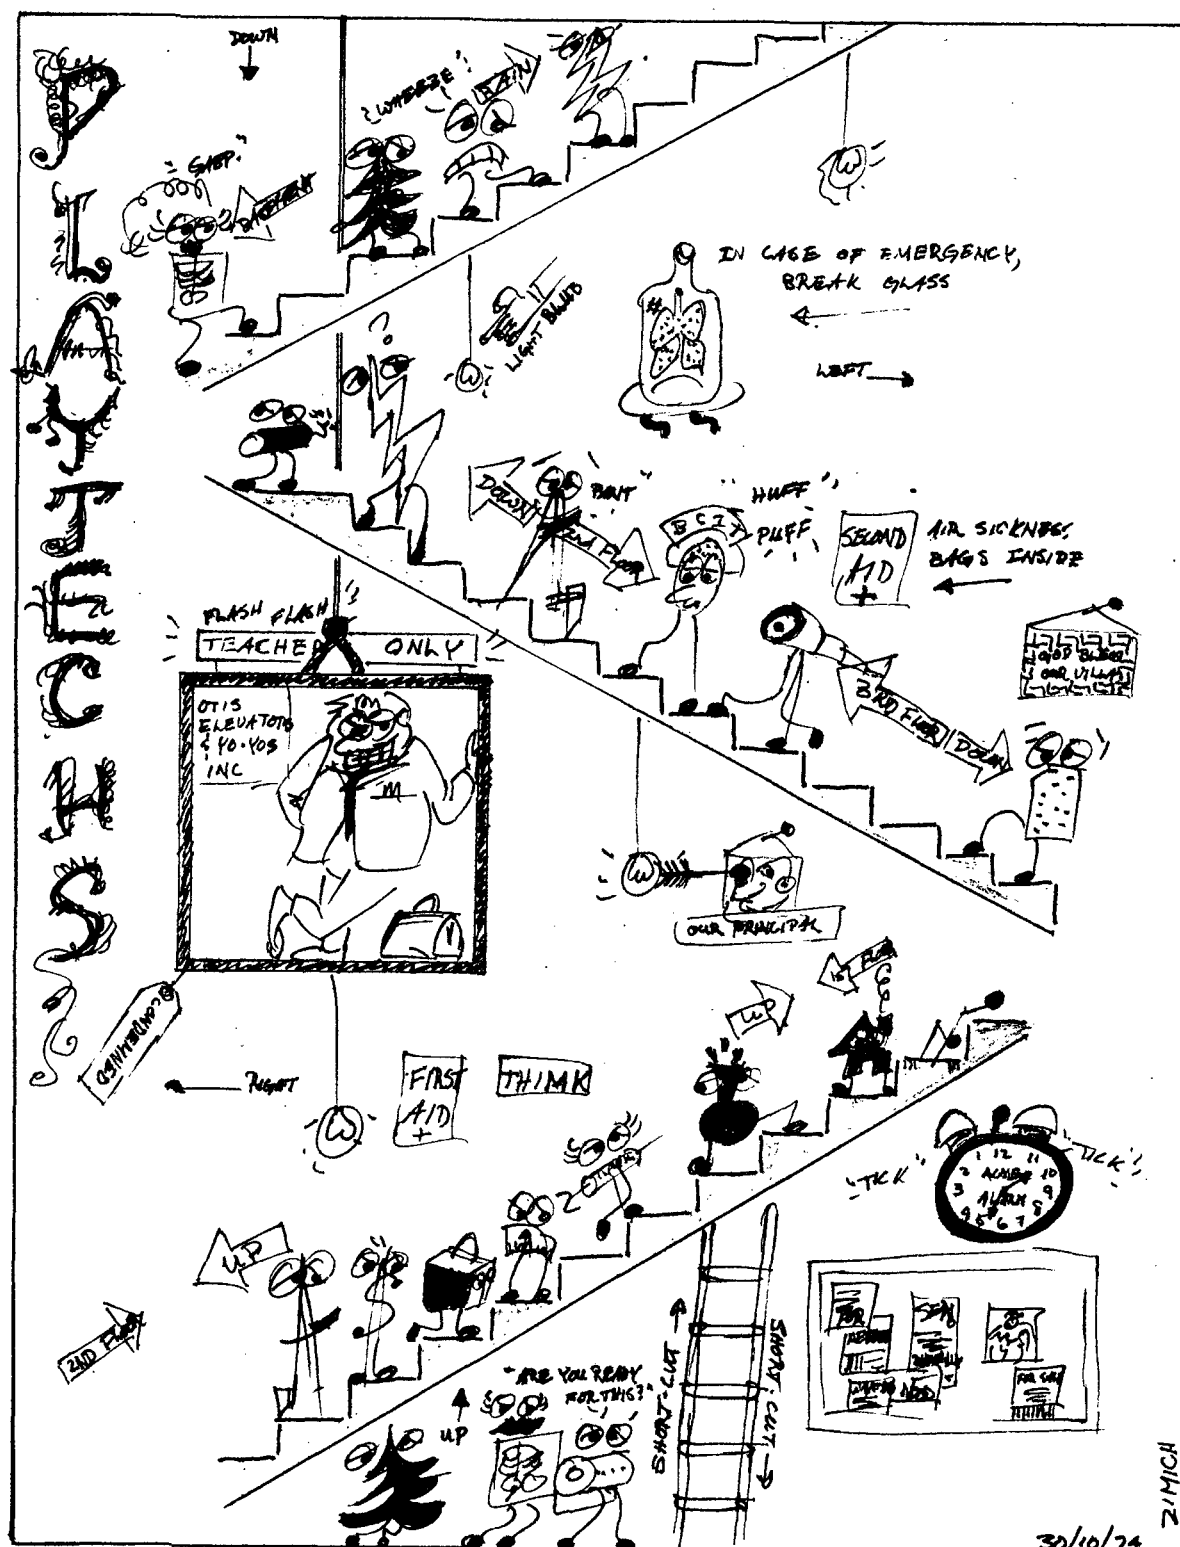

**Topping the performance were the two encores that totally mesmerized these critics - "Crocodile Rock" and "The Bitch is Back". The excitement in the air was so tangible you could almost taste it.**

The high point of the concert had to be Elton's fabulous "Saturday Nights Alright for fighting". The entire audience swayed and clapped as the piano king played this storming rocker with characteristic energy. At Eltons invitation, the crowd began to sing the chorus while the rock star danced his lights around the stage.

At no other concert we've been to has the audience stood up and sung along so loudly that they almost drowned out the band. And drowning out a nine piece electrified band is not an easy task.

To sum up the total event, it was the most fun concert we've been to in a long time. The audience response coupled with the perfect performance by the blonde piano wacker all added up to a very superb evening. Next time he comes to town get your tickets as soon as they go on sale because they won't last long. And he will be back soon. Elton said so himself.

# playtechs

### LIBRARY OPEN TO SUGGESTIONS

The library was closed on Thanksgiving weekend as it has for the past ten years. There was no attempt to inconvenience anyone, the library was just doing what they have been doing since its foundation.

This year there were some complaints from students who had wanted to study in the library. As Mr. Harris, the librarian, now knows that some students do wish to study on Thanksgiving weekend this problem is not expected to occur next year.

To help keep communication between the library and students open there is a suggestion box by the circulation desk. If you have any suggestions about hours or methods of operation drop a line in the suggestion box. IT WILL BE APPRECIATED!!

Burnaby B.C.**

# clubs

We have 19 active clubs in the school now, a complete list, with presidents names is below. Cut this out for later reference if you find you have more spare time that you thought.

You have ask what the clubs are doing. Well, have you been watching the bulletin boards around school? The Scuba Club is giving lessons, \$60.00 each, which will include 4 ocean dives. The lessons are provided by Diving Locker. The first course is has 6 openings., and we will soon consider names for another course in the new year.

As you see by the pictures below, the Kung Fu club are out kicking and throwing. Yes, those are girls out there!!! There is a big Kung Fu demonstration planned in the gym sometime soon. The outdoors club has started to work on the Whistler Lodge with volunteers from outside the club. The Bridge Club, see picture below, are playing every Wednesday noon, and every second Sunday. Watch for the posters.

The BCIT Band still practises every sunday from 10 am to 1pm. They will be playing some of our pubs soon, so watch for time and places.

Ballroom Dancing, Every Thursday night at 7:00 the Ballroom dancing club gets together for an evening of lessons from Ken Kajewara. This is a lot of fun and a good chance to meet people.

The Chinese Students Society had London Express band at a pub recently, everyone had a good time. Hope we see more of these in the future.

Films start soon and we hope to see comprehensive film programs published in the near future.

Well thats a few activities of the clubs. If you want to know about any others, the phone numbers are below, or, the posters are all around.

Some ideas for the future are a clubs dance, in January, and a Clubs day in November. All clubs can use more members and its only \$2.00. Come on out, have fun, meet people, and round out your education with a little social indulgence.

## CAR CLUB RALLY

### CLASS - A (UNMODIFIED 1600cc and UNDER

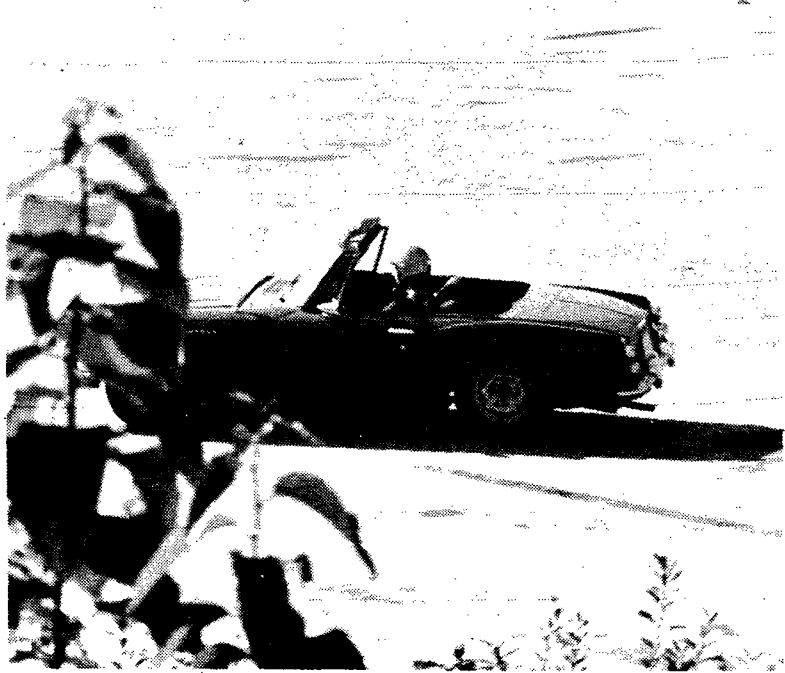

NAME	BEST TIME	STANDING
Scott Cameron	57.4 sec	1st in class 1st over all
Danny		

NAME	BEST TIME	STANDING
Scott Cameron	57.4 sec	1st in class 1st over all
Danny Chu	58.5	3rd in class
Greg Lamb	61.4

Square Dance	Roy Harcus	433-7254
Ten Speed	Eric Meyer	255-1645

NOTE: Any phone numbers not given phone Paul Minett local 600 or SAC office.

#### LOBBY FURNITURE:

The lobby of our SAC building is in desperate need of some comfortable furniture. At "The Northern Alberta Institute of Technology" they have seating that is hammock style, using shag carpet. We have the blue prints to construct such furniture, all we need is the resources to buy it with.

The SAC building was built for BCVS and BCIT students. The lobby has never properly been made use of. This is a two year school and we don't feel that student activity funds, which you all pay \$25.00 per year towards-should be used to pay for such furniture. You aren't here for a long enough period of time to get a tangible return from it.

To obtain the funds, there is definitely channels through which we are seeking support. In order, here they are:

1. The Administrations
2. The Board of Governors
3. The Department of Education
4. Mr. Barret & The Treasury Board.

Hopefully, we will not have to go farther than the first source. It will take less time, to get YOU the furniture.

Once we have the funds, it will not take long to get the necessary materials. From this stage we will need someone to build it for us.

The possibilities are:

1. Student Volunteers
2. Professionals

The first alternative is how we as a group can use our own energies to achieve our goal. The facilities & people on BCIT & BCVS campus is a very large potential.

We also need furniture for the Whistler Mountain Lodge, this project can "kill two birds with one stone."

I will keep you informed on all progress, and a larger colour picture of this furniture will be posted in the SAC lobby.

Sincerely, Blaine Kennedy

UM... UH... HOW  
ABOUT SLIPPING OUT  
FOR AN OLD STYLE?

YOU TALKED  
ME INTO IT, YOU  
SILVER-TONGUED  
DEVIL, YOU!

## WILLINGDON SCHOOL

Not only did the Willingdon School for girls provide residence facilities for students attending BCIT & BCVS, in 1973 it provided athletic facilities (pool & gymnasium), 5 classrooms to accommodate approximately 1,000 students in extension & evening courses, & 200 students during the day in the Industrial Services Dept. Plus a work assessment programme was instituted to aide the performance assessment of the physically handicapped. Food service students used the cafeteria as a training centre, Justice Training students used the Gym for self-defence classes, etc. The Willingdon complex was in use for the full year of 1973 for 7 days a week, 24 hours a day.

On October 24, 1974, members of the Willingdon School Comm. the Board of Governors & Administration, to include Gordon Thom, J.D. Michaels, V.J. Langan, M. Ferrie, C. Gibbons, G. Fane, B. Kennedy, J. Caldwell, D. Macpherson & D. Hume, attended a conference in Victoria to initiate the need of keeping the Willingdon Complex for residence purposes.

Spokesman on our behalf was Graham Fane, student liason. He stressed the on-going operational needs of the complex. With reference to shelter as 1st importance, he pointed out the "desperate need" list to include some 450 odd names. He then proceeded to emphasize that the 110 possible spaces in Willingdon Complex would not alleviate our problem but would bring the residence ratio closer to that of other campuses.

Other areas of concern are: the Extension Division where 1000 students participate in night time classes. With added facilities this enrollment could increase even farther. The Industry Services Division where 45 students resided in portable units to use the pool & gym for their fitness programme. (This year main operation for them is conducted in a trailer because we don't know if we will have Willingdon Complex for long.)

Central Stores also benefitted by using the basement of Willingdon Complex for storage space. But needless to say, much more expense has been inquired because of off-campus rental space needs.

And because existing recreational areas are so limited, use of the pool & gymnasium was scheduled for use by some 6000 staff & students.

After pointing out the areas of use that Willingdon Complex has provided for the students in the past and on a temporary basis so far this year, Graham went on to illustrate some of the concepts appropriate for a permanent residence for the future for BCIT.

One justly reasons that the existing space that Willingdon Complex holds for a future residence is because it lies close to the campus and the encompassing large allotments of land on the perimeter of BCIT campus have been reallocated for vehicle testing stations and ICBC CLAIMS.

We will receive a commitment for or against our use of the Willingdon School for Girls in the next week and we will then be able to advise you of the answer.

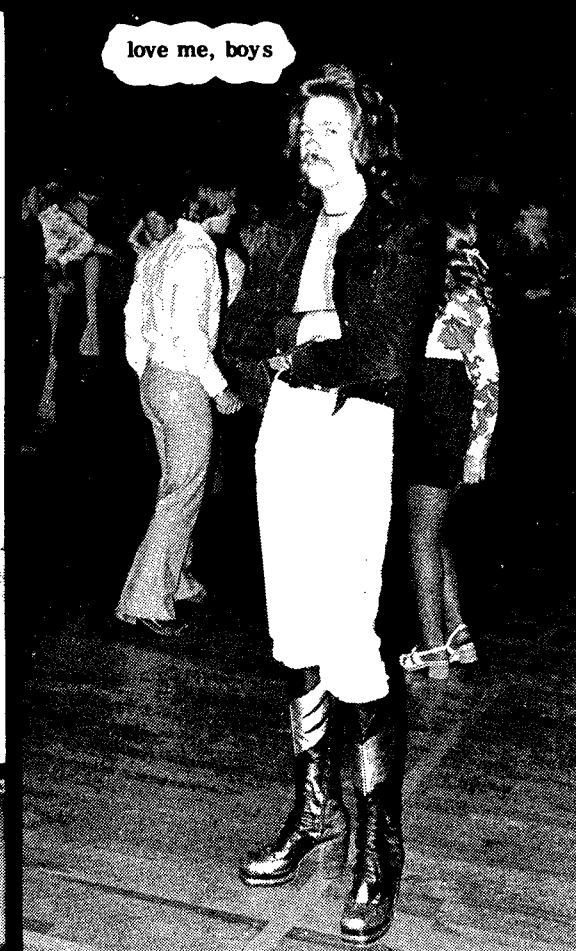

# foto funnies

Now cough.....

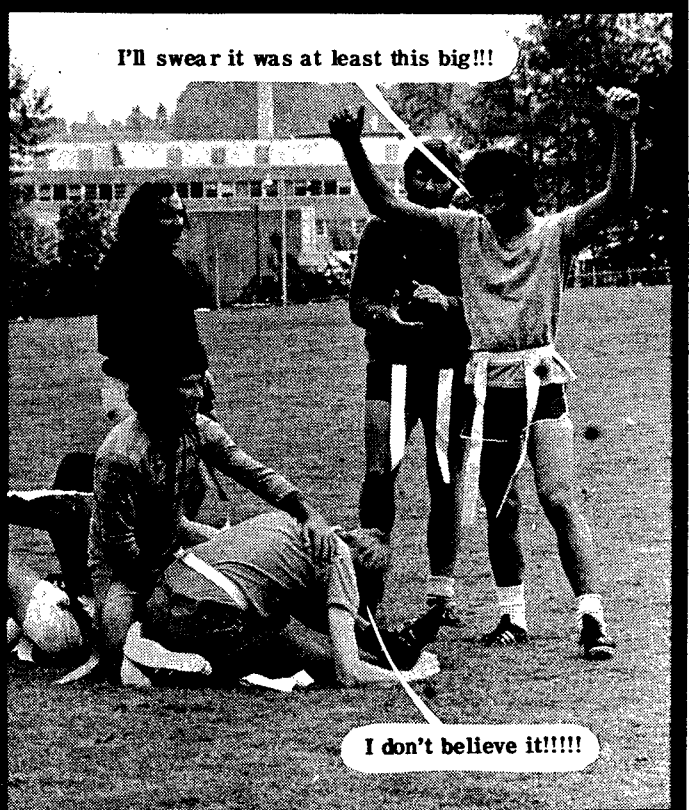

love me, boys

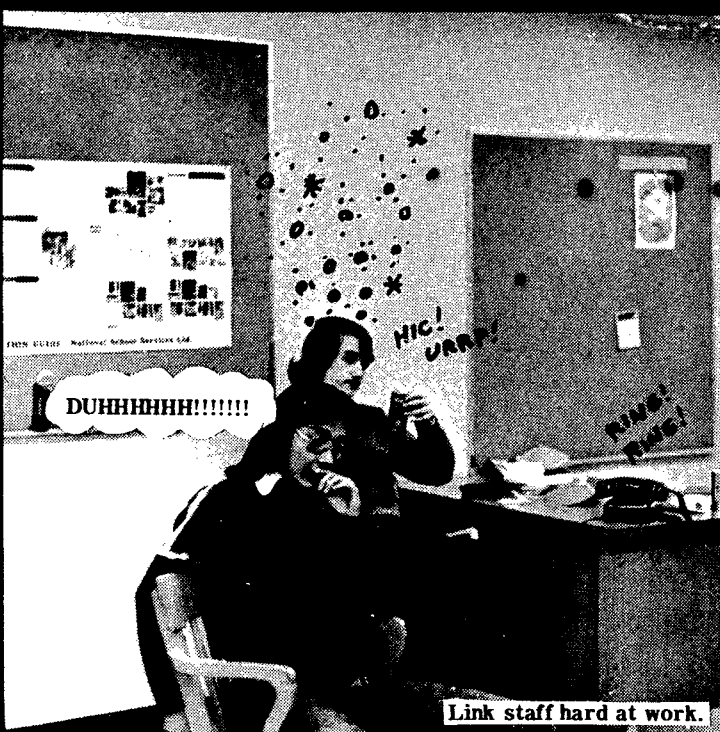

Did you see the size of THAT one?

I'll swear it was at least this big!!!

I don't believe it!!!!

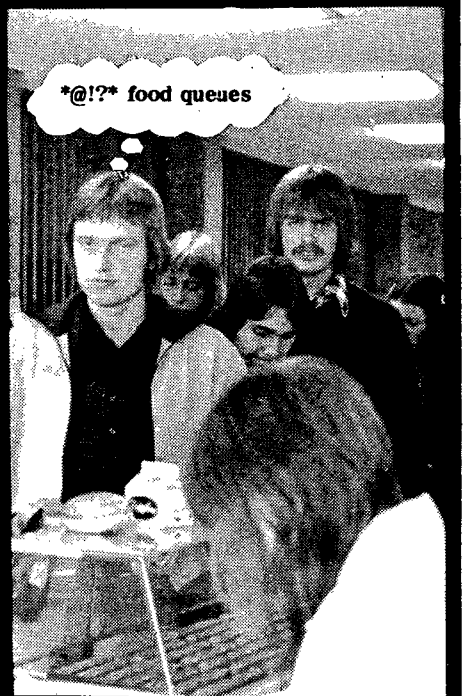

Link staff hard at work.

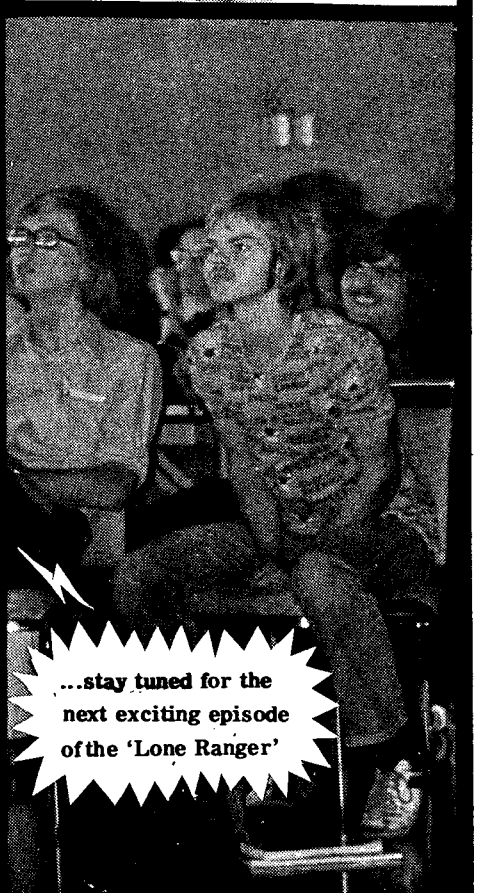

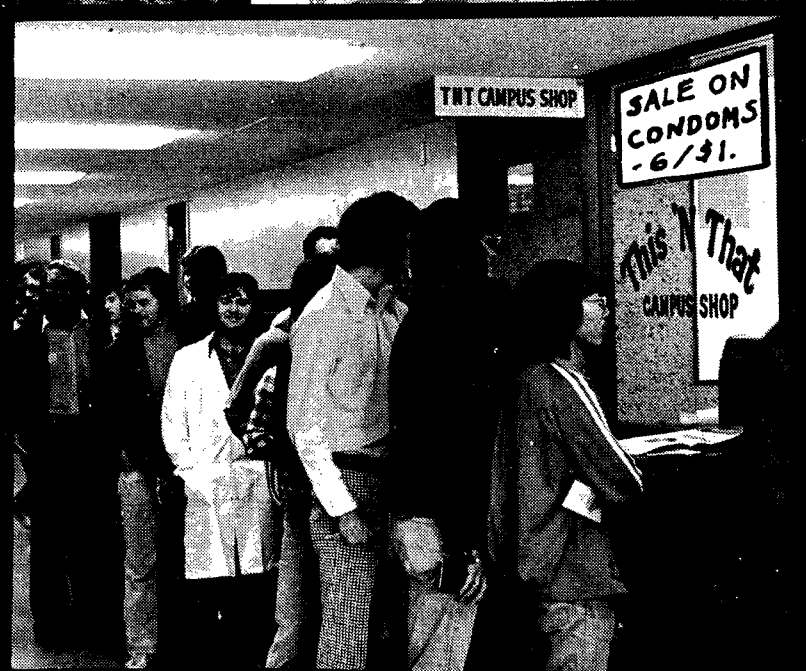

PEEP!!!

\*@!?!\* food queues

Are you sure they want a ditch around this tree???

...stay tuned for the next exciting episode of the 'Lone Ranger'

# intramural sports

BY PULICE & KLAVER

INTRAMURAL QUESTIONNAIRE

A questionnaire will be making the rounds during the next month to find out what you think of the intramural program. The program and its people are not looking for a pat on the back. Good constructive criticism and solid positive suggestions are really needed. The program can advance, but only with a reasonable understanding of its faults and confirmation of its strengths. Feedback to the program will be used, so please take the time to complete the questionnaire.

Hockey turnout has shamed football. Only one default so far among E & EI & II the losers against Forest Products I & II. Admin II must have calculated the probability of winning the championships and have opted for two ties; one against the Instrument and Systems / Bio Science team ending 5 - 5 ; the other with Hotel I & II ending 6 - 6. Building I & II squeaked by C & S II winning by 7 to 3 in a good clean game.

See the commentary on this page for the big news of Marketing's game against Finance I & II.

There has been a little stick swinging and dirty play in the few hockey games played. This doesn't help the game, the league or you. According to Jim Young, there is no such thing as a "cheap shot", you pay for every one. In other words, what you dish out, you will get back. Some people seem to confuse body checking with boarding, smashing, elbowing, etc.

One good quick way to show your sportsmanship and ward off retaliation is to ask the guy that you just knocked down if he is O.K. It only takes a second and you will both appreciate it.

The top story on the intramural hockey scene and what has to be an upset, involved Marketing II and Financial Management I & II. Marketing II, the defending champions ran up against a hard working Finance team. The first half of the game ended at 3-2 in favour of Finance. The score is not really indicative of the powerful exhibition put out by the finance team. In the second half Finance continued to keep the pressure on the Marketing team. As a result, Finance lead at one point by a score of 5-2. In the dying minutes of the second half, Marketing looked the champions of old as they put three pucks by the Finance goalie to tie the game at 5-5.

The game was a spirited one as indicated by a stick throwing incident which resulted in a ten minute misconduct to the finance goalie. E. Metson, who called the penalty felt that the action was uncalled for.

After it was all over, we asked Marketing star goalie, Paul Bittante to comment on the game. Paul said, "we were overconfident and out of shape. With some of our players missing we were forced to juggle out lines which resulted in confusion throughout the game. They outplayed and outshot us. Their goalie was good and sometimes lucky. I think that it was a poor effort on our part and a fine effort by Finance." As the interview came to a close, Mr. Bittante was quick to add, "We'll get it together, don't you worry, and I'm sure we'll take it all again this year!"

Personally, I don't think Mr. Bittante's comment is entirely true. If the first couple of weeks of competition are any indication of what's ahead, Marketing's title will be strongly contested.

The 1974 Intramural football league is soon going to end. There have been several defaults and the league has quickly shrunk to just a few teams. The standings in Division V put Forest Products II in first place with 3 wins and no losses, followed by C & S II with 4 points. In Division A, Computer I & II are holding first having won two and tied one. They have 5 points and are trailed by C & S I with 3 points. After their big year last season, the C & S squad seem to be playing bridesmaid. Could this be due to the loss of their star giant, Willie Postler, now with the Hamilton TI - Cats??

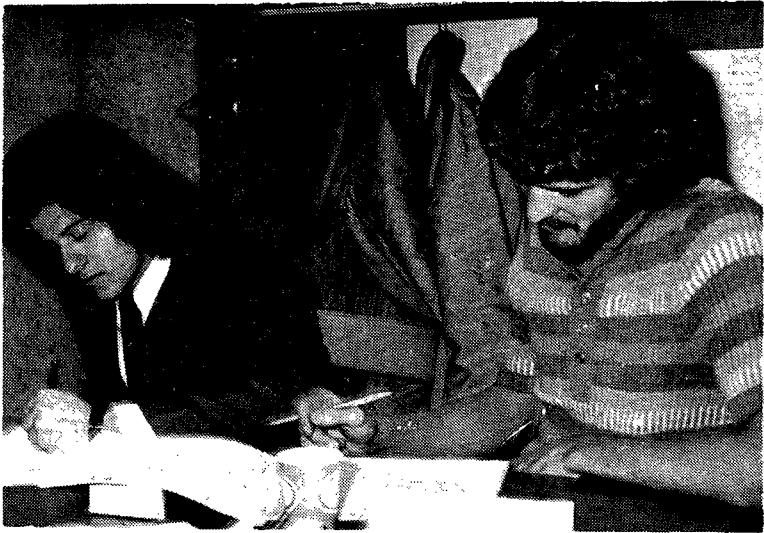

FLAG FOOTBALL STATISTICS

DIVISION A

INTRAMURAL SPORTS  
POWDERPUFF FOOTBALL GAME

The game was a hard fought affair with BCIT girls coming away with the coveted "Powderpuff Football Trophy" hands down. Led by a superb passing attack by Med Lab. Paula Norton and some key catches, the BCIT offence proved too much for the BCVS girls.

The girls were well prepared for the game. They conducted some practices at 7:00 in the morning and had a practice game against Public Health. Patti Freeman played a strong game as well as Patti Anderson, who did everything from kicking receiving, and tremendous blocking. Wendy Kwong and Karen Kennedy were also instrumental in the victory.

For BCVS Catherine Rowland scored their only touchdown and provided their main running attack. Ruth Ham, Julie Garner, Susan Erart, and Gail Lester played in the line. The BCVS girls were less in number and seemed to be tiring towards the end of the game but they tried hard.

TRIP TO SASKATOON

My trip to Saskatoon was very informative and I hope to put to use information I gained for the coming year. A few points I picked up were:

- 1) 3 on 3 mixed basketball games.
- 2) Intramural sports Banquet - how to schedule, conduct, and operate.
- 3) Various methods for conducting tournaments.
- 4) Fund raising techniques.
- 5) In general the 4 west conference.

There will be for the first time ever, an Intramural Sports Banquet this year on May 1st. There has always been an annual extramural banquet and I felt there has developed a need for an intramural banquet.

The tickets will be limited to about 300 and they will be sold on a first-come, first-serve basis. There will be a dinner followed by a presentation of awards and trophies, and a dance to wrap up the evening. The cost will probably be about \$2.00 per ticket.

If any team in the intramural program wishes to get their pictures taken, I will be arranging a day next term for pictures. These pictures will be presented to the members of the team to keep as a memento. All winners in all sports are asked to get their pictures taken.

I feel that sports banquet is an excellent way to wrap up the program for the year. It should be a great evening and I look forward to seeing you there.

BADMINTON

The doubles badminton tournament starts Tuesday, Oct. 29th. The games will carry on Wednesday, and then badminton and volleyball will alternate on Tuesday nights and Wednesday, with the badminton finishing by the end of this term.

VOLLEYBALL

The volleyball league has begun but a couple of defaults took place. This can be attributed to mid-terms but from now on please check the schedules and show up to the games. If you signed up for the sport it is only fair to your team mates and your opponents that you show up.

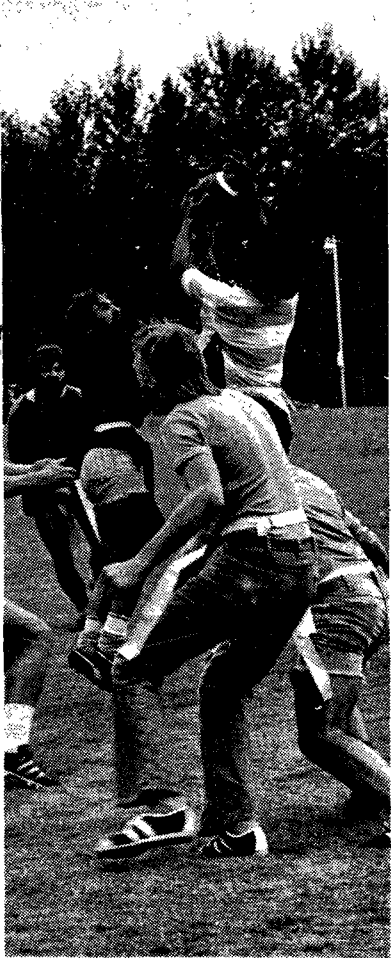

SCHEDULES

Schedules for each sport will be posted in the SAC and South Foyer, as well as in the Tech information boxes in the Sac. Sports reps can obtain the schedules from the box or from your president.

SUPPORT YOUR TECH

Spectators are welcome at all intramural games.

You will enjoy watching your classmates play.

# extramural sports

## BCIT COUGARS HOCKEY

Hockey season is well underway for the 1974-75 term. Coach Wally Rowan opened the new campaign on the road and upended Trinity Western College (in Langley) by a 9-5 margin. The game featured some heavy hitting by the Cougars club.

BCIT roared off to a fast 3-0 lead by the middle of the opening period. Ken Gusk scored the league's first goal on assists by Jerry Reglin and Maurice Regnier. Gusk followed up his initial effort by taking passes from Regnier and Mike Matson and taking the pads off the Trinity net-minder. Gerry May combined with Bill Danshin and Daryl Frank to count the 3rd goal. After a Trinity marker, Gusk once again shook the turn by converting a shot from Denis Turman in a goat mouth scramble.

The second stanza was also dominated by the Cougars, especially by Gusk. Ken laid out some heavy checks along the wings and opened the period by taking a pass from Turman and scoring with BCIT, short-handed. Big defenceman Maurice Regnier extended the lead to 6-1 by following up a 3 way breakaway from Turman Reglin. Brent Knelson tallied on a "bang-bang" play after a Trinity score to give BCIT a 7-8 margin. Regnier picked up another assist on the play. Trinity scored a power play effort with Tom Lewis in the box for interference, ending the period 7-3 (BCIT).

The final frame belonged to BCIT as did the others. Trinity's players stayed away from the corners and Cougars responded by firing barrages of shots at the opposition net. Knelson scored his second goal with a shot from the crease area after passes by Regnier and Brian McGiladrey. Reglin added the final marker on a breakaway late in the game.

## SOCCER

Saturday, September 28, 1974, BCIT - 4; Trinity Western College - 1. BCIT soccer, 1974-75 version, began in fine form with a 4-1 pasting of TWC at Langley. Once Coach Mitchell and his team herded the stray cattle from the playing field the exhibition contest was underway. Cougars struck early with a goal by Brian Taylor. Mike Tulljames followed with another marker before the close of the first half. Bob Waldhous scored in the second half to pad the lead.

The local side played well considering the lads were in their first game as a team and numerous stalwarts were about due to field trip commitments.

Saturday, October 5, 1974 - BCIT - 2; Malaspina College 3. Cougars dropped a 3-2 decision to Malaspina in their first regular season game. The visitors struck early with a long sinking shot catching the top right-top corner behind BCIT. goalkeeper Rick Smith. The locals tied the score just minutes later on a beautiful effort from Jim Stewart.

Fine running on the part of both teams characterized the second half which was much improved over a poor scrumbly opener. Malaspina capitalized with a score 7 minutes from the end of the match. BCIT quickly pressed its attack for an equalizer and it paid off quickly on a determined effort by Mike Fulljames from Brian Taylor. With a 2-2 tie in the making the contest drew to a close. However Malaspina shocked our side with a marker just one-half minute from the completion of regulation play and left town with a 3-2 steal. Goalie Smith played an excellent game even in defeat.

Sunday, October 6th, 1974 - BCIT - 6; Douglas College - 1. Psyched up by Malaspina's upset 24 hours earlier, Cougars ran roughshod over Douglas College for a 6-1 triumph.

BCIT kicked their hosts around with frequent stormings of the Douglas side in the first half. John Ross scored a genuine hat-trick with 3 straight goals to begin the rout. Mike Fulljames followed those with one of his own classics. (3rd straight game scoring) Rick Donnelly closed off the devastating first half on an excellent penalty shot.

Though tired in the second half, Cougars were able to add to their margin on a kick from Stewart Taylor. The season continues with six more games in October as per the latest newsletter.

P.S. The refereeing in the above game was "TERRIBLE"

## BASKETBALL:

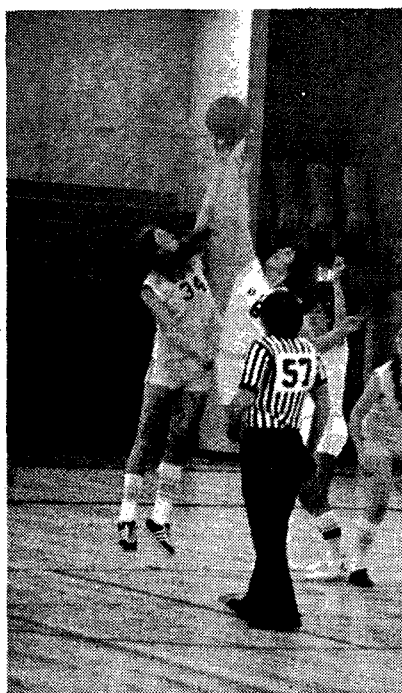

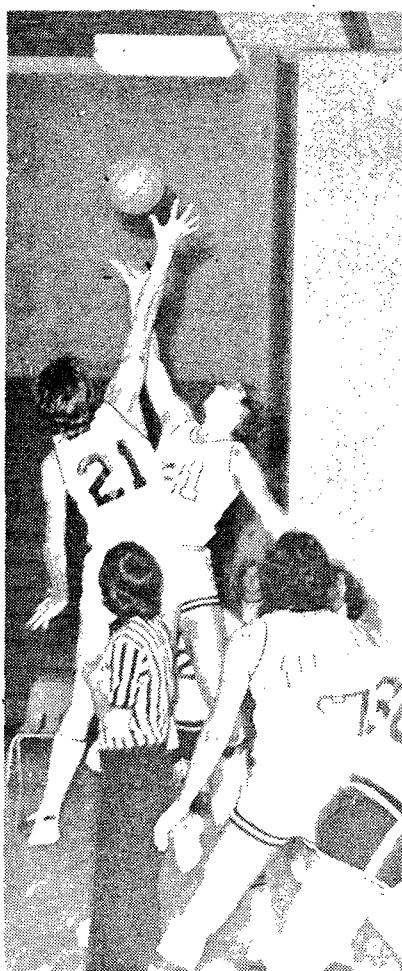

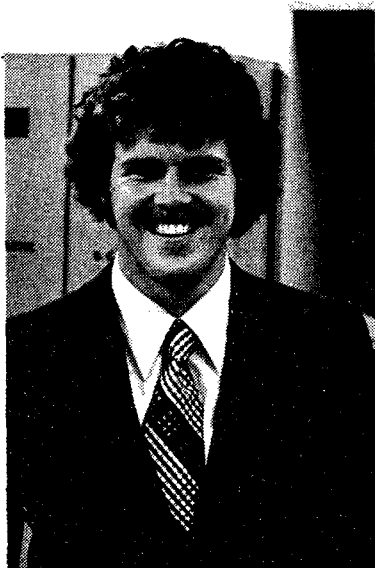

Saturday, October 19, 1974

Women: BCIT Cougars - 51; Alumni 34

Men: BCIT Cougars - 66; Alumni 30

Cougars Basketball opened on a high note with both squads taking easy victories over a rusty but game contingent of grads. Once the pre-game ceremonies were complete our girls reeled off 13 straight points and never looked back. The grads closed the gap somewhat in the second half but lack of a solid bench denied them victory over this year's "Tremendous 12". BCIT was led by centre Sandy McLaurin, who hooped 11 points. Edna Bergstrom, a strongpoint whenever on the floor added 7. Margo Wallenstein and Alyce Oswald added still another 6 each. Fine board work was in evidence from Alya and Sandy along with a determined boards and defence combination from Linda Lockerby. Linda and sister Tina chipped in with 5 points too. Other scores were by: Debbie Corbett, Kim Thompson 4; Laura Wilson 2; and Gerri Ulmer 1

## JIM MITCHELL

For the grads, scorers were: Wendy Chance 10; Sally Reber 8; Leslie Hobson 6; Rose Haylock 4; and Michelle Olivier, Linda Smart and Jay Henderson 2 each.

The mens team 1974-75 version, showed little respect for the grads either. Scoring in bunches, the Cougars roared to a 33-14 halftime lead. In the second half the coffin was sealed in a run of 19 points spliced only by a pair from the grads.

Big George Otto continued with fine play reminiscent of last year by caging 16 points while on the floor. He was a strong-point on both boards and stole the hearts of all in attendance by rattling the backboards with a late stuffer. Newcomer Dawson Brenner put on some fine moves and scored 11 points in the second stanza, including a perfect 7 for 7 performance at the foul line. Bob Gordon combined driving and offensive rebounding for another 8 counters. Ball handling artist "Moondog" Schweers added another 6 as well as taunting the opposition, referees, and team mates with numerous on and off the court hyinks. Three starters from last years Templeton squad, Gennaro Magistrak, Eddie Soo, and Peter Novakov, added 13 points as well as exhibiting aggressiveness and fine playmaking along both boards. Al McEwan put in another 4 followed by Raumo Majuri, Rich Jones with Feach. The latter also devastated the opposition over the boards in limited action. Bob Heavenor rounded out BCIT scoring with a brace.

For the grads, scoring was distributed evenly with 6 points each from Rod Reary, Barry O'Donnell, Ed Beswick, and Pat Devlin. Ken Ramsay added 4 and Jim McKay 2.

Coach Lloyd has a very impressive squad this year as does Womens boss Greg Marshall. We are without a doubt big challengers for the Totem Conference championship on both sides. For those who may not know it, "Radar" is back again too! See you at the games, Schedules are posted at all bulletin boards throughout the BCIT complex.

## CROSS-COUNTRY

BCIT's cross country team participated in an 8,000 meter invitation meet at Trinity Western College, Langley, on September 28th.

Final standing showed SFU a runaway first, followed in order by Royal Roads, Trinity Western and BCIT. The locals were led by the fine performances of Doug Schweers and Doug Stephens. Following in turn were Bob Gordon, Frank Battista, Jack Macwhinney, Stan Markowski, Pete Williams, and Chris Murrell.

While the opposition runners slept a healthy 10 hour the night preceding the race, Cougars' crew warmed up over some brew and boogey at the Frosh Dance. The team rolled in early Saturday, loose and exhibiting the finest of sportsmanship. More meets are planned for the fall. If you have inclinations to run miles and miles, please feel free to come out and run.

## RUGBY

The Cougar's rugby club is off and running again for the 1974-1975 season. In the first pre-season exhibition, the Alumni ate us up by a 30 - 10 count. The Alumni combined fancy running and strong scrum play in their victory over a collection of the new BCIT members.

Saturday, September 28th, BCIT was hosted by Malaspina College. In a roughly played contest, the teams drew 3-3.

Cougars reained undefeated by downing arch - rival Douglas College on Sunday, October 6th. Douglas, last year's Totem Champs were the victim of a 10 - 6 decision in a rough, well-contested match. Only bad refereeing prevented a larger victory margin for the BCIT side, (2 tries were disallowed).

The BCIT side travelled to Okanagan College on October 19-20. In the first contest Cougars were upset 7-0 by a sober, determined Kelowna side. On Sunday, we retaliated for an 18-6 triumph. Play continues on fall weekends. Check the bulletin boards for date and come cheer our side to this year's Totem Conference championship.

## ODD'S AND ENDS

In spite of the efforts of Mr. Tolani and the crew in the Athletic Department, I regret to say there is no women's grass hockey at BCIT this year. Thanks again to Mr. Tolani for his tenure as coach of the locals in the past years. Thanks too, to those girls who showed up anyway. Maybe next year, eh girls?.....

Cougar's Ice Hockey is off to a hell of a start. In our first three games we have clawed the opposition with an average of 8 goals per game while giving up under just the average of 8 goals per game while giving up under 3 just the same.

Soccer and Rugby are scoring well also with find ground play by both sides. Womens' Volleyball is well-supported, but more men are required (for a different team). Basketball appears to be on the way to many victories. The womens' squad features fine playmaking and spirit. Mens' lineup is BIG, fast and tough on both boards.

ICE HOCKEY URGENTLY REQUIRES A TRAINER!!!

The student press is giving us good coverage in both the LINK and the Newsletter. Thanks to Marian for sending the camera bugs to the games. Now fans, we need you too!!!!
